BILLING CODE 6820-RH-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60 Day-10-0406]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

State and Local Area Integrated Telephone Survey (SLAITS), (OMB No. 0920-0406, Expiration 04/30/2011)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on the extent and nature of illness and disability of the population of the United States. The State and Local Area Integrated Telephone Survey (SLAITS) mechanism has been conducted since 1997. This is a request to continue for three years the integrated and coordinated survey system designed to collect needed health and well-being data at the national, state, and local levels, in accordance with the 1995 initiative to increase the integration of surveys within DHHS. The survey is being revised to allow for increased burden that may be associated with some topical areas.

Using the large sampling frame of the ongoing National Immunization Survey (NIS) and Computer Assisted Telephone Interviewing (CATI), and when necessary independent samples, mail, and internet modes to support data

collection activities, SLAITS has quickly collected and produced household and person-level data to monitor health-related areas. Questionnaire content is drawn from existing surveys within DHHS and other Federal agencies, or developed specifically to meet project sponsor needs. Examples of topical areas include infant, child, adolescent, parent, and family health, well-being, and knowledge, attitude, and behaviors; children with special health care needs (CSHCN); functioning; life course and social determinants of health; developmental delays and disabilities; acute and chronic conditions; immunizations; access to and use of health care; program participation; adoption; and changes in health insurance coverage and experiences.

Since its inception, data from the SLAITS mechanism have been used by researchers in the government, university, commercial, and private sectors; policymakers; and advocates to evaluate content and/or programs. SLAITS data continue to be heavily used by Federal and state Maternal and Child Health Bureau Directors to evaluate programs and service needs. Several SLAITS modules provided data for multiple Congressionally-mandated reports on healthcare disparities and quality; at least one report to Congress on health insurance coverage among children; and reports of the National Academy of Sciences. Within DHHS, the Office of the Assistant Secretary for Planning and Evaluation and the Administration for Children and Families used SLAITS to collect data for the first nationally representative survey of adoptive families across adoption types for children with and without special health care needs, and to assess their post-adoption service use and unmet needs. There is no cost to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Household screening	1,800,000	1	2/60	60,000
Household interview	306,000	1	25/60	127,500
Pilot work, pre-testing, and planning activities	12,300	1	35/60	7,175
Total				194,675

Dated: September 10, 2010.

Maryam Daneshvar,
Reports Clearance Officer, Centers for Disease
Control and Prevention.

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, e-mail paperwork@hrsa.gov or call the HRSA Reports Clearance Officer at (301) 443-1129.

Comments are invited on: (a) The proposed collection of information for the proper performance of the functions

of the agency; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Nurse Faculty Loan Program (NFLP) Annual Operating Report (AOR) Form (OMB No. 0915-0314)—[Extension]. This clearance request is for approval of the modified AOR for applicants to report NFLP loan fund activity annually. The modified form will collect additional data from applicants will include information on the total number of enrollees, graduates, and graduates employed as nurse faculty by, (1) Age and Gender, (2) Nursing Programs, (3) Nursing Degrees. Under Title VIII, section 846A of the Public Health Service Act, as amended by Public Law 111-148, the Secretary of Health and Human Services (HHS) enters into an agreement with a school of nursing and makes an award to the school. The award is used to establish a distinct account for the NFLP loan fund at the school. The school of nursing makes loans from the NFLP fund to students enrolled full-time in a master's or doctoral nursing education program that will prepare them to become qualified nursing faculty. Following graduation from the NFLP

lending school, loan recipients may receive up to 85 percent NFLP loan cancellation over a consecutive four-year period in exchange for service as full-time faculty at a school of nursing located in the U.S. and all of its territories where a school of nursing may be located. The NFLP lending school collects any portion of the loan that is not cancelled and any loans that go into repayment and deposits these monies into the NFLP loan fund to make additional NFLP loans. The school of nursing must keep records of all NFLP loan fund transactions. The NFLP Annual Operating Report is used to collect information relating to the NFLP loan fund operations and financial activities for a specified reporting period (July 1 through June 30 of the academic year). Participating schools will complete and submit the AOR annually. In addition to the newly required data, participating schools will provide the Federal Government with current and cumulative information on: (1) The number and amount of loans made, (2) the number of NFLP recipients and graduates, (3) the number and amount of loans collected, (4) the number and amount of loans in repayment, (5) the number of NFLP graduates employed as nurse faculty, (6) NFLP loan fund receipts, disbursements and other related cost. The NFLP loan fund balance is used to determine future awards to the school.

The estimate of burden for this form is as follows:

Form	Number of respondents	Responses per respondent	Total responses	Hours per responses	Total burden hours
Nurse Faculty Loan Program Annual Operating Report (AOR)	150	1	150	8	1200
Total Burden	150	1	150	8	1200

E-mail comments to paperwork@hrsa.gov or mail the HRSA Reports Clearance Officer, Room 10-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: September 10, 2010.

Sahira Rafiullah,
Director, Division of Policy and Information
Coordination.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects:

Title: State Abstinence Education Program.

OMB No.: 0970-0381.

Description: The State Abstinence Program was extended through Fiscal Year 2014 under Patient Protection and Affordable Care Act of 2010 (Affordable Care Act, hereafter), Public Law 111-148.

The Family and Youth Services Bureau (FYSB) is accepting applications from States and Territories for the development and implementation of the State Abstinence Program. The purpose of this program is to support decisions to abstain from sexual activity by providing abstinence programming as defined by Section 510(b) of the Social Security Act (42 U.S.C. 710(b)) with a focus on those groups that are most likely to bear children out-of-wedlock, such as youth in or aging out of foster care.

States are encouraged to develop flexible, medically accurate and effective abstinence-based plans responsive to their specific needs. These plans must provide abstinence
