#### SUPPLEMENTARY INFORMATION:

##### Introduction

The NRC is amending its regulations at Title 10 of the *Code of Federal Regulations* (10 CFR) parts 2, 10, 20, 25, 26, 30, 34, 40, 50, 54, 70, 71, 72, 95, 110, and 150 to make miscellaneous administrative changes, including an update of the list of Agreement and Non-Agreement States, the merging of the Region II materials program with that of Region I, the correction of office titles associated with the Office of Nuclear Material Safety and Safeguards and the Office of Federal and State Materials and Environmental Management Programs, the inclusion of references to new E.O. 13526, and other edits, corrections, and conforming changes.

##### Summary of Changes

###### *Include Electronic Watermarks to Denote Proprietary Content*

In § 2.390(b)(1)(i)(A) and (b)(1)(i)(B), the language is revised to include electronic watermarks to denote proprietary content. Current regulations at § 2.390(b)(1)(i)(A) and (b)(1)(i)(B) currently require proprietary marking at the top of the first page, and on succeeding, affected pages, either adjacent to the material sought to be withheld from public disclosure, or at the top of the page, if the entire page is sought to be withheld. At the time the regulations were written, information technology alternatives, such as

electronic watermarks, were not in common use, if the technology was available at all. Various alternatives such as electronic watermark, margin notation, or other suitable markings may now be available to denote proprietary content, and would be acceptable as being completely within the spirit of the regulations, since the goal of the regulations is simply to ensure that there is notice of proprietary content to whoever is handling the document and not to be unnecessarily prescriptive, either as to methodology or terminology.

###### *Update the List of Non-Agreement States*

In §§ 30.6(b)(2)(i), 40.5(b)(2)(i), and 70.5(b)(2)(i), Maine, Massachusetts, Pennsylvania and New Jersey no longer appear because they are Agreement States. In §§ 30.6(b)(2)(iii)(B), 40.5(b)(2)(iii)(B), and 70.5(b)(2)(iii)(B), Ohio, Wisconsin and Minnesota no longer appear because they are Agreement States and in §§ 30.6(b)(2)(iv)(B), 40.5(b)(2)(iv)(B), and 70.5(b)(2)(iv)(B), Oklahoma no longer appears because it is an Agreement State.

###### *Add a List of Mining and Milling Agreement States*

In §§ 30.6(b)(2)(iii)(A), 40.5(b)(2)(iii)(A), and 70.5(b)(2)(iii)(A), Illinois and Ohio are now properly identified as mining and milling Agreement States and in §§ 30.6(b)(2)(iv)(A), 40.5(b)(2)(iv)(A), and 70.5(b)(2)(iv)(A), Colorado, Utah, Texas and Washington are also identified as mining and milling Agreement States. This addition was made to highlight those Agreements States who selected oversight authority concerning this type of regulation.

###### *Amend Relevant Sections to Identify That Region II's Materials Program Has Been Merged Into That of Region I*

The contact information for material licensees has been updated in §§ 30.6(b)(2)(ii), 40.5(b)(2)(ii), 70.5(b)(2)(ii) to reflect Region I because Region II's materials program has been merged into that of Region I.

###### *Remove Obsolete Text*

Sections 30.37, 40.43, and 70.33 are revised to remove obsolete text, contained in paragraph (b) of each section, that is related to a final rule published on January 16, 1996 (61 FR

1109). The final rule provided, on a one-time basis, a five-year extension for certain licenses. Those license extensions are now expired.

*Correct Office Title Associated with the Office of Nuclear Material Safety and Safeguards*

The office title “Spent Fuel Project Office” is corrected to “Division of Spent Fuel Storage and Transportation” in §§ 71.1, 71.17(c)(3), 71.95(c), 71.101(c), 72.4, 72.16(a), 72.44(f), and 72.186(b).

*Use the Formal Title for the Office of Federal and State Materials and Environmental Management Programs*

Section 71.97(c)(3)(iii) is revised to change the office title from “Office of State Programs” to “Office of Federal and State Materials and Environmental Management Programs”.

*Remove Text for an Exemption that Expired on October 18, 2004*

In a petition for rulemaking (PRM) submitted by the Nuclear Energy Institute on April 16, 2008 (PRM–70–8; Docket ID NRC–2009–0184), the petitioner requested removal of the exemption in the introductory text to Appendix A to 10 CFR part 70 because this exemption expired on October 18, 2004. The NRC agrees with the petitioner and the text is removed.

*Correct Column Heading in Appendix B of 10 CFR Part 20*

In the second table that appears in Appendix B to 10 CFR part 20, the heading for the second column of Table 1 which reads “ $\mu\text{Ci/ml}$ ” is corrected to read “ $\mu\text{Ci}$ ”.

*Correct to Use the Defined Term “Watchman”*

In § 26.4(a)(5), the term “watchperson” is replaced with the defined term “watchman”.

*Correct the Spelling of the Word “Measures”*

In § 50.70(b)(3), the spelling of the word “measures” is corrected.

*Remove References to Information Collections*

In § 34.8(b), the reference to § 34.53 is removed because it does not contain any information collections. In § 71.6(b), the reference to § 71.20 is removed because the information collection in that section has expired.

*Add Missing Punctuation*

In § 50.56, a comma is added after the word “contrary”.

*Remove Reference to Section That Does Not Exist*

In § 150.10, the reference to § 150.18 is removed because that section does not exist.

*Correct Name of NUREG*

In § 150.17(b), the name “NUREG/BR–007” is corrected to read “NUREG/BR–0007”.

*Correct Executive Order Reference*

Executive Order (E.O.) 12958 was revoked and replaced with E.O. 13526 in early 2010. References were corrected to E.O. 13526 in the authority citations to 10 CFR parts 25, 54, and 95; definitions in §§ 10.5, 25.5, 95.5, and 110.2; and §§ 25.37(b) and 95.59.

*Make Conforming Changes for Consistency and Correct an Error in 10 CFR Part 26*

Conforming changes to refer to “review procedure” are made in § 26.39. Conforming changes to refer to individuals “constructing or directing the construction of safety- or security-related SSCs” are made in §§ 26.403(b)(2)(ii), 26.403(b)(3), 26.405(c)(1), 26.406(b), 26.406(d), 26.407 and 26.409. An incorrect reference to operators licensed under 10 CFR Part 52 is removed from the introductory text of § 26.719(b)(2).

**Rulemaking Procedure**

Because these amendments constitute minor administrative corrections to the regulations, the Commission finds that the notice and comment provisions of the Administrative Procedure Act are unnecessary and is exercising its authority under 5 U.S.C. 553(b)(B) to publish these amendments as a final rule. The amendments are effective 30 days after publication in the **Federal Register**. These amendments do not require action by any person or entity regulated by the NRC. Also, the final rule does not change the substantive responsibilities of any person or entity regulated by the NRC.

**Environmental Impact: Categorical Exclusion**

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2), which excludes from a major action rules which are corrective or of a minor non-policy nature and do not substantially modify existing regulations. Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this rule.

**Paperwork Reduction Act Statement**

This final rule does not contain information collection requirements and, therefore, is not subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

**Public Protection Notification**

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

**Backfit Analysis**

The NRC has determined that the backfit rule does not apply to this final rule; therefore, a backfit analysis is not required for this final rule because these amendments are administrative in nature and do not involve any provisions that would impose backfits as defined in 10 CFR chapter I, or be inconsistent with the issue finality provisions in 10 CFR part 52.

**Congressional Review Act (CRA)**

Under the CRA of 1996, the NRC has determined that this action is not a major rule and has verified this determination with the Office of Information and Regulatory Affairs of OMB.

**DEPARTMENT OF ENERGY**

**10 CFR Part 851**

**Worker Safety and Health Program: Safety Conscious Work Environment**

**AGENCY:** Office of the General Counsel, Department of Energy (DOE).

**ACTION:** Notice of denial of petition for rulemaking.

**SUMMARY:** The Department of Energy received a petition from the Hanford Challenge on August 18, 2009, requesting the initiation of a rulemaking regarding safety policies at DOE’s nuclear facilities. The petition calls for DOE to establish by regulation a safety program using the Nuclear Regulatory Commission’s “Safety-Conscious Work Environment” guidelines as a model. DOE published this petition and a request for comment on October 16, 2009. DOE denies the petition for rulemaking.

**DATES:** This notice is effective November 30, 2010.

**FOR FURTHER INFORMATION CONTACT:**

Steven L. Krahn, Acting Deputy Assistant Secretary, Safety Management and Operations, Environmental Management Office, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0121, (202) 586–2281, e-mail: [steve.krahn@em.doe.gov](mailto:steve.krahn@em.doe.gov).

**SUPPLEMENTARY INFORMATION:** DOE received numerous comments in response to the notice of the Hanford Challenge petition for rulemaking, published on October 16, 2009. 74 FR 53190. The vast majority of those comments recommended denial of the petition, for two reasons. First, DOE already has numerous regulations in place to protect and encourage employees to raise work-related

concerns. Second, not only would instituting a “Safety-Conscious Work Environment” by regulation be redundant, but it would also fail to add any additional protections not already in place. The comments DOE received in favor of the petition were generally related to the existing culture of safety and whistleblower protection. The main concern in these comments was that DOE facilities would be unsafe without an environment where employees could raise concerns without fear of retaliation or reprisal.

After reviewing the existing protections, DOE agrees with the majority of the comments that granting the petition for rulemaking would be unnecessary. Currently, employee protection and safety programs exist in the following statutory and regulatory authorities: 42 U.S.C. 5851, 10 CFR part 708, 10 CFR part 851, 29 CFR 1960.28, 48 CFR 970.0309, and 29 CFR part 24, as well as numerous internal DOE orders and directives including DOE’s Employee Concerns Program (DOE Order 442.1A) and Differing Professional Opinions Manual (DOE Manual 442.1–1). These authorities provide sufficient guidance and protections in which employees can properly raise concerns that will be promptly reviewed and appropriately resolved with timely feedback.

DOE denies the petition for rulemaking because the existing regulations provide legal protection to employees while adequately promoting worker involvement in raising and resolving concerns. Implementing the “Safety-Conscious Work Environment” would be redundant and would fail to add any substantive protections not currently in place. While the petitioner believes that the existing regulations are inadequate, neither DOE’s internal review nor the comments submitted in response to the petition demonstrate that to be the case.

Nevertheless, DOE recognizes that the existing authorities governing safety and employee protection programs can be diverse and confusing. In an attempt to provide as much clarity on this issue as possible, DOE has created a Web site summarizing the existing law and providing a central location consolidating all the relevant standards on this issue. This Web site can be accessed at: <http://www.gc.energy.gov/1630.htm>. The Department believes that this Web site will increase awareness of the existing protections for DOE employees and DOE contractors and will address the underlying concerns evident in the Hanford Challenge petition for rulemaking and the comments in support thereof.
