Type of Request: Extension of a previously approved collection.

Abstract: This collection of information applies to motor vehicle and motor vehicle equipment manufacturers located outside of the United States ("foreign manufacturers"). Section 110(e) of the National Traffic and Motor Vehicle Safety Act of 1966 (49 U.S.C. 30164) requires a foreign manufacturer offering a motor vehicle or motor vehicle equipment for importation into the United States to designate a permanent resident of the United States as its agent upon whom service of notices and processes may be made in administrative and judicial proceedings. These designations are required to be filed with NHTSA. NHTSA requires this information in case it needs to advise a foreign manufacturer of a safety related defect in its products so that the manufacturer can, in turn, notify purchasers and correct the defect. This information also enables NHTSA to serve a foreign manufacturer with all administrative and judicial processes, notices, orders, decisions and requirements.

When NHTSA amended the regulation implementing that statutory requirement, codified at 49 CFR part 551, subpart D, NHTSA included an appendix containing a suggested designation form for use by foreign manufacturers and their agents. The purpose of the suggested designation format was to simplify the information collection and submission process, and thereby reduce the burden imposed on each covered manufacturer by 49 CFR part 551, subpart D. To further streamline the information collection process, NHTSA has set up a customer Web site that may be accessed at <http://www.nhtsa.dot.gov/cars/rules/manufacture/agent/customer.html>.

Estimated Annual Burden: 120 hours.

Estimated Number of Respondents: 240 respondents.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

The Comments are invited on:

Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance

the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on: June 17, 2009.

Assistant Chief Counsel, Legislation and General Law.
