SUPPLEMENTARY INFORMATION:

I. Background

The Energy Independence and Security Act of 2007 (EISA) established the Energy Efficiency and Conservation Block Grant (EECBG) Program, which provides, in part, for a direct formula grant program for States, eligible units of local government, and Indian Tribes. (42 U.S.C. 17151-17158) On April 15, 2009, DOE published in the **Federal Register** formulas for allocation of direct grants under the EECBG Program. 74 FR 17461. DOE also published a funding opportunity announcement that identified the "eligible units of local government," Funding Opportunity Number: DE-FOA-0000013, Amendment 00003 (available at: <http://www.eecbg.energy.gov/>).

For the purpose of the EECBG program, an "eligible unit of local government" was defined by EISA to be a city or county that met population thresholds specified in statute. (42 U.S.C. 17151) Further, to be defined as an "eligible unit of local government," DOE determined that a geographical subdivision also must have a functional government with responsibilities and jurisdiction capable of implementing the broad range of programs identified by EISA. EISA specifically enumerated the following activities as activities that achieve the purpose of the EECBG Program—

(1) Development and implementation of an energy efficiency and conservation strategy as required by EISA;

(2) Retaining technical consultant services to assist the eligible entity in the development of such a strategy, including—

(A) Formulation of energy efficiency, energy conservation, and energy usage goals;

(B) Identification of strategies to achieve those goals—

(i) Through efforts to increase energy efficiency and reduce energy consumption; and
