SUPPLEMENTARY INFORMATION:

Title: Bus Testing Program.

Abstract: 49 U.S.C. 5323(c) provides that no federal funds that are appropriated or made available after September 30, 1989, may be obligated or expended for the acquisition of a new bus model (including any model using alternative fuels) unless the bus has been tested at the Bus Testing Center (Center) in Altoona, Pennsylvania. 49 U.S.C. 5318(a) further specifies that each new bus model is to be tested for maintainability, reliability, safety, performance (including braking performance), structural integrity, fuel economy, emissions, and noise.

The operator of the Bus Testing Center, the Thomas D. Larson Pennsylvania Transportation Institute (LTI), has entered into a cooperative agreement with FTA. LTI operates and maintains the Center, and establishes and collects fees for the testing of the vehicles at the facility. A test report is given to the manufacturer of the new bus model after the vehicle has been tested at the Center. The bus manufacturer certifies to an FTA grantee that the bus the grantee is purchasing has been tested at the Center. Also, grantees who are considering the purchase of a bus use this report to assist them in making their purchasing decisions. LTI maintains a reference file for all the test reports which are made available to the public.

Estimated Total Annual Burden: 404 hours.
