

The collections of information contained in the Hydrostatic Testing provision of the Portable Fire Extinguishers Standard are necessary to reduce workers' risk of death or serious injury by ensuring that portable fire extinguishers are in safe operating condition. The following section describes who uses the information in the testing certification record, as well as how they use it.

Test Records (§ 1910.157(f)(16))

Paragraph (f)(16) requires employers to develop and maintain a certification record of hydrostatic testing of portable fire extinguishers. The certification record must include the date of inspection, the signature of the person who performed the test, and the serial number (or other identifier) of the fire extinguisher that was tested.

Disclosure of Test Certification Records

The certification record must be made available to the Assistant Secretary or his/her representative upon request. The certification record provides assurance to employers, workers, and OSHA compliance officers that the fire extinguishers have been hydrostatically tested in accordance with and at the intervals specified in § 1910.157(f)(16), thereby ensuring that they will operate properly in the event workers need to use them. Additionally, these records provide the most efficient means for the compliance officers to determine that an employer is complying with the hydrostatic testing provision.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Hydrostatic Testing provision of the Portable Fire Extinguishers Standard for General Industry (29 CFR

1910.157(f)(16)). OSHA is proposing to decrease the burden hours in the currently approved information collection request from 125,952 burden hours to 124,084 burden hours (a total decrease of 1,868 hours). This decrease is due to updated data showing a decrease in the number of firms affected by the Standard. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: The Hydrostatic Testing provision of the Portable Fire Extinguishers Standard (29 CFR 1910.157(f)(16)).

OMB Number: 1218-0218.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 9,066,000.

Frequency of Response: On occasion.

Average Time per Response: One minute (.02 hour) to maintain the certification records to 33 minutes (.55 hour) to test an extinguisher, and to generate and maintain the certification record.

Estimated Total Burden Hours: 124,084 hours.

Estimated Cost (Operation and Maintenance): \$16,696,550.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2010-0025). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 75 FR 32508, and no substantial comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Evaluation of the Robert Noyce Teacher Scholarship Program.

OMB Control No.: 3145-(NEW).

Abstract: The National Science Foundation (NSF) requests a three-year clearance for research, evaluation and data collection (e.g., surveys and interviews) about the Noyce Program. NSF established the Robert Noyce Teacher Scholarship Program to encourage talented STEM majors and professionals to become K-12 mathematics and science teachers. The Noyce Program awards scholarships, stipends, fellowships and internships to support the preparation of K-12 teachers in mathematics and science. For specific details and the most updated information regarding Noyce program operations, please visit the NSF Web site at: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5733.

The study will survey Principal Investigators of the Noyce Program, Science, Technology, Engineering, or Mathematics (STEM) Faculty involved in the Noyce Program, Noyce Recipients, and K-12 Principals in schools where former recipients are teaching. Noyce recipients may be undergraduates majoring in a science, technology, engineering, or mathematics (STEM) discipline; STEM post-baccalaureates; STEM professionals; or exemplary mathematics and science teachers, who have master's degrees. The Noyce program evaluation will include all awards made between 2003 and 2009.

NSF has contracted a program evaluation of the Noyce Program, to be conducted by Abt Associates Inc. Through this evaluation of the Noyce Program, NSF aims to examine and document:

(1) The strategies and programs Noyce grantees use to recruit and retain teacher candidates, both during teacher preparation and during the induction period;

¹ 45 CFR 1622.5(a)—Relate solely to the internal personnel rules and practices of the Corporation.
