SUPPLEMENTARY INFORMATION: This planning activity encompasses approximately 30,000 acres of publicly accessible water and land owned and managed by Reclamation. The RMP, which will replace the New Melones Lake Area Master Plan of 1976, will be the primary management document for Reclamation's New Melones Lake Area, providing a defined purpose, vision, long-term goals, and management guidelines. It will be used by Reclamation as a framework for guiding decision-making related to future development potential, on-going management, public health and safety, and public use of the New Melones Lake Area.

The RMP attempts to enhance and expand the recreation opportunities while also providing more active protection and management of natural and cultural resources. The RMP is intended to be implemented over an extended period as determined by both user demand and need. To do so, the RMP provides goals and guidelines relating to natural, cultural and visual resources, water quality, circulation, visitor services, interpretation and operations.

The EIS is a program-level analysis of the potential environmental impacts associated with adoption of the RMP. The RMP is intended to be predominantly self-mitigating through implementation of RMP policies and management strategies, and the EIS will also include measures intended to reduce the adverse effects of the RMP. Copies of the Draft EIS are available for public review at the following locations:

SUPPLEMENTARY INFORMATION:

Background.—On December 2, 2004,
 the Department of Commerce issued an
 antidumping duty order on imports of
 hand trucks from China (69 FR 70122-
 70123). The Commission is conducting
 a review to determine whether
 revocation of the order would be likely
 to lead to continuation or recurrence of
 material injury to the domestic industry
 within a reasonably foreseeable time. It
 will assess the adequacy of interested
 party responses to this notice of
 institution to determine whether to
 conduct a full review or an expedited
 review. The Commission's
 determination in any expedited review
 will be based on the facts available,
 which may include information
 provided in response to this notice.

Definitions.—The following
 definitions apply to this review:

(1) *Subject Merchandise* is the class or
 kind of merchandise that is within the
 scope of the five-year review, as defined
 by the Department of Commerce.

(2) The *Subject Country* in this review
 is China.

(3) The *Domestic Like Product* is the
 domestically produced product or
 products which are like, or in the
 absence of like, most similar in
 characteristics and uses with, the
Subject Merchandise. In its original
 determination, the Commission found a
 single *Domestic Like Product* comprised
 of finished hand trucks and certain
 hand truck parts corresponding to
 Commerce's scope of investigation.

(4) The *Domestic Industry* is the U.S.
 producers as a whole of the *Domestic
 Like Product*, or those producers whose
 collective output of the *Domestic Like
 Product* constitutes a major proportion
 of the total domestic production of the
 product. In its original determination,
 the Commission found a single
Domestic Industry consisting of all U.S.
 producers of the *Domestic Like Product*
 which, as stated above, consists of all
 finished hand trucks and hand truck
 parts corresponding to Commerce's
 scope of investigations.
