

Changed-Circumstances Review, 74 FR 14107 (March 30, 2009). On June 9, 2009, we preliminarily found that SKF Aeroengine is the successor in interest to SNFA France. See *Ball Bearings and Parts Thereof from France: Preliminary Results of Changed-Circumstances Review*, 74 FR 27280 (June 9, 2009). We received a case brief from The Timken Company and a rebuttal brief from SKF Aeroengine, SKF France S.A., and SKF Aerospace France S.A.S. We did not hold a hearing as none was requested.

Analysis of Comment Received

The issues raised in the case briefs by parties in this review are addressed in the Issues and Decision Memorandum from John M. Andersen, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to

Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice (Decision Memo), which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded is in the Decision Memo and attached to this notice as an Appendix. The Decision Memo, which is a public document, is on file in the Central Records Unit, main Department of Commerce building, Room 1117, and is accessible on the Web at <http://ia.ita.doc.gov/frn>. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Changed-Circumstances Review

For the reasons stated in the preliminary results, we continue to find that SKF Aeroengine is the successor-in-interest to SNFA France and, as a result, should be accorded the same treatment as SNFA France. We will instruct U.S. Customs and Border Protection to liquidate, without regard to antidumping duties, all unliquidated entries produced and exported by SKF Aeroengine which were entered, or withdrawn from warehouse, for consumption on or after September 3, 2007, the date of SNFA France's name change to SKF Aeroengine. Fisheries of the South Atlantic and Gulf of Mexico; Southeastern Data, Assessment, and Review (SEDAR)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR Methods and Procedures Workshop 4: Evaluating Assessment Uncertainty.

SUMMARY: SEDAR procedural workshops provide an opportunity for focused discussion and deliberation on topics that arise in multiple assessments and are structured to develop best practices for addressing common issues across assessments. The SEDAR Steering Committee agreed that the three completed procedural workshops were effective and that similar workshops should be held to address other issues that affect multiple assessments. Continuing to address such global issues is recognized as an important to continuing improvements in efficiency and quality.

The 4th procedural workshop will consider methods of addressing uncertainty in SEDAR assessments, including topics such as developing appropriate confidence intervals in both parameter estimates and projection outputs, methods of characterizing and expressing assessment uncertainty beyond that reflected in confidence intervals, use of sensitivity analyses and recommendations on standard sensitivities, and relating uncertainty to overall risk evaluation and especially the risk of overfishing occurring. Participants will prepare a SEDAR procedures document addressing their recommendations that will be used to guide future SEDAR assessments. See **SUPPLEMENTARY INFORMATION.**

DATES: The SEDAR Uncertainty Procedural Workshop will take place February 22-26, 2010; SEDAR Uncertainty Procedural Workshop

Schedule: February 22, 2008: 1 p.m. - 8 p.m.; February 23–25, 2010: 8 a.m.–8 p.m.; February 26, 2010: 8 a.m. - 1 p.m.

ADDRESSES: The SEDAR Uncertainty Procedural Workshop will be held at the Charlotte Marriott SouthPark, 2200 Rexford Road, Charlotte, NC 28211; telephone: (800) 228–9290 or (704) 364–8220.

Council address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571–4366.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR includes three workshops: (1) Data Workshop, (2) Assessment Process and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Stock Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary Report documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

Each SEDAR workshop panel is asked to provide research and monitoring recommendations to improve future assessments and feedback on the

process to help improve SEDAR itself. Over time, certain key topics emerge that reveal a research need or procedural suggestion that is common to multiple assessments. The SEDAR Steering Committee endorses procedural workshops such as that noticed here to address those issues that affect multiple assessments and require more time and resources to resolve than are typically available during the normal assessment development process. The goal of these workshops is to develop guidelines and practices that will increase the efficiency of subsequent SEDAR assessments.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.
