

petition by an aggrieved party. The petition is placed on public notice and commented on by others. The Commission's decision is based on the public record, generally composed of the petition and comments. The Commission has considered a number of preemption items since the passage of the Telecommunications Act of 1996, and believes it in the public interest to inform the public of the information necessary to support its full consideration of the issues likely to be involved in preemption actions. In order to render a timely and informed decision, the Commission expects petitioners and commenters to provide it with relevant information sufficient to describe the legal regime involved in the controversy and to establish the factual basis necessary for decision.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

February 2, 2009.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT:

Thomas Butler, Federal Communications Commission, (202) 418-1492 or via the Internet at Thomas.butler@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0816.

OMB Approval Date: January 30, 2009.

Expiration Date: January 31, 2010.

Title: Local Telephone Competition and Broadband Reporting (Report and Order, WC Docket No. 07-38, FCC 08-89; Order on Reconsideration, WC Docket No. 07-38, FC 08-148).

Form Number(s): FCC Form 477.

Estimated Annual Burden: 1,610 respondents; 3,220 responses; 1,085,140 total annual hours; 337 hours per response (average).

Needs and Uses: This information collection (IC) was approved by OMB as a revision. The Commission reported an increase of 956,340 hours to the total annual burden. This program change increase is due to an increase in the estimated number of respondents and responses since this IC was last submitted to the OMB in June 2008.

The Commission submitted two Orders to the OMB for approval. The first was a Report and Order and Further Notice of Proposed Rulemaking in WC Docket No. 07-38, FCC 08-89 and the second was an Order on Reconsideration in WC Docket No. 07-38, FCC 08-148. With these two Orders, the Commission revised the FCC Form 477 data collection to improve the Commission's understanding of the extent of broadband deployment, facilitating the development of appropriate broadband policies. In particular, these amendments will improve the Commission's ability to carry out its obligation under section 706 of the Telecommunications Act of 1996 to "determine whether advanced telecommunications capability is being deployed to all Americans in a reasonable and timely fashion." The Report and Order revised the FCC Form 477 to require all broadband providers to report the number of broadband connections in service in individual Census Tracts. The Report and Order adopted three additional changes to FCC Form 477. First, it requires providers to report broadband service speed data in conjunction with subscriber counts according to new categories for download and upload speeds. These new speed tiers will better identify services that support advanced applications. Second, it amended reporting requirements for mobile wireless broadband providers to require them to report the number of subscribers whose data plans allow them to browse the Internet and access the lawful Internet content of their choice. Third, it requires providers of interconnected Voice over Internet Protocol (interconnected VoIP) service to report subscribership information on FCC Form 477.

The Order on Reconsideration amended FCC Form 477 to require filers to report the percentage of broadband connections that are residential at the Census Tract level. The Telecommunications Act of 1996 directs the Commission to take actions to open all telecommunications markets to competition and to seek to promote innovation and investment by all participants, including new entrants. A central task in creating this framework is the opening of previously

monopolized local telecommunications markets. By collecting timely and reliable information about the pace and extent of competition for local telephony service in different geographic areas—including rural areas—the Commission significantly improves the ability to evaluate the effectiveness of actions the Commission and the states are taking to facilitate economic competition in those markets. The Report and Order provides for additional methods to supplement the data reported by FCC Form 477 filers, including a voluntary self-reporting system, and a recommendation to the Census Bureau that the American Community Survey questionnaire be modified to gather information about broadband availability and subscription in households. The information is used by the Commission to prepare reports that help inform consumers and policy makers at the federal and state level of the development of competition in the local telephone service market and the deployment of broadband services. The Commission will continue to use the information to better inform its understanding of broadband deployment in conjunction with its congressionally mandated section 706 reports. The Commission also uses the data to support its analyses in a variety of rulemaking proceedings under the Communications Act of 1934, as amended. Absent this information collection, the Commission would lack essential data for assisting it in determining the effectiveness of its policies and fulfilling its statutory responsibilities in accordance with the Communications Act of 1934, as amended.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

February 3, 2009

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction

Act (PRA) of 1995, Public Law No. 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Pursuant to the PRA, no person shall be subject to any penalty for failing to comply with a collection of information that does not display a valid control number.

Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before April 10, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Interested parties may submit all PRA comments by e-mail or U.S. mail. To submit your comments by e-mail, send them to PRA@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams, Federal Communications Commission, Room 1–C823, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, send an e-mail to PRA@fcc.gov or contact Cathy Williams at 202–418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0249.

Title: Sections 74.781, 74.1281 and 78.69, Station Records.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; Not-for-profit institutions; State, Federal or Tribal Governments.

Number of Respondents/Responses: 13,811 respondents/20,724 responses.

Estimated Time per Response: 30 minutes to 1 hour.

Frequency of Response:

Recordkeeping requirement.

Total Annual Burden: 11,726 hours.

Total Annual Costs: \$8,295,600.

Nature and Extent of Confidentiality:

There is no need for confidentiality with this collection of information.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Section 154(i) of the Communications Act of 1934, as amended.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: 47 CFR 74.781 requires the following:

(a) The licensee of a low power TV, TV translator, or TV booster station shall maintain adequate station records, including the current instrument of authorization, official correspondence with the FCC, contracts, permission for rebroadcasts, and other pertinent documents.

(b) Entries required by § 17.49 of this Chapter concerning any observed or otherwise known extinguishment or improper functioning of a tower light: (1) The nature of such extinguishment or improper functioning. (2) The date and time the extinguishment or improper operation was observed or otherwise noted. (3) The date, time and nature of adjustments, repairs or replacements made.

(c) The station records shall be maintained for inspection at a residence, office, or public building, place of business, or other suitable place, in one of the communities of license of the translator or booster, except that the station records of a booster or translator licensed to the licensee of the primary station may be kept at the same place where the primary station records are kept. The name of the person keeping station records, together with the address of the place where the records are kept, shall be posted in accordance with § 74.765(c) of the rules. The station records shall be made available upon request to any authorized representative of the Commission.

(d) Station logs and records shall be retained for a period of two years.

47 CFR 74.1281 requires the following:

(a) The licensee of a station authorized under this Subpart shall maintain adequate station records, including the current instrument of authorization, official correspondence with the FCC, maintenance records, contracts, permission for rebroadcasts, and other pertinent documents.

(b) Entries required by § 17.49 of this chapter concerning any observed or otherwise known extinguishment or improper functioning of a tower light: (1) The nature of such extinguishment or improper functioning. (2) The date and time the extinguishment or improper operation was observed or otherwise noted. (3) The date, time and

nature of adjustments, repairs or replacements made.

(c) The station records shall be maintained for inspection at a residence, office, or public building, place of business, or other suitable place, in one of the communities of license of the translator or booster, except that the station records of a booster or translator licensed to the licensee of the primary station may be kept at the same place where the primary station records are kept. The name of the person keeping station records, together with the address of the place where the records are kept, shall be posted in accordance with § 74.1265(b) of the rules. The station records shall be made available upon request to any authorized representative of the Commission.

(d) Station logs and records shall be retained for a period of two years.

47 CFR 78.69 requires each licensee of a CARS station shall maintain records showing the following:

(a) For all attended or remotely controlled stations, the date and time of the beginning and end of each period of transmission of each channel;

(b) For all stations, the date and time of any unscheduled interruptions to the transmissions of the station, the duration of such interruptions, and the causes thereof;

(c) For all stations, the results and dates of the frequency measurements made pursuant to § 78.113 and the name of the person or persons making the measurements;

(d) For all stations, when service or maintenance duties are performed, which may affect a station's proper operation, the responsible operator shall sign and date an entry in the station's records, giving:

(1) Pertinent details of all transmitter adjustments performed by the operator or under the operator's supervision.

(e) When a station in this service has an antenna structure which is required to be illuminated, appropriate entries shall be made as follows:

(1) The time the tower lights are turned on and off each day, if manually controlled. (2) The time the daily check of proper operation of the tower lights was made, if an automatic alarm system is not employed. (3) In the event of any observed or otherwise known failure of a tower light: (i) Nature of such failure. (ii) Date and time the failure was observed or otherwise noted. (iii) Date, time, and nature of the adjustments, repairs, or replacements made. (iv) Identification of Flight Service Station (Federal Aviation Administration) notified of the failure of any code or rotating beacon light not corrected

within 30 minutes, and the date and time such notice was given. (v) Date and time notice was given to the Flight Service Station (Federal Aviation Administration) that the required illumination was resumed. (4) Upon completion of the 3-month periodic inspection required by § 78.63(c):

(i) The date of the inspection and the condition of all tower lights and associated tower lighting control devices, indicators, and alarm systems. (ii) Any adjustments, replacements, or repairs made to insure compliance with the lighting requirements and the date such adjustments, replacements, or repairs were made.

(f) For all stations, station record entries shall be made in an orderly and legible manner by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the station record when starting duty and again when going off duty.

(g) For all stations, no station record or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention required by rule. Any necessary correction may be made only by the person who made the original entry who shall strike out the erroneous portion, initial the correction made, and show the date the correction was made.

(h) For all stations, station records shall be retained for a period of not less than 2 years. The Commission reserves the right to order retention of station records for a longer period of time. In cases where the licensee or permittee has notice of any claim or complaint, the station record shall be retained until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for filing of suits upon such claims.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

February 3, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this

opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995 (PRA), Public Law No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before April 10, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Interested parties may submit all PRA comments by e-mail or U.S. post mail. To submit your comments by e-mail, send them to PRA@fcc.gov and/or Cathy.Williams@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0310.

Title: Section 76.1801, Registration Statement; FCC Form 322, Community Cable Registration.

Form Number: FCC Form 322.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; Not-for-profit institutions.

Number of Respondents/Responses: 755 respondents; 755 responses.

Estimated Time per Response: 30 minutes.

Frequency of Response: One time reporting requirement; On occasion reporting requirement.

Total Annual Burden: 378 hours.

Total Annual Costs: \$37,750.

Nature and Extend of Confidentiality: There is no need for confidentiality with this collection of information.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 154(i), 303, 308, 309 and 621 of the Communications Act of 1934, as amended.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: On March 13, 2003, the Commission adopted a Report and Order (R&O), Amendment of the Commission's Rules for Implementation of its Cable Operations and Licensing System (COALS) to Allow for Electronic Filing of Licensing Applications, Forms, Registrations and Notifications in the Multichannel Video and Cable Television Service and the Cable Television Relay Service, FCC 03-55. This R&O provided for electronic filing and standardized information collections. Under 47 CFR Section 76.1801, cable operators are required to file FCC Form 322 with the Commission prior to commencing operation of a community unit. FCC Form 322 identifies biographical information about the operator and system as well as a list of broadcast channels carried on the system. This form replaces the requirement that cable operators send a letter containing the same information.
