Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, e-mail paperwork@hrsa.gov or call the HRSA Reports Clearance Officer at (301) 443-1129.

Comments are invited on: (a) The proposed collection of information for the proper performance of the functions of the agency; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Ryan White HIV/AIDS Treatment Extension Act of 2009: Program Allocation and Expenditure Forms (OMB No. 0915-0318)—Extension

The Ryan White HIV/AIDS Program Allocation and Expenditure Reports will enable the Health Resources and Services Administration's (HRSA) HIV/AIDS Bureau to track spending requirements for each program as

outlined in the 2009 legislation. Grantees funded under Parts A, B, C, and D of the Ryan White HIV/AIDS Program (codified under Title XXVI of the Public Health Service Act) would be required to report financial data to HRSA at the beginning and end of the grant cycle.

All Parts of the Ryan White HIV/AIDS Program specify HRSA's responsibilities in the administration of grant funds. Accurate allocation and expenditure records of the grantees receiving Ryan White HIV/AIDS Program funding are critical to the implementation of the legislation and thus are necessary for HRSA to fulfill its responsibilities.

The forms would continue to require grantees to report on how funds are allocated and spent on core and non-core services, and on various program components, such as administration, planning and evaluation, and quality management. The two forms are identical in the types of information that are collected. However, the first report would track the *allocation* of the award at the beginning of the grant cycle and the second report would track actual *expenditures* (including carryover dollars) at the end of the grant cycle.

The primary purposes of these forms are to (1) provide information on the number of grant dollars spent on various services and program components, and (2) oversee compliance with the intent of Congressional appropriations in a timely manner. In addition to meeting the goal of accountability to the Congress, clients, advocacy groups, and the general public, information collected on these reports is critical for HRSA, State, and local grantees, and individual providers to evaluate the effectiveness of these programs. The annual estimate of burden is as follows:

Program under which grantee is funded	Number of grantee respondents	Responses per grantee	Total responses	Hours to complete each form	Total burden hours
Part A	56	2	112	8	896
Part B	59	2	118	12	1416
Part A MAI	56	2	112	4	448
Part B MAI	59	2	118	4	472
Part C	361	2	722	7	5054
Part D	90	2	180	7	1260
Total	681		1,362		9,546

Proposed Project: National Health Service Corps Information Follow-up Form—New

The National Health Service Corps (NHSC) of the Bureau of Clinician Recruitment and Service, HRSA, is committed to improving the health of the Nation's underserved by uniting communities in need with caring health professionals and by supporting communities' efforts to build better systems of care.

The NHSC Information Follow-up Form, which NHSC will use when exhibiting at national and regional conferences as well as when presenting on campuses to health profession students, is an optional form that a

health profession student, licensed clinician, faculty member, or clinical site administrator can fill out. Individuals who submit the form to NHSC, may ask questions and/or sign up to receive periodic program updates and other general information regarding opportunities with the NHSC via e-mail. An individual is free to discontinue receiving communication from NHSC at anytime by e-mailing NHSCupdate@hrsa.gov. Completed forms will contain information such as, the names of the individuals, their email address(es), their city and state, their phone number, the organization where they are employed (or the school which they attend), the year they intend to graduate (if applicable), how they heard about NHSC, which NHSC programs they are interested in, etc. Assistance in completing the form will be given by the BCRS staff person (or BCRS representative) who is present at the event. Based on the FY10 exhibit and presentation schedule, NHSC could have gathered information from 2,400 individuals. Using this as a guide for future years, the estimated annual burden is as follows:

Form	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
Information Follow-up Form	2400	1	2400	.025 (90 seconds).	60
Total	2400	1	2400	.025 (90 seconds).	60
