Background

The Kingpin Act became law on December 3, 1999. The Act provides a statutory framework for the President to impose sanctions against significant

foreign narcotics traffickers and their organizations on a worldwide basis, with the objective of denying their businesses and agents access to the U.S. financial system and to the benefits of trade and transactions involving U.S. companies and individuals.

The Kingpin Act blocks all property and interests in property subject to U.S. jurisdiction which are owned or controlled by significant foreign narcotics traffickers as identified by the President. In addition, the Secretary of the Treasury consults with the Attorney General, the Director of the Central Intelligence Agency, the Director of the Federal Bureau of Investigation, the Administrator of the Drug Enforcement Administration, the Secretary of Defense, the Secretary of State, and the Secretary of Homeland Security when designating and blocking the property or interests in property, subject to U.S. jurisdiction, of persons who are found to be: (1) Materially assisting in, or providing financial or technological support for or to, or providing goods or services in support of, the international narcotics trafficking activities of a person designated pursuant to the Kingpin Act; (2) owned, controlled, or directed by, or acting for or on behalf of, a person designated pursuant to the Kingpin Act; or (3) playing a significant role in international narcotics trafficking.

Form, 10-21047.

b. Biannual Telephone National
Registry of Veterans with ALS, VA Form

c. Verbal Informed Consent VIA
Telephone, National Registry of
Veterans with ALS, VA Form
10-21047b.

OMB Control Number: 2900-0649.

Type of Review: Extension of a
currently approved collection.

Abstract: ALS is a disease of high
priority to the Department of Veterans
Affairs because of ongoing concerns
about the health of veterans who served
in the Gulf War. The creation of the
registry will have significance both for
VA and for the larger U.S. society in
understanding the natural history of
ALS. It will provide VA with crucial
epidemiological data on the current
population of veterans with ALS, as
well as the ongoing identification of
new cases. The data will help VA to
understand how veterans are affected by
ALS and may assist with early
identification of new ALS clusters. This
registry will provide a mechanism for
informing veterans with ALS of new
clinical drug trials and other studies.

Affected Public: Individuals or
households.

*Estimated Average Burden per
Respondent:* 29 minutes.

Frequency of Response: Semi-
