SUPPLEMENTARY INFORMATION:

Title: Swine Health.

OMB Number: 0579-0137.

Type of Request: Revision and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is authorized, among other things, to prohibit or restrict the interstate movement of animals and animal products to prevent the dissemination within the United States of animal diseases and pests of livestock and to conduct programs to detect, control, and eradicate pests and diseases of livestock. APHIS regulations at 9 CFR, chapter I, subchapter C, govern the interstate movement of animals and other articles to prevent the spread of pests and diseases of livestock within the United States.

The regulations in part 71 contain requirements for the interstate movement of swine within a production system to prevent the spread of swine diseases, and Part 85 regulates the interstate movement of swine to prevent the spread of the pseudorabies virus (PRV). Under the Pseudorabies Eradication Program, part 52 allows for the payment of indemnity to owners for the depopulation of swine known to be infected with PRV. Together these regulations protect the health of the U.S. swine population. Information

collection activities associated with the regulations include, for part 71, a swine production system health plan and an interstate movement report and notification; for part 85, a Permit to Move Restricted Animals (VS Form 1-27), a certificate of veterinary inspection, an owner-shipper statement, an accredited veterinarian's statement concerning embryos for implantation and semen shipments, and the completion and recordkeeping of a Quarterly Report of Pseudorabies Control Eradication Activities (VS Form 7-1); and, for part 52, an appraisal and indemnity claim form (VS Form 1-23), a herd management plan, VS Form 1-27, and a report of net salvage goods. Additionally, the swine must be moved to slaughter in a means of conveyance sealed with an official seal.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

This information collection includes information collection requirements approved under OMB control numbers 0579-0070, "Pseudorabies," 0579-0137, "Pseudorabies in Swine; Payment of Indemnity," and 0579-0161, "Interstate Movement of Swine Within a Production System." After OMB approves and combines the burden for the three collections under a single collection titled "Swine Health" (0579-0137), the Department will retire numbers 0579-0070 and 0579-0161.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.2567212 hours per response.

Respondents: U.S. swine herd owners, producers, and shippers; hobby farmers;

State animal health officials; and accredited veterinarians.

Estimated annual number of respondents: 7,670.

Estimated annual number of responses per respondent: 15.154498.

Estimated annual number of responses: 116,235.

Estimated total annual burden on respondents: 29,840 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of June 2010.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2010-0050]

Animal Traceability; Public Meetings

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of public meetings.

SUMMARY: This is a notice to inform the public of upcoming meetings in Salt Lake City, UT, and Fort Worth, TX, to provide an opportunity for stakeholders to offer their input on the new framework being developed for animal disease traceability. The meetings are being organized by the Animal and Plant Health Inspection Service. Additional meetings are currently being planned and will be announced in a future notice.

DATES: The meetings will be held on June 24 and July 1, 2010, from 8 a.m. to 4 p.m. each day.

ADDRESSES: The public meeting on June 24, 2010, will be held in the Bryce

Ballroom, Sheraton Salt Lake City Hotel, 150 West 500 South, Salt Lake City, UT 84101. The public meeting on July 1, 2010, will be held at the Holiday Inn Dallas-Fort Worth Airport South, 14320 Centre Station Drive, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: Mr. Neil Hammerschmidt, Program Manager, Animal Disease Traceability, VS, APHIS, 4700 River Road Unit 46, Riverdale, MD 20737-1231; (301) 734-5571.

SUPPLEMENTARY INFORMATION: The U.S. Department of Agriculture (USDA) is currently developing a new, flexible framework for animal disease traceability in the United States. In keeping with its commitment to partnering with States, Tribal Nations, and industry to address many of the details of the infrastructure of this program, including possible regulations, the USDA took the initial step of hosting a State/Tribal forum on animal disease traceability in Kansas City, MO, on March 18 and 19, 2010. Information on the proceedings of the State/Tribal forum is available to the public for review and comment at (<http://www.aphis.usda.gov/traceability/forum/index.shtml>). In addition, we hosted three public meetings to discuss animal disease traceability. The meetings took place in Kansas City, MO, Riverdale, MD, and Denver, CO, on May 11, May 13, and May 17, 2010, respectively. We are now planning to host two additional public meetings, which will take place in Salt Lake City, UT, on June 24, 2010, and Fort Worth, TX, on July 1, 2010 (see **ADDRESSES**).

Tentative topics to be discussed at the upcoming meetings include:

1. The framework for a proposed animal disease traceability rule.
2. Specific details that would help form the animal disease traceability rule.

Written statements on meeting topics, as well as on the proceedings of the March 2010 State/Tribal forum, may be filed with the USDA through July 30, 2010, via the Federal eRulemaking Portal at (<http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2010-0050>) or by sending them to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to Docket No. APHIS-2010-0050 when submitting your statements.

For the meeting at the Sheraton Salt Lake City Hotel, there will be complimentary parking, as well as shuttle service to and from Salt Lake International Airport.
