

For purposes of the order, the narrative description is dispositive, not the tariff heading, American Chemical Society, CAS registry number or CAS name, or the specific percentage chemical composition identified above.

#### Amendment to the Final Determination

In the *Final Determination* we determined that several companies qualified for a separate rate. *See Final Determination*, 75 FR at 30378. In the preliminary determination, we stated that the antidumping duty margin for companies receiving a separate rate would be based on an average of the rates submitted in the Petition. *See Certain Potassium Phosphate Salts From the People's Republic of China: Preliminary Determination of Sales at Less Than Fair Value* 75 FR 12508 (March 16, 2010) (*Preliminary Determination*). For the *Preliminary Determination*, the Department calculated the average margin for the separate rate companies based on the margins in the petition for TKPP, DKP and anhydrous monopotassium phosphate ("MKP"). However, as explained below, because the ITC made a negative determination of material injury with respect to MKP, the Department is basing its calculation of the separate rate margin on the petition margins for TKPP and DKP only. Therefore, the separate rate margin has been amended to 62.23 percent. The PRC-wide rate of 95.4 percent was based on the highest margin alleged in the petition. Because the highest petition margin of 95.4 percent was for DKP, the

PRC-wide rate has not changed. The revised dumping margins are listed in the chart below.

#### Antidumping Duty Order

##### *Antidumping Duty Order*

On July 15, 2010, in accordance with section 735(d) of the Act, the ITC notified the Department of its final determination in this investigation. In its determination, the ITC found three domestic like products (DKP, TKPP, and MKP), covering the scope of subject merchandise subject to the investigation. The ITC made affirmative determinations with respect to DKP and TKPP, and a negative determination with respect to MKP. Since the ITC made different affirmative injury determinations for domestic like products, the Department must instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on entries of DKP and TKPP separately from MKP.

##### *MKP*

Because the ITC made a negative determination of material injury with respect to MKP, the Department will direct CBP to terminate the suspension of liquidation for entries of MKP from the PRC entered, or withdrawn from warehouse, and to release any bond or other security, and refund any cash deposit, posted to secure the payment of estimated antidumping duties with respect to these entries.

##### *DKP and TKPP*

Because the ITC determined that imports of DKP and TKPP from the PRC are materially injuring a U.S. industry, all unliquidated entries of such potassium phosphate salts from the PRC, entered or withdrawn from warehouse, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct CBP to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise for all relevant entries of certain potassium phosphate salts from the PRC. These antidumping duties will be assessed on unliquidated entries of DKP and TKPP from the PRC entered, or withdrawn from the warehouse, for consumption on or after March 16, 2010, the date on which the Department published its *Preliminary Determination*.

Effective on the date of publication of the ITC's final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as listed below. *See* section 736(a)(3) of the Act. The "PRC-wide" rate applies to all exporters of subject merchandise not specifically listed. The weighted-average dumping margins are as follows:

| Exporter   | Supplier   | Weighted-average margin |
|--|--|-------------------------|
| Snow-Apple Group Limited .....                                     | Chengdu Long Tai Biotechnology Co., Ltd .....              | 62.23                   |
| Tianjin Chengyi International Trading (Tianjin) Co., Limited ..... | Zhenjiang Dantu Guangming Auxiliary Material Factory ..... | 62.23                   |
| Tianjin Chengyi International Trading (Tianjin) Co., Limited ..... | Sichuan Shifang Hongsheng Chemicals Co., Ltd .....         | 62.23                   |
| Wenda Co., Ltd .....   | Thermphos (China) Food Additive Co., Ltd .....             | 62.23                   |
| Yunnan Newswift Company Ltd .....                                  | Guangxi Yizhou Yisheng Fine Chemicals Co., Ltd .....       | 62.23                   |
| Yunnan Newswift Company Ltd .....                                  | Mainzhu Hanwang Mineral Salt Chemical Co., Ltd .....       | 62.23                   |
| Yunnan Newswift Company Ltd .....                                  | Sichuan Shengfeng Phosphate Chemical Co., Ltd .....        | 62.23                   |
| PRC-Wide <sup>1</sup> .....  | .....  | 95.40                   |

This notice constitutes the antidumping duty order with respect to certain potassium phosphate salts from the PRC pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 1117 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect.

This notice is published in accordance with sections 735(d) and 736(a) of the Act and 19 CFR 351.210(c) and 351.211.

Dated: July 19, 2010.

RIN 0648-XX29

##### Endangered and Threatened Species; Initiation of a 5-year Review of the Baiji/Chinese River Dolphin/Yangtze River Dolphin

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

<sup>1</sup> The PRC-wide rate includes Sichuan Blue Sword Import and Export Co., Ltd., and SD BNI (LYG) Co., Ltd.

Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of initiation of 5-year review; request for information.

**SUMMARY:** NMFS announces a 5-year review of the Baiji/Chinese River Dolphin/Yangtze River Dolphin (*Lipotes vexillifer*) under the Endangered Species Act of 1973, as amended (ESA). A 5-year review is a periodic process conducted to ensure that the listing classification of a species is accurate and it is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information on the Baiji/Chinese River Dolphin/Yangtze River Dolphin that has become available. Based on the results of this 5-year review, we will make the requisite finding under the ESA.

**DATES:** To allow us adequate time to conduct this review, we must receive your information no later than September 20, 2010. However, we will continue to accept new information about any listed species at any time.

**ADDRESSES:** You may submit comments, identified by [0648–XX29], by either of the following methods:

*Mail:* Angela Somma, National Marine Fisheries Service, Office of Protected Resources, Endangered Species Division, 1325 East West Highway, Silver Spring, MD 20910

*Fax:* 301–713–4060, attention: Angela Somma

*Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal <http://www.regulations.gov>, by selecting “submit a comment” and ID# 0648–XX29. Instructions: No comments will be posted for public viewing until after the comment period has closed. All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from individuals identifying themselves as

representatives or officials of organizations or businesses, available for public inspection in their entirety. Information received in response to this notice and review will be available for public inspection (by appointment, during normal business hours) at the above address.

Larissa Plants (301) 713–1401, [larissa.plants@noaa.gov](mailto:larissa.plants@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

**Background**

Under the ESA, a list of endangered and threatened wildlife and plant species (list) must be maintained. The list is published at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every 5 years. On the basis of such reviews under section 4(c)(2)(B), we determine whether or not any species should be removed from the list (delisted), or reclassified from endangered to threatened or from threatened to endangered. Delisting a species must be supported by the best scientific and commercial data available and only considered if such data substantiates that the species is neither endangered nor threatened for one or more of the following reasons: (1) the species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in federal classification would require a separate rulemaking process. The regulations (50 CFR 424.21) require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the Baiji/Chinese River Dolphin/Yangtze River Dolphin (*Lipotes vexillifer*) currently listed as endangered.

**Public Solicitation of New Information**

To ensure that the 5-year review is complete and based on the best available scientific and commercial information, we are soliciting new information from the public, concerned governmental agencies, tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of the Baiji/Chinese River Dolphin/Yangtze River Dolphin (*Lipotes vexillifer*).

Five-year reviews consider the best scientific and commercial data and all new information that has become available since the listing determination

or most recent status review. Categories of requested information include the following: (A) species biology, including, but not limited to, population trends, distribution, abundance, demographics, and genetics; (B) habitat conditions, including, but not limited to, amount, distribution, and suitability; (C) conservation measures that have been implemented that benefit the species; (D) status and trends of threats; and (E) other new information, data, or corrections, including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the list, and improved analytical methods.

If you wish to provide information for this 5-year review, you may submit your information and materials to Angela Somma (see **ADDRESSES**).
