The purpose of this research project is to develop risk management tools to analyze producer risks associated with the employment of seasonal labor in Florida specialty crops. We are asking the Office of Management and Budget (OMB) to approve this information collection activity for 3 years.

SUPPLEMENTARY INFORMATION:

Title: Census of Agriculture Content Test.

OMB Control Number: 0535-0243.

Type of Request: Intent to Seek Reinstatement of an Information Collection.

Abstract: The census of agriculture conducted every five years is the primary source of statistics concerning the nation's agricultural industry and provides the only basis of consistent, comparable data. The Census of Agriculture is required by law under the Census of Agriculture Act of 1997, Public Law 105-113, 7 U.S.C. 2204g. The 2007 census is available on the Web at <http://www.agcensus.usda.gov/>.

The purpose of this content test is to evaluate factors impacting the census program: questionnaire format and design, new items, changes to question wording and location, respondent burden, ease of completion, and processing methodology such as edit and summary. Results will be studied in preparation for the 2012 Census of Agriculture.

Development of the test questionnaire version will come from evaluation of the 2007 Census of Agriculture, testing panels, and focus groups. NASS will also meet with other USDA and Federal agencies and selected State Departments of Agriculture to glean information on data uses and justification for county data.

The test will be nation-wide, excluding Alaska and Hawaii. A random sample of approximately 40,000 will be mailed questionnaires; half will get the old version for control and half will get the test format. Non-respondents will receive a follow-up contact. Summarization of findings will be presented to the Advisory Committee on Agricultural Statistics.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 60 minutes per positive response, 10 minutes per screen-out, and 2 minutes per refusal.

Respondents: Farm and ranch operators.

Estimated Number of Respondents: 40,000.

Estimated Total Annual Burden on Respondents: 22,000 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.

Comments: Comments are invited on: (a) Whether the proposed collection of

information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological or other forms of information collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, April 7, 2009.

Associate Administrator.
