The scoping meetings will be structured in two parts: First, an informal discussion “workshop” period that will not be recorded; and, second, the formal taking of comments with transcription by a court stenographer. The meetings will provide interested parties the opportunity to view proposed project exhibits, ask questions, and make comments. Applicant, DOE, and any cooperating agency representatives will be available to answer questions and provide additional information to attendees to the extent that additional information is available at this early stage of the proceedings.

Persons submitting comments during the scoping process, whether orally or in writing, will receive either paper or electronic copies of the Draft EIS, according to their preference. Persons who do not wish to submit comments or suggestions at this time but who would like to receive a copy of the document for review and comment when it is issued should notify Dr. Jerry Pell as provided above, with their paper-or-electronic preference.

### EIS Preparation and Schedule

In preparing the Draft EIS, DOE will consider comments received during the scoping period. As noted above, comments can be submitted by various means, and will be given the same consideration. They can be submitted to Dr. Jerry Pell either electronically or by paper copy; if the latter, consider using a delivery service because materials submitted by regular mail are subject to security screening, which both causes extended delay and potential damage to the contents. (Warped and unusable CD or DVD discs are common.) Additionally, comments can be

submitted through the project Web site established for preparation of the EIS, at <http://CHPEXpressEIS.org>. This site will also serve as a repository for all public documents and the central location for announcements. Individuals may subscribe to the “mail list” feature on the project Web site in order to receive future announcements and news releases.

DOE will summarize all comments received in a “Scoping Report” that will be available on the project Web site and distributed either electronically to all parties of record for whom we have an e-mail address, or by mailing paper copies upon request.

The IAB will also hold a preparatory meeting among company representatives at the same location at 8:30 a.m. on June 30. The agenda for this preparatory meeting is to discuss the SEQ/SOM meeting and to review the agendas of the SEQ/SOM workshop and the 130th SEQ meeting, to be held on June 30–July 1.

The agenda of the joint SEQ/SOM meeting on June 29 is under the control of the SEQ and the SOM. It is expected that the SEQ and the SOM will adopt the following agenda:

1. Adoption of the Agenda.

  - How do we assure the availability of such stocks in a crisis? How are industry emergency stocks related to minimum operating requirements?
4. Session 2—The Government Measures to Make Industry Obligatory Stockholding Available to the Market.
  - What other measures are available besides lowering the obligation for industry to hold stocks? Does the lowering of the obligation need to be more focused than just a uniform reduction across all companies, for all fuels? What is the minimum

- duration necessary for the reduction to be effective? Is there a way to measure the effectiveness of lowering the stockholding obligation?
5. Session 3—Bilateral Stockholding and Tickets.
    - Does location matter? How can stockholding ticket contracts be an effective part of a collective action? Do ticketed volumes need to be purchased/delivered to be effective, or is the cancellation of ticket contracts enough to “free up” the oil for market use?
  6. Wrap-up and Conclusions.
