Notice of Computer Matching Program, SSA With the States

A. Participating Agencies

SSA and the States.

B. Purpose of the Matching Program

The purpose of this matching program is to establish the conditions, safeguards, and procedures under which the States may obtain Social Security number (SSN) verification and certain information from us relating to the eligibility for, and payment of, Social Security, Supplemental Security Income, and Special Veterans Benefits, including certain tax return, quarters of coverage, prisoner, and death information. This information is available from our various Systems of Records.

Individual agreements with the States will describe the information to be disclosed and the conditions under which we agree to disclose such information.

C. Authority for Conducting the Matching Program

Our authority to disclose data and the State Agency's authority to use data protected under our Systems of Records for specified purposes is Sections 1137, 453, and 1106(b) of the Social Security Act (42 U.S.C. 1306(b), 1320b-7, and 653). Under this legal authority, the State Agency has independent authority to collect and maintain data from our Systems of Records.

The Privacy Act, Section 1106(a) of the Social Security Act (42 U.S.C. 1306), the regulations promulgated pursuant to

that section (20 CFR Part 401), and the Federal Information Security Management Act of 2002 (FISMA) (44 U.S.C. 3541, et seq.), provide legal requirements for the disclosure and use of our data protected under applicable Systems of Records.

D. Categories of Records and Individuals Covered by the Matching Program

States will provide us with names and other identifying information of appropriate benefit applicants or recipients. Specific information from participating States will be matched, as provided in the agreement for the specific programs, with the following systems of records maintained by us.

1. SDX—Supplemental Security Record/Special Veteran's Benefits (SSR/SVB) System, SSA/ODSSIS (60-0103);

2. BENDEX—Master Beneficiary Record (MBR), SSA/ORSIS (60-0090) and the Earnings Recording and Self-Employment Income System, SSA/OEEAS (60-0059);

3. SVES—SSR/SVB, SSA/ODSSIS (60-0103); MBR, SSA/ORSIS (60-0090); the Earnings Recording and Self-Employment Income System, SSA/OEEAS (60-0059); the Master Files of SSN Holders and SSN Applications, SSA/OEEAS (60-0058); and the Prisoner Update Processing System (PUPS), SSA/OEEAS (60-0269);

4. Quarters of Coverage Query—the Earnings Recording and Self-Employment Income System, SSA/OEEAS (60-0059) and the Master Files of SSN Holders and SSN Applications, SSA/OEEAS (60-0058);

5. Prisoner Query—PUPS, SSA/OEEAS (60-0269).

E. Inclusive Dates of the Matching Program

The matching program will become effective no sooner than 40 days after notice of the matching program is sent to Congress and OMB, or 30 days after publication of this notice in the **Federal Register**, whichever date is later. The matching program will continue for 18 months from the effective date and may be extended for an additional 12 months thereafter, if certain conditions are met.

Individual State matching agreements under the matching program will become effective upon the effective date of this matching program or the signing of the agreements by the parties to the individual agreements, whichever is later. The duration of individual State matching agreements will be subject to the timeframes and limitations contained in this matching program.

SUPPLEMENTARY INFORMATION:

Title: Truck Congestion Information Assessment.

Background: The Federal Highway Administration's (FHWA) ability to assess congestion is critical for our national leadership role. Highway traffic congestion causes an estimated 3.5 billion hours of delays per year in 75 of the largest metropolitan areas. The volume of freight, the mix of goods, and the way they are moved has changed dramatically and highway system improvements have not kept pace with the growth and demand for freight transportation, resulting in congestion on our Nation's highways and straining other freight modes as well.

The purpose of this research is to collect highway congestion information to assess highway system performance and validate findings of the report on bottlenecks produced from Speed, Highway Performance Monitoring System (HPMS) and Freight Analysis Framework (FAF) data.

The selected service provider will establish, promote, collect and analyze data from a developed system to provide easy access 24 hours a day, 7 days a week allowing the roadway user a convenient way to report areas of heavy congestion and bottleneck conditions at any point in time encountered nationally on the highway system. Roadside users can report information by using an automated phone system or the Internet. The information from the user will be date, time, state, and highway route number, direction of travel, mile marker and weather condition. The reporting from the roadside user is voluntary.

Respondents: Approximately 1200 Interstate roadway users daily, with the majority being truck drivers.

Frequency: Every day for 3 years.

Estimated Average Burden per Response: Each response will be approximately 1 minute.

Estimated Total Annual Burden Hours: Approximately 4,380 hours in the first year, 7,665 the second year, and 9,855 the third year. Totaling 21,900 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and
