NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request reinstatement and approval of this data collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this information collection.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be received by July 15, 2011 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: FY 2011 and FY 2013 Survey of Science and Engineering Research Facilities.

OMB Control Number: 3145-0101.

Expiration Date of Approval: October 31, 2010.

Type of Request: Intent to seek approval to reinstate an information collection for three years.

Proposed Project: The National Science Foundation Survey of Science and Engineering Research Facilities is a Congressionally mandated (Public Law 99-159), biennial survey that has been conducted since 1986. The survey

collects data on the amount, condition, and costs of the physical facilities used to conduct science and engineering research. The survey also requests information on the networking and high performance computing capacity at the surveyed institutions, a critical part of the infrastructure for science and engineering research. Due to the rapidity of technological change, these questions are continually updated. It was expected by Congress that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and to formulate appropriate solutions to documented needs. During the FY 2007 and FY 2009 survey cycles, data were collected from a population of approximately 495 research-performing colleges and universities and approximately 163 nonprofit biomedical research institutions receiving research support from the National Institutes of Health.

Use of the Information: Analysis of the Facilities Survey data will provide updated information on the status of scientific and engineering research facilities and capabilities. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by institutional academic officials, the scientific/engineering establishment, and state agencies and legislatures that fund universities.

Burden on the Public: The Facilities Survey will be sent by mail to approximately 495 higher education institutions. The completion time per academic institution is expected to average 41 hours. Assuming a 95% response rate, this would result in an estimated burden of 19,280 hours for academic institutions.

Dated: May 15, 2011.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2010-0383]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and

Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 73, "Physical Protection of Plants and Materials."

2. *Current OMB approval number:* 3150-0002.

3. *How often the collection is required:* On occasion, with the exception of the initial submittal of revised Security Plans, Safeguards Contingency Plans, and Security Training and Qualification Plans. Required reports are submitted and evaluated as events occur.

4. *Who is required or asked to report:* Nuclear power reactor licensees, licensed under 10 CFR part 50 or 52 who possess, use, import, export, transport, or deliver to a carrier for transport, special nuclear material; Category I fuel facilities; Category II and III facilities; research and test reactors; 200 state contacts; and 262 other nuclear materials licensees.

5. *The number of annual respondents:* 580.

6. *The number of hours needed annually to complete the requirement or request:* 508,133 hours (35,705 reporting plus 10,280 third-party notification plus 462,148 recordkeeping).

7. *Abstract:* NRC regulations in 10 CFR part 73 prescribe requirements to establish and maintain a physical protection system and security organization with capabilities for protection of (1) special nuclear material (SNM) at fixed sites, (2) SNM in transit, and (3) plants in which SNM is used. The objective is to ensure that activities involving special nuclear material are consistent with interests of common defense and security and that these activities do not constitute an unreasonable risk to public health and safety. The information in the reports and records submitted by licensees is used by the NRC staff to ensure that the health and safety of the public and the environment are protected, and licensee possession and use of special nuclear material is in compliance with license and regulatory requirements.

Submit, by July 15, 2011, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

The public may examine and have copied for a fee publicly available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2010-0383. You may submit your comments by any of the following methods: Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2010-0383. Mail comments to NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6258, or by e-mail to INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 11th day of May 2011.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.
