

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****[Project No. 13336-000]****FFP Project 34, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comment, Motions To Intervene, and Competing Applications**

May 14, 2009.

On November 24, 2008, FFP Project 34, LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Mississippi River Lock and Dam No. 6 Water Power Project (Lock & Dam 6 Project), to be located at River Mile 714.3 on the Mississippi River in Trempealeau County, Wisconsin and Winona County, Minnesota, and near the town of Trempealeau, WI. Also, the reservoir runs through a portion of the Upper Mississippi River National Wildlife and Fish Refuge.

The proposed Lock & Dam 6 Project would be integral with: (1) The existing U.S. Army Corps of Engineers Lock & Dam No. 6 comprised of an 893-foot-long gated dam section with 5 roller gates and 10 tainter gates, and a 600 foot-long lock; and (2) an existing 14-mile long, 21,817-acre reservoir at a normal pool elevation of 645.5 feet mean sea level and 31,200 acre-feet of storage.

The proposed project would consist of: (1) 30 Very Low Head (VHL) generating units and 70 hydrokinetic generating units totaling 11.0 megawatts (MW) installed capacity; (2) a new 69-kilovolt transmission line connected to an existing above ground local distribution system; and (3) appurtenant facilities. The project would have an estimated average annual generation of 55,900 megawatt-hours.

*Applicant Contact:* Mr. Daniel R. Irvin, Free Flow Power Corporation, 33 Commercial Street, Gloucester, MA 01930, phone (978) 252-7631.

*FERC Contact:* Patrick Murphy, (202) 502-8755.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. If unable to be filed electronically, documents may be paper-filed. To paper-file, an original and eight

copies should be mailed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. For more information on how to submit these types of filings please go to the Commission's Web site located at <http://www.ferc.gov/filing-comments.asp>. More information about this project can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-13336) in the docket number field to access the document. For assistance, call toll-free 1-866-208-3372.

May 14, 2009.

On November 24, 2008, FFP Project 31, LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Mississippi River Lock and Dam No. 4 Water Power Project (Lock & Dam 4 Project), to be located at River Mile 752.8 on the Mississippi River in the City of Alma, Buffalo County, Wisconsin, and Wabasha County, Minnesota.

The proposed Lock & Dam 4 Project would be integral with: (1) The existing U.S. Army Corps of Engineers Lock & Dam No. 4 comprised of a 1,367-foot-long gated dam section with 6 roller gates and 22 tainter gates, and a 600 foot-long lock; and (2) an existing 44.1-mile long reservoir with a normal pool elevation of 667 feet mean sea level and 31,200 acre-feet of storage.

The proposed project would consist of: (1) 24 Very Low Head (VHL) generating units and 70 hydrokinetic generating units with a total installed capacity of 11.4 megawatts (MW); (2) a new 69-kilovolt transmission line connected to an existing above ground local distribution system; and (3) appurtenant facilities. The project would have an estimated average annual generation of 57,900 megawatt-hours.

*Applicant Contact:* Mr. Daniel R. Irvin, Free Flow Power Corporation, 33 Commercial Street, Gloucester, MA 01930, phone (978) 252-7631.

*FERC Contact:* Patrick Murphy, (202) 502-8755.

May 14, 2009.

On November 24, 2008, FFP Project 31, LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Mississippi River Lock and Dam No. 3 Water Power Project (Lock & Dam 3 Project), to be located at River Mile 796.9 on the Mississippi River in Goodhue County, Minnesota, and Pierce County, Wisconsin, six miles north of Red Wing, Minnesota.

The proposed Lock & Dam 3 Project would be integral with: (1) The existing

U.S. Army Corps of Engineers Lock & Dam No. 3 comprised of a 365-foot-long gated dam section and a 600-foot-long lock; and (2) an existing 8.3-mile long reservoir with a normal pool elevation of 675 feet mean sea level and 31,200 acre-feet of storage.

The proposed project would consist of: (1) 20 Very Low Head (VHL) generating units and 60 hydrokinetic generating units with a total installed capacity of 11.0 megawatts (MW); (2) a new 69-kilovolt transmission line connected to an existing above ground local distribution system; and (3) appurtenant facilities. The project would have an estimated average annual generation of 56,300 megawatt-hours.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP09-237-000]

#### Transcontinental Gas Pipe Line Company, LLC; Notice of Application

May 14, 2009.

Take notice that on April 30, 2009, Transcontinental Gas Pipe Line Company, LLC (Transco), Post Office Box 1396, Houston, Texas 77251, filed in the above referenced docket an application pursuant to section 7(c) of the NGA and Part 157 of the Commission's regulations, for a certificate of public convenience and authorizing the construction and operation of Delta Lateral Project (Project) in York County, Pennsylvania. The Project consists of the construction of a new 3.42 mile 16-inch delivery lateral extending from Transco's mainline Station 195 to the Delta Power Plant in Peach Bottom Township, Pennsylvania. The Project will provide 208,800 dekatherms per day of firm natural gas transportation service to Conectiv Energy Supply, Inc., owner of the Delta Power Plant, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the application are to be directed to Marg Camardello, Manager, Tariffs and Certificates, PO Box 1396, Houston, Texas 77251, phone (713) 215-3380. Additionally, Transco has established a toll-free telephone number, (866) 455 9103, and e-mail address, [PipelineExpansion@williams.com](mailto:PipelineExpansion@williams.com), so that parties can call with questions about the Project.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and

Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public
