

regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subparts AA and AAa. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 308.4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Electric arc furnaces and argon oxygen decarbonization vessels.

Estimated Number of Respondents: 98.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 60,745.

Estimated Total Annual Cost: \$5,911,975, which includes \$5,712,985 in labor costs, \$5,490 in capital/startup costs, and \$193,500 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase of 633 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of respondents. The new number of respondents accounted for the one new source that will become subject to the rule since the last ICR period. Further, the change in labor costs for industry and EPA is due to the use of more current labor rates. The decrease in annual O&M costs reflects a change made to account for a calculation error made in estimating the number of respondents that use COMS to measure stack emissions and the increase in total capital/startup costs is due to a calculation error in estimating the total costs for volumetric flow rate monitors for new sources.

Title: NESHAP for Primary

Magnesium Refining (Renewal).

ICR Numbers: EPA ICR Number 2098.05, OMB Control Number 2060–0536.

ICR Status: This ICR is scheduled to expire on March 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart TTTTT.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 153 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information;

search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Primary magnesium refining facilities.

Estimated Number of Respondents: 1.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 611.

Estimated Total Annual Cost:

\$52,991, which is comprised of labor costs of \$51,791, no annualized capital/startup costs, and operation and maintenance (O&M) costs of \$1,200.

Changes in the Estimates: The changes in burden from the most recently approved ICR are due to an adjustment. Calculation errors in the previous ICR were corrected, resulting in a small decrease to the calculated respondent burden hours and cost and an increase to the calculated Agency burden hours and cost.

Dated: January 29, 2010.

Notice of Availability of Draft National Pollutant Discharge Elimination System (NPDES) General Permits for Small Municipal Separate Storm Sewer Systems (MS4)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of draft NPDES general permits.

SUMMARY: The Director of the Office of Ecosystem Protection, Environmental Protection Agency-Region 1 (EPA), is issuing this Notice of Availability of Draft NPDES general permits for discharges from small MS4s to certain waters of the Commonwealth of Massachusetts. These draft NPDES general permits establish Notice of Intent (NOI) requirements, prohibitions, and management practices for stormwater discharges from small MS4s. EPA is proposing to issue three general permits. Throughout this document the terms “this permit” and “the permit” will refer to all three general permits.

Owner and/or operators of small MS4s that discharge stormwater will be required to submit a NOI to EPA-Region 1 to be covered by the general permit. Following a review and public notice of

the NOI, MS4s will receive a written notification from EPA regarding permit coverage and authorization to discharge under the general permit. The eligibility requirements are discussed in the draft permit. The small MS4 must meet the eligibility requirements of the permit prior to the submission of the NOI.

The draft general permit, appendices, and fact sheet are available at: <http://www.epa.gov/region1/npdes/stormwater>

DATES: The public comment period is from the February 4, 2010 to March 31, 2010. Interested persons may submit comments on the draft general permit as part of the administrative record to the EPA-Region 1, at the address given below, no later than midnight March 31, 2010. The general permit shall be effective on the date specified in the **Federal Register** publication of the Notice of Availability of the final general permit. The final general permit will expire five years from the effective date.

ADDRESSES: Submit comments by one of the following methods:

- *E-mail:* Murphy.thelma@epa.gov.
- *Mail:* Thelma Murphy, U.S. EPA—Region 1, 5 Post Office Square—Suite 100, Mail Code—OEP06–4, Boston, MA 02109–3912.

No facsimiles (faxes) will be accepted.

The draft permit is based on an administrative record available for public review at EPA-Region 1, Office of Ecosystem Protection, 5 Post Office Square—Suite 100, Boston, Massachusetts 02109–3912. The following **SUPPLEMENTARY INFORMATION** section sets forth principal facts and the significant factual, legal, and policy questions considered in the development of the draft permit. A reasonable fee may be charged for copying requests.

Public Meeting Information: EPA—Region 1 will hold a public meeting to provide information about the draft general permit and its requirements. The public meeting will include a brief presentation on the draft general permits and a brief question and answer session. Written, but not oral, comments for the official draft permit record will be accepted at the public meeting. The public meeting will be held at the following time and location: Thursday—March 18, 2010, Thomas P. O'Neil, Jr. Federal Building, 10 Causeway Street—Auditorium First Floor, Boston, MA 02222, 9 a.m.–10 a.m.

Public Hearing Information: Following the public meeting, a public hearing will be conducted in accordance with 40 CFR 124.12 and will provide interested parties with the opportunity to provide written and/or oral
