**Quarterly Listings; Safety Zones, Security Zones, Special Local Regulations, and Drawbridge Operation Regulations**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of expired temporary rules issued.

**SUMMARY:** This document provides required notice of substantive rules issued by the Coast Guard and temporarily effective between February 2006 and August 2009, that expired before they could be published in the **Federal Register**. This notice lists temporary safety zones, security zones, special local regulations, and drawbridge operation regulations, all of limited duration and for which timely publication in the **Federal Register** was not possible.

**DATES:** This document lists temporary Coast Guard rules between February 10, 2006 and August 9, 2009 that became effective and were terminated before they could be published in the **Federal Register**.

**ADDRESSES:** The Docket Management Facility maintains the public docket for this notice. Documents indicated in this notice will be available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building ground floor, room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** For questions on this notice contact Yeoman First Class Denise Johnson, Office of Regulations and Administrative Law,

telephone (202) 372-3862. For questions on viewing, or on submitting material to the docket, contact Ms. Angie Ames, Docket Operations, telephone 202-366-5115.

**SUPPLEMENTARY INFORMATION:** Coast Guard District Commanders and Captains of the Port (COTP) must be immediately responsive to the safety and security needs within their jurisdiction; therefore, District Commanders and COTPs have been delegated the authority to issue certain local regulations. *Safety zones* may be established for safety or environmental purposes. A safety zone may be stationary and described by fixed limits or it may be described as a zone around a vessel in motion. *Security zones* limit access to prevent injury or damage to vessels, ports, or waterfront facilities and may also describe a zone around a vessel in motion. *Special local regulations* are issued to enhance the safety of participants and spectators at regattas and other marine events.

*Drawbridge operation regulations*

authorize changes to drawbridge schedules to accommodate bridge repairs, seasonal vessel traffic, and local public events. Timely publication of these rules in the **Federal Register** is often precluded when a rule responds to an emergency, or when an event occurs without sufficient advance notice. The affected public is, however, informed of these rules through Local Notices to Mariners, press releases, and other means. Moreover, actual notification is provided by Coast Guard patrol vessels enforcing the restrictions imposed by the rule. Because **Federal Register** publication was not possible before the beginning of the effective period, mariners were personally notified of the contents of these safety zones, security zones, special local regulations, regulated navigation areas or drawbridge operation regulations by Coast Guard officials' on-scene prior to any enforcement action. However, the Coast Guard, by law, must publish in the **Federal Register** notice of substantive rules adopted. To meet this obligation without imposing undue

expense on the public, the Coast Guard periodically publishes a list of these temporary safety zones, security zones, special local regulations, regulated navigation areas and drawbridge operation regulations. Permanent rules are not included in this list because they are published in their entirety in the **Federal Register**. Temporary rules are also published in their entirety if sufficient time is available to do so before they are placed in effect or terminated. The temporary rules listed in this notice have been exempted from review under Executive Order 12666, Regulatory Planning and Review, because of their emergency nature, or limited scope and temporary effectiveness.

The following unpublished rules were placed in effect temporarily during the period between February 2006 and August 2009 unless otherwise indicated.

Dated: August 11, 2010.

Chief, Office of Regulations and Administrative Law.

**BILLING CODE 9110-04-P****DEPARTMENT OF HOMELAND SECURITY****Coast Guard****33 CFR Part 117****[USCG-2010-0479]****RIN 1625-AA09****Drawbridge Operation Regulation; Curtis Creek, Baltimore, MD****AGENCY:** Coast Guard, DHS.**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, Fifth Coast Guard District, has approved a temporary deviation from the regulation governing the operation of the Pennington Avenue Bridge, across Curtis Creek, mile 0.9, at Baltimore, MD. This deviation allows the bridge to operate on a restricted schedule to facilitate structural repairs.

**DATES:** This deviation is effective from 6 a.m. on August 5, 2010, to 11:59 p.m. on December 1, 2010. This document is

effective from date of signature due to safety concerns created by the structural repairs.

**ADDRESSES:** Documents mentioned in this preamble as being available in the docket are part of docket USCG-2010-0479 and are available online by going to <http://www.regulations.gov>, inserting USCG-2010-0479 in the “Keyword” box and then clicking “Search”. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

**SUPPLEMENTARY INFORMATION:** The Maryland State Highway Administration, who owns and operates

this double-leaf bascule drawbridge, has requested a temporary deviation from the current general operating regulations set out in 33 CFR 117.5 that requires the bridge to open promptly and fully for the passage of vessels when a request to open is given, to facilitate structural repair.

The Pennington Avenue Bridge has a vertical clearance in the closed position to vessels of 38 feet, above mean high water.

Under this temporary deviation, the drawbridge with four lift spans will provide full and partial openings of the spans for vessels on different dates and times. To facilitate the replacement of the grid deck, floor beams and stringers, the drawbridge will be maintained in closed position to vessels to include immobilizing half of the draw spans to single-leaf operation. The drawbridge will operate as follows:

(1) Closed to vessels beginning at 6 a.m. on August 5, 2010 until and including 11:59 p.m. on August 22, 2010; however, vessel openings will be provided if at least 48 hours advance notice is given;

(2) Single leaf operation on the northwest side span starting at 5 a.m. on August 22, 2010 or after the vessel IDA
