II. Background and Statutory Findings*A. Background*In a final rule published in the **Federal Register** on August 9, 2006 (71 FR 45415)(FRL-8084-1), EPA revoked inert ingredient tolerance exemptions because insufficient data were available to the Agency to make the safety determination required by Federal Food, Drug, and Cosmetic Act (FFDCA) section 408(c)(2). In reassessing the safety of the tolerance exemptions, EPA considered the validity, completeness, and reliability of the data that are available to the Agency [FFDCA section 408 (b)(2)(D)] and the available information concerning the special susceptibility of infants and children (including developmental effects from *in utero* exposure) [FFDCA section 408(b)(2)(C)]. EPA concluded it has insufficient data to make the safety finding of FFDCA section 408(c)(2) and revoked the inert ingredient tolerance

exemptions identified in the final rule under 40 CFR 180.910, 180.920, 180.930, and 180.940, with the revocations effective on August 9, 2008.

In a direct final rule published in the **Federal Register** on August 4, 2008 (73 FR 45312)(FRL-8372-7), EPA moved the effective date of the revocation of certain inert ingredient tolerance exemptions from August 9, 2008, until August 9, 2009. This determination was made based on requests for an extension of the revocation date from pesticide registrants and inert ingredient manufacturers who had demonstrated their intent to support certain inert ingredient tolerance exemptions and who had provided data development plans and schedules for data submission to the Agency. In a subsequent direct final rule published in the **Federal Register** on August 7, 2009 (74 FR 39543)(FRL-8431-8), EPA moved the effective date of the revocation of six inert ingredient tolerance exemptions from August 9, 2009, until October 9, 2009. This action was based on the fact that EPA had received petitions for the establishment of tolerance exemptions which included the submission of data for these inert ingredients. Notices of filing of these petitions (PP 8E7466 and PP 8E7478) were published in the **Federal Register** on March 25, 2009 (74 FR 12856)(FRL-8399-4). The August 7, 2009, direct final rule was published to allow for the completion of the Agency's risk assessments needed to evaluate the petitions and to complete the safety determinations for the six tolerance exemptions. The October 9, 2009 (74 FR 52148)(FRL-8794-1), direct final rule was published to move the effective date of the revocation of six inert ingredient tolerance exemptions from October 9, 2009 to February 9, 2010 to allow for the review and evaluation of significant additional toxicity, metabolism and environmental fate data submitted by the petitioners in further support of pesticide tolerance petitions 8E7466 and 8E7478.

B. Moving the Effective Date of the Revocation for Six Tolerance Exemptions

Following the publication of the October 9, 2009, final rule delaying the effective date for the six revoked tolerance exemptions, EPA did its own search of the public literature and found new information that the Agency determined would have significant bearing on its safety evaluation under FFDCA section 408(c)(2) of the petitions (8E7466 and 8E7478) which are proposing that these exemptions be reestablished. EPA, therefore, concludes that additional time is necessary to

complete the safety determinations for these six tolerance exemptions in order to allow time to review and evaluate this new information and that the effective date of the revocation of these tolerance exemptions should be moved by three months to May 9, 2010.

C. What is the Agency's Authority for Taking this Action?

A "tolerance" represents the maximum level for residues of pesticide chemicals legally allowed in or on raw agricultural commodities and processed foods. Section 408 of FFDCA, 21 U.S.C. 346a, as amended by FQPA, Public Law 104-170, authorizes the establishment of tolerances, exemptions from tolerance requirements, modifications in tolerances, and revocation of tolerances for residues of pesticide chemicals in or on raw agricultural commodities and processed foods. Without a tolerance or exemption, food containing pesticide residues is considered to be unsafe and therefore "adulterated" under FFDCA section 402(a), 21 U.S.C. 342(a). Such food may not be distributed in interstate commerce (21 U.S.C. 331(a)). For a food-use pesticide to be sold and distributed, the pesticide must not only have appropriate tolerances under FFDCA, but also must be registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)(7 U.S.C. 136 *et seq.*). Food-use pesticides not registered in the United States must have tolerances in order for commodities treated with those pesticides to be imported into the United States. Under FFDCA section 408(e)(1)(B), 21 U.S.C. 346a(e)(1)(B), EPA may take action establishing, modifying, suspending, or revoking a tolerance exemption.

III. Delayed Effective Date for Certain Tolerance Exemptions

The amendatory designations listed in this unit are reprinted from the final rule published in the **Federal Register** issue of October 9, 2009 (74 FR 52148) for the convenience of the user. The structure mirrors the amendatory designations in the original document. The amendatory designations shown are those with the effective date delayed until May 9, 2010.

Section 180.910

m. α -(p-Nonylphenyl)- ω -hydroxypoly(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding ammonium, calcium, magnesium, monoethanolamine, potassium, sodium, and zinc salts of the phosphate esters; the nonyl group is a propylene trimer isomer and the poly

(oxyethylene) content averages 4–14 moles or 30 moles.

IV. Statutory and Executive Order Reviews

This final rule establishes tolerances under section 408(d) of FFDCA in response to petitions submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this final rule has been exempted from review under Executive Order 12866, this final rule is not subject to Executive Order 13211, entitled *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled *Protection of Children from*

Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under section 408(d) of FFDCA, such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This final rule directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 9, 2000) do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note).

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and

other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).
