DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

Restricted Areas and Danger Zone at Naval Station Mayport, FL

AGENCY: United States Army Corps of Engineers, Department of Defense.

ACTION: Final rule.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is revising its regulations by expanding the existing restricted area as well as establishing two new restricted areas and a new danger zone in the waters adjacent to and within the boundaries of Naval Station (NAVSTA) Mayport in Florida. The NAVSTA Mayport is the third largest naval facility in the continental United States and is unique in that it is home to a busy seaport as well as an air facility which conducts more than 135,000 flight operations each year. This amendment to the existing regulation is necessary to enhance the safety of the local community by ensuring safe navigation of the adjacent waterways, to preserve military security force protection measures, and to adhere to military munitions regulations.

DATES: *Effective date:* May 17, 2010.

ADDRESSES: U.S. Army Corps of Engineers, Attn: CECW-CO (David B. Olson), 441 G Street, NW., Washington, DC 20314-1000.

FOR FURTHER INFORMATION CONTACT: Mr. David Olson, Headquarters, Operations and Regulatory Community of Practice, Washington, DC at 202-761-4922 or Mr. Jon M. Griffin, U.S. Army Corps of Engineers, Jacksonville District, Regulatory Division, at 904-232-1680.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat 892; 33 U.S.C. 3), the Corps is amending the regulations in 33 CFR part 334 by expanding the existing restricted area as well as establishing two new restricted areas and a new danger zone in Florida within the NAVSTA Mayport facilities and along the facility shoreline. This will allow the Commanding Officer, NAVSTA Mayport

to restrict passage of persons, watercraft, and vessels in waters contiguous to his/her Command to meet Department of Defense directive O-2000.12-H Chapter C22.14 and United States Fleet Forces Antiterrorism Operation Order 3300-09 requirements for Waterside Security and Naval Vessel Protection Zones. The amendment also addresses public safety concerns associated with increased vessel traffic in the waterways adjacent to the NAVSTA Mayport facility, especially during munitions movement in and around the munitions wharves.

The proposed rule was published in the January 25, 2010, issue of the **Federal Register** (75 FR 3883), and its regulations.gov docket number is COE-2009-0063. Only one comment was received in response to the proposed rule and it was supportive of the proposal.

Procedural Requirements

a. *Review Under Executive Order 12866.* This regulation is issued with respect to a military function of the Department of Defense and the provisions of Executive Order 12866 do not apply.

b. *Review Under the Regulatory Flexibility Act.* The regulation has been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (*i.e.*, small businesses and small governments). The Corps has determined that this regulation would have practically no economic impact on the public, or result in no anticipated navigational hazard or interference with existing waterway traffic. This regulation will have no significant economic impact on small entities.

c. *Review Under the National Environmental Policy Act.* This regulation will not have a significant impact to the quality of the human environment and, therefore, preparation of an environmental impact statement is not required. An environmental assessment has been prepared. It may be reviewed at the district office listed at the end of **FOR FURTHER INFORMATION CONTACT** above.

d. *Unfunded Mandates Act.* This regulation does not impose an enforceable duty among the private sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Reform Act (Pub. L. 104-4, 109 Stat. 48, 2 U.S.C. 1501 *et seq.*). We have also found under Section 203 of the Act that small governments will not be

significantly or uniquely affected by this rule.
