

of the testing and monitoring, any material changes to its operations or business arrangements, or any other circumstances that it knows or has reason to know may have a material impact on the effectiveness of its information security program.

Part III of the proposed order requires that Twitter obtain within 180 days, and on a biennial basis thereafter for ten (10) years, an assessment and report from a qualified, objective, independent third-party professional, certifying, among other things, that: it has in place a security program that provides protections that meet or exceed the protections required by Part II of the proposed order; and its security program is operating with sufficient effectiveness to provide reasonable assurance that the security, privacy, confidentiality, and integrity of nonpublic consumer information is protected.

Parts IV through VIII of the proposed order are reporting and compliance provisions. The proposed order requires Twitter to retain for a period of five (5) years from the date received, documents that contradict, qualify, or call into question its compliance with this order. Part IV further requires that Twitter retain all materials relied upon to prepare the third-party assessments for a period of three (3) years after the date that each assessment is prepared. In addition, Part IV requires that Twitter retain all "widely-disseminated statements" that describe the extent to which it maintains and protects the security, privacy, confidentiality, or integrity of any nonpublic consumer information, along with all materials relied upon in making or disseminating such statements, for a period of three (3) years after the date of preparation or dissemination, whichever is later. Part IV also requires Twitter to maintain for six (6) months from the date received all consumer complaints directed at Twitter or forwarded to Twitter from a third party that relate to the activities alleged in the proposed complaint. Finally, Part IV requires that Twitter maintain for two (2) years from the date received copies of all subpoenas and communications with law enforcement, if such communications relate to Twitter's compliance with the order.

Part V requires dissemination of the order now and in the future to principals, officers, directors, and

managers, and to all current and future employees, agents, and representatives having responsibilities relating to the subject matter of the order. Part VI ensures notification to the FTC of changes in corporate status. Part VII mandates that Twitter submit an initial compliance report to the FTC and make available to the FTC subsequent reports. Part VIII is a provision "sunsetting" the order after twenty (20) years, with certain exceptions.

The purpose of the analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark,
Secretary.

Agency Information Collection Request; 30-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request,

including your address, phone number, OMB number, and OS document identifier, to Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-5683. Send written comments and recommendations for the proposed information collections within 30 days of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

Proposed Project: Activities to Assess the Feasibility of Creating and Maintaining a National Registry of Child Abuse and Neglect Perpetrators—OMB No. 0990-NEW—Office of the Assistant Secretary for Planning and Evaluation.

Abstract: This study will assess the feasibility of implementing a national registry of child maltreatment perpetrators. The study has two components: a Prevalence Study, and a Key Informant Survey. The Prevalence Study will provide national estimates of the number of persons who have been found to be substantiated perpetrators of child maltreatment in more than one State. The data for this component of the study will come primarily from records from the National Child Abuse and Neglect Data System. These data will be supplemented with encoded names and dates of birth of all substantiated child maltreatment perpetrators over a five year period in order to facilitate inter-state record matching, and will be collected from the States.

The Key Informant Survey will collect information in several areas including: the structure and content of State repositories of data on child maltreatment perpetrators; current legal mandates and policies concerning the sharing of information on substantiated perpetrators; existing practices for sharing information on child maltreatment perpetrators with other states; and perceived benefits and costs to participation in a national registry that may affect States' future participation.

This is a one-time data collection effort. The affected public consists of the 50 States, the District of Columbia, and Puerto Rico. Respondents will include staff designated by state child welfare directors including IT staff, department attorneys, and state child welfare administrators. The length of the request is for two years.

ESTIMATED ANNUALIZED BURDEN TABLE

Instrument	Type of respondent	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Prevalence Study	State IT Staff	52	1	30	1,560
Key Informant Survey: Legal/Policy Questionnaire	Attorney from Child Welfare Agency.	52	1	3	156
Key Informant Survey: Practices Questionnaire	State Administrator.	52	1	3	156
Key Informant Survey: Technical Information on Data Repositories Questionnaire.	State administrator.	52	1	2	104
Total					1,976
