Proposed Project: Access to Recovery (ATR) Program (OMB No. 0930-0266)—Revision

The Center for Substance Abuse Treatment (CSAT) is charged with implementing the Access to Recovery (ATR) program which will allow grantees (States, Territories, the District of Columbia and Tribal Organizations) a means to implement voucher programs for substance abuse clinical treatment and recovery support services. The ATR

program is part of a Presidential initiative to: (1) Provide client choice among substance abuse clinical treatment and recovery support service providers, (2) expand access to a comprehensive array of clinical treatment and recovery support options (including faith-based programmatic options), and (3) increase substance abuse treatment capacity. Monitoring outcomes, tracking costs, and preventing waste, fraud and abuse to ensure accountability and effectiveness in the use of Federal funds are also important elements of the ATR program. Grantees, as a contingency of their

award, are responsible for collecting Voucher Information (VI) [OMB (OMB No. 0930-0266); Expiration Date 05/31/2011] and Voucher Transaction (VT) [(OMB No. 0930-0266; 05/31/2011)] data from their clients.

The primary purpose of this data collection activity is to meet the reporting requirements of the Government Performance and Results Act (GPRA) by allowing SAMHSA to quantify the effects and accomplishments of SAMHSA programs. The following table is an estimated annual response burden for this effort.

ESTIMATES OF ANNUALIZED HOUR BURDEN ¹

Center/form/respondent type	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden	Total wage cost	Total hour cost/respondent ¹
Voucher information and transaction	53,333	1.5	80,000	.03	2,400	\$18.40	\$44,160

¹ This table represents the maximum additional burden if adult respondents for ATR provide responses/data at an estimated hourly wage (from 2010 Bureau of Labor Statistics).

SUPPLEMENTARY INFORMATION:

Background and Purpose

The VGP is an EPA permitting program issued under the Clean Water Act (33 U.S.C. 1342) and provides requirements for discharges incidental to the normal operation of vessels. Under the Clean Water Act, discharges of pollutants from vessels that are not covered by the VGP are unlawful unless they are exempt or covered by another Clean Water Act permit. The Coast Guard shares a mutual interest in ensuring vessels comply with VGP provisions. In fulfilling its role as the nation's lead maritime law enforcement agency and to carry out its mission of environmental stewardship, it is in the interest of the Coast Guard to assist the EPA in the detection and reporting of VGP deficiencies onboard vessels during regularly scheduled inspections of U.S. vessels and during Port State Control (PSC) exams on foreign vessels. The Coast Guard will report detected VGP deficiencies to the EPA.

The Coast Guard has prepared policy letter 11-01, Policy for Guidelines for Coast Guard Evaluations of Compliance with the U.S. Environmental Protection Agency's Vessel General Permit for Discharges Incidental to the Normal Operation of Vessels, in consultation with the EPA to assist Coast Guard staff in the preparation for and the execution of VGP compliance monitoring inspections and exams. Vessel owners and/or operators are ultimately responsible for compliance with all aspects of the VGP. Vessels may be subject to inspection to verify compliance with any and all legal requirements. Vessel owners and operators may wish to take note of the

minimum items that the Marine Inspectors (MI) and PSC Officers may examine during VGP compliance exams, as outlined in the policy letter. Vessel owners and operators should note further that MI/PSC Officers are not limited in the depth and scope of the examination.

Policy Implementation

The Coast Guard will evaluate vessels for compliance with the Vessel General Permit beginning on March 13, 2011.

Authority: This notice is issued under authority of 5 U.S.C. 552(a), 33 U.S.C. 1223, 14 U.S.C. 93(a)(20), and 14 U.S.C. 141.

Dated: March 3, 2011.
