SUPPLEMENTARY INFORMATION: The Empire State Consumer Project, Sierra Club, Center for Environmental Health, and Rochesterians Against the Misuse of Pesticides ("petitioners") submitted a petition stating that the Commission should issue regulations to ban cadmium in all toy jewelry under the Federal Hazardous Substances Act ("FHSA"), 15 U.S.C. 1261 *et seq.* Specifically, petitioners request that the Commission adopt regulations declaring that any toy metal jewelry containing more than trace amounts of cadmium by weight which could be ingested by children be declared a banned hazardous substance. If the Commission finds that it lacks sufficient information to determine the appropriate level of cadmium in products, petitioners request that the Commission, as an interim measure, adopt the maximum levels established for lead. In addition, petitioners request a test method based on total cadmium, which simulates a child chewing the jewelry before swallowing by cutting the metal jewelry in half, and evaluating the extractability of cadmium from children's metal jewelry based on a 24-hour acid

extraction period. Petitioners also assert that if the CPSC has insufficient information regarding cadmium, it should obtain additional information under the Interagency Testing Commission ("ITC") through the Toxic Substances Control Act ("TSCA") administered by the Environmental Protection Agency ("EPA") to include metal jewelry in the scope of reporting under section 8(d) of the TSCA and require importers and processors to test toy metal jewelry for cadmium.

Interested parties may obtain a copy of the petition by writing or calling the Office of the Secretary, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-6833. The petition is also available at <http://www.regulations.gov> under Docket No. CPSC-2010-0087, Supporting and Related Materials.
