

time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed dockets(s). Title: NESHAP for Aerospace Manufacturing and Rework Facilities (Renewal)

ICR Numbers: EPA ICR Number 1687.08, OMB Control Number 2060-0314.

ICR Status: This ICR is schedule to expire on November 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Aerospace Manufacturing and Rework Facilities were proposed on June 6, 1994, and promulgated on September 1, 1995.

This standard applies to owners and operators of new, reconstructed, and existing aerospace manufacturing and rework facilities where the total hazardous air pollutants (HAP) emitted are greater than or equal to 10 tons per year of any one HAP; or where the total HAP emitted are greater than or equal to 25 tons per year of any combination of HAP. Operations covered include: cleaning, primer and top coat application, repainting, chemical milling maskant application, and handling and storage of waste. This information will be used by enforcement agencies to verify that sources subject to the standard are meeting the emission reductions mandated by the Clean Air Act.

Owners/operators of aerospace manufacturing and rework facilities are required to submit initial notification,

performance tests, and periodic reports. Respondents are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Semiannual reports are also required. These notifications, reports, and records are essential in determining compliance; and are required, in general, of all sources subject to NESHAP.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintain reports and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart GG as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 262 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining, information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Aerospace manufacturing and rework facilities.

Estimated Number of Respondents: 136.

Frequency of Response: Initially, semiannually, and occasionally.

Estimated Total Annual Hour Burden: 141,010.

Estimated Total Annual Cost: \$13,430,729, which includes \$13,294,729 in labor costs, no capital/

startup costs, and \$136,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the number of affected facilities as compared to the previous ICR. There is a change in the number of responses which is due to a more accurate accounting.

However, there is a small decrease in the estimated labor burden hours, as currently identified in the OMB Inventory of approved Burdens. The decrease is not due to any program changes. The change in the labor burden hours occurred because the previous ICR rounded their calculations, and this renewal did not. There is an increase in the cost estimates as compared to the previous ICR. The change in the cost estimates was caused by the updated labor rates, which resulted in an increase in the labor costs.

Dated: September 2, 2010.

Director, Collection Strategies Division.

National Drinking Water Advisory Council's Climate Ready Water Utilities Working Group Meeting Announcement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is announcing the fifth and final in-person meeting of the Climate Ready Water Utilities (CRWU) Working Group of the National Drinking Water Advisory Council (NDWAC). The purpose of this meeting is to review and discuss final changes to the Working Group's report and finalize the document.

DATES: The fifth in-person CRWU Working Group meeting will take place on September 23, 2010, from 9 a.m. to 5:30 p.m., Eastern Daylight Time (EDT) and on September 24, 2010, from 8:30 a.m. to 1 p.m., EDT.

ADDRESSES: The meeting will take place at the Hilton Alexandria Old Town, which is located at 1767 King Street, Alexandria, Virginia 22314, in Salon A.

FOR FURTHER INFORMATION CONTACT:

Interested participants from the public should contact Lauren Wisniewski, Designated Federal Officer, U.S. Environmental Protection Agency, Office of Ground Water and Drinking

Water, Water Security Division (Mail Code 4608T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460. Please contact Lauren Wisniewski at wisniewski.lauren@epa.gov or call 202-564-2918. CRWU Working Group meeting agendas and summaries are available at: <http://www.water.epa.gov/aboutow/ogwdw/ndwac/index.cfm#current>.

SUPPLEMENTARY INFORMATION:

Agenda: At previous meetings, the CRWU Working Group developed a draft *Report to the National Drinking Water Advisory Council* that addresses the Working Group's charge. The report includes an executive summary and sections on findings, recommendations, an adaptive response framework, needed resources, and incentives. In this meeting, the Working Group will discuss any final changes to the report and aim to finalize the document by the conclusion of the meeting. If time permits, there may also be a few presentations on related inter-agency climate efforts. To obtain a copy of the draft report or other meeting materials, please e-mail Lauren Wisniewski at wisniewski.lauren@epa.gov.

Public Participation: There will be an opportunity for public comment during the CRWU Working Group meeting. Oral statements will be limited to five (5) minutes, and it is preferred that only one person present the statement on behalf of a group or organization. Any person who wishes to file a written statement can do so before or after the CRWU Working Group meeting. Written statements received prior to the meeting will be distributed to all members of the Working Group before any final discussion or vote is completed. Any statements received after the meeting will become part of the permanent meeting file and will be forwarded to the CRWU Working Group members for their information. For information on access or services for individuals with disabilities, please contact Lauren Wisniewski at 202-564-2918 or by e-mail at wisniewski.lauren@epa.gov. To request accommodation of a disability, please contact Lauren Wisniewski, preferably, at least 10 days prior to the meeting to give EPA as much time as possible to process your request.
