SUPPLEMENTARY INFORMATION:

Title: Worksheet for the Supplemental Nutrition Assistance Program's (SNAP) Quality Control Reviews.

OMB Number: 0584-0074.

Form Number: FNS-380.

Expiration Date: February 28, 2010.

Type of Request: Revision of a currently approved collection.

Abstract: Form FNS-380 is a SNAP worksheet used to determine eligibility and benefits for households selected for review in the quality control sample of active cases. We estimate the total reporting burden for this collection of information as 8.9 hours, equating to a total of 498,978 hours collectively. This includes the time for State agencies analyzing the household case record; planning and carrying out the field investigation; gathering, comparing, analyzing and evaluating the review data and forwarding selected cases to the Food and Nutrition Service for Federal validation. It also includes an average interview burden of 30 minutes (0.5 hours) for each household. Additionally, we estimate the recordkeeping burden per record for the

state agency to be 0.0236 hours, thereby making the recordkeeping burden associated with this information collection for the state agency to be 1,323 hours. The total estimated reporting and recordkeeping burden for this collection is 500,301 hours.

The reporting and recordkeeping burden for this form was previously approved under Office of Management and Budget (OMB) clearance number 0584-0074. OMB approved the burden through November 30, 2009. Based on the most recent table of active case sample sizes and completion rates (FY 2007), we estimate 56,065 FNS-380 worksheets and interviews will now be completed annually. This is a decrease of 1,134 responses from the estimate made to substantiate the current collection. This estimate will also cause a corresponding decrease in the reporting and recordkeeping burden. The decrease in response is a result of a reduction in the number of cases being pulled for review over the minimum required review amount. We are requesting a three-year approval from OMB for this information collection.
