[Project No. 13327-000]

Glacier Fork Hydropower, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

January 27, 2009.

On November 10, 2008, and supplemented on January 26, 2009, Glacier Fork Hydropower, LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Glacier Fork Hydroelectric Project (Glacier Fork). Glacier Fork would be located on Glacier Fork of the Knik River, in the Borough of Matanuska-Susitna, Alaska.

The proposed Glacier Fork project would consist of: (1) A proposed 700-foot-long, 430-foot-high dam; (2) a proposed reservoir having a proposed surface area of 390 acres and a storage capacity of 75,000 acre-feet and normal water surface elevation of 980 feet above mean low sea level (msl); (3) a proposed 8,300-foot-long, 12-foot diameter steel penstock; (4) a proposed powerhouse containing three generating units having an installed capacity of 75-megawatts; (5) a proposed tailrace; (6) a proposed 25-mile-long, 115-kilovolt transmission line; and (7) appurtenant facilities. The proposed Glacier Fork Hydroelectric Project would have an average annual generation of 320-gigawatt-hours.

[Docket No. CP09-47-000]

Oasis Pipeline, LP and Oasis Pipe Line Company Texas L.P.; Notice of Application for Natural Gas Act Section 3 Authorization and Presidential Permit

January 27, 2009.

Take notice that on January 14, 2009, Oasis Pipeline, LP and Oasis Pipe Line Company Texas L.P. (collectively referred to as Applicant), 800 East Sonterra Boulevard Suite 400 San Antonio, TX 78258, filed a joint application in Docket No. CP09-47-000 pursuant to section 3 of the Natural Gas Act (NGA) and Subpart B of section 153 of the Commission's Regulations, seeking authorization to site, construct, and operate certain natural gas pipeline facilities, called the Clint Export Project, at a point in the international boundary between the United States and Mexico in El Paso County, Texas. Applicant further requests a Presidential Permit for such facilities, all as more fully set forth in the application which is on file with the Commission and open to the public for inspection. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the application may be directed to Jim Wright, Associate General Counsel, Energy Transfer Company, 711 Louisiana Suite 900 Houston, TX 77002, phone: (832) 668-1454, fax: (832) 668-1127, or e-mail: jim.wright@energytransfer.com.

Specifically, Applicant proposes to extend the Oasis System from the Waha Hub in Pecos County, TX to the proposed crossing in El Paso County,

TX. The proposed extension, including the Border Crossing Facilities, will consist of approximately 188 miles of 36-inch pipeline and will be capable of transporting up to 600,000 MMBtu per day to the Mexican border.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice, the Commission staff will either: complete the environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC. 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party

to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: February 17, 2009.

Secretary.
