SUPPLEMENTARY INFORMATION:

History

On August 26, 2009, a final rule for Airspace Docket No. 08-ANM-1, FAA Docket No. FAA-2008-0006 was published in the **Federal Register** (74 FR 43030), establishing Class D airspace and amending Class E airspace at North Bend, OR. The latitude, longitude referencing the airport stated “* * * lat. 43°25′02″ N., long. 124°14′46″ W.” instead of “* * * lat. 43°25′01″ N., long. 124°14′49″ W.”. Also the airport name stated “North Bend Municipal Airport, OR” instead of “Southwest Oregon Regional Airport, OR”. This action corrects that error.

Entry of Certain Cement Products From Mexico Requiring a Commerce Department Import License

AGENCIES: Customs and Border Protection, Department of Homeland Security; Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends title 19 of the Code of Federal Regulations (19 CFR) by removing regulations originally promulgated to provide special entry requirements for certain cement products from Mexico requiring a United States Department of Commerce import license and to include certain required entry documentation in the “List of Records Required for the Entry of Merchandise” set forth in the Appendix to Part 163 of title 19 of the Code of Federal Regulations. Since the underlying trade agreement that necessitated these

regulations expired on March 31, 2009, they are no longer necessary and are obsolete.

DATES: The amendment is effective September 25, 2009.

FOR FURTHER INFORMATION CONTACT: Christine Furgason, Acting Director, AD/CVD and Revenue Policy & Programs, Customs and Border Protection, 1400 L Street, NW., Washington, DC 20229, Tel (202) 863-6081.

SUPPLEMENTARY INFORMATION:
Background

On March 6, 2006, the Office of the United States Trade Representative (USTR), the United States Department of Commerce (Commerce), and the Ministry of Economy of the United Mexican States (Secretaria de Economia) signed a bilateral Trade in Cement Agreement (Agreement) concerning the entry of certain cement products from Mexico into the United States. The Agreement required the creation of an Export Licensing Program by Mexico and an Import Licensing Program by Commerce to enforce certain quantitative restrictions contained in the Agreement. The Agreement included a provision for its termination on March 31, 2009. A copy of the Agreement is available on the Commerce Web site: <http://www.ia.ita.doc.gov/download/mexico-cement/cement-final-agreement.pdf>.

To implement the Agreement, the International Trade Administration of the Department of Commerce (ITA) published a final rule in the **Federal Register** (72 FR 10006) on March 6, 2007, prescribing the cement licensing and import monitoring program regulations promulgated at 19 CFR 361.101-361.105.

On March 6, 2007, Customs and Border Protection (CBP) published a corollary final rule in the **Federal Register** (72 FR 10004) that promulgated special requirements for the entry into the U.S. of certain cement products from Mexico requiring a U.S. Department of Commerce import license, at new 19 CFR 12.155. The “List of Records Required for the Entry of Merchandise” set forth in the Appendix to Part 163 was also amended by that document to reflect the entry document requirements mandated by the Agreement.

As the Agreement expired on March 31, 2009, § 12.155 and the references to Mexican Cement export and import licenses in the Appendix to Part 163 are now unnecessary and obsolete, and, accordingly they are removed from the regulations.

Inapplicability of Prior Public Notice and Comment Procedures and Delayed Effective Date

Because this amendment merely removes obsolete regulations from title 19 of the CFR, CBP has determined, pursuant to the provisions of 5 U.S.C. 553(b)(B), that prior public notice and comment procedures on this regulation are unnecessary and contrary to public interest. For the same reason, pursuant to the provisions of 5 U.S.C. 553(d)(3), there is good cause for dispensing with a delayed effective date.

The Regulatory Flexibility Act

This document is not subject to the notice and public procedure requirements of 5 U.S.C. 553, and thus is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Executive Order 12866

These amendments do not meet the criteria for a “significant regulatory action” as specified in Executive Order 12866.
