

part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Palos Verdes Shelf Superfund site (PV Shelf) is a large sediment deposit off the coast of Los Angeles that contains approximately 110 tons of DDT and 10 tons of PCBs. The contaminants are in sediment too deep for direct human contact; however, fish in the PV Shelf area bioaccumulate the contaminants, exposing people who consume them to these hazardous substances. The objective of this information collection request (ICR) is to gather quantitative data that will provide estimates of angler seafood consumption in the PV Shelf area that can be used in EPA's outreach and education program and in human health risk assessments. The survey will (1) Determine the fish species that are being caught and consumed at the highest rates, (2) identify demographic and ethnic subgroups within the general fishing population of the PV Shelf area that may be consuming large quantities of contaminants through selection, quantity, and/or cooking method of fish species, (3) gather quantitative data that can be used to characterize exposures of the general fishing population of the PV Shelf area to DDTs and PCBs from consumption of fish and shellfish caught in the PV Shelf area, and (4) gather sufficient information to determine whether the existing human health risk assessment needs to be revised before its use in a final Record of Decision. Anglers will be asked to answer about a dozen questions regarding their fishing habits. Participation is voluntary and confidential. Demographic data will be collected; however, no personal identification information will be collected.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Fisherman: Individual anglers found fishing in the survey area, defined as the coastal region from Santa Monica Pier to Seal Beach Pier.

Estimated Number of Respondents: 1,392.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 90.

Estimated Total Annual Cost: \$0.

Changes in the Estimates: This is a new one-time survey, thus there is no currently approved burden.

Dated: May 25, 2011.

John Moses,

Director, Collection Strategies Division.

Cryolite Registration Review Docket; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: EPA issued a notice in the **Federal Register** of March 30, 2011 concerning the availability of multiple registration review dockets for public comment, including cryolite. This document extends the comment period for the cryolite registration review docket only, which was due to expire on May 31, 2011, until July 5, 2011.

DATES: Comments, identified by docket identification (ID) number EPA-HQ-OPP-2011-0173, must be received on or before July 5, 2011.

ADDRESSES: Follow the detailed instructions as provided under **ADDRESSES** in the **Federal Register** document of March 30, 2011.

FOR FURTHER INFORMATION CONTACT: Eric Miederhoff, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; *telephone number:* (703) 347-8028; *e-mail address:* miederhoff.eric@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment period established in the **Federal Register** of March 30, 2011 (76 FR 17646) (FRL-8868-9). In that document, the Agency announced the availability of multiple registration review dockets for public comment, including cryolite. EPA is hereby extending the comment period for the cryolite registration review docket only until July 5, 2011.

To submit comments, or access the docket, please follow the detailed instructions as provided under **ADDRESSES** in the March 30, 2011 **Federal Register** document. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

List of Subjects

Environmental protection, Cryolite, Pesticides and pests.

Dated: May 25, 2011.

Peter Caulkins,

Acting Director, Pesticide Re-evaluation Division, Office of Pesticide Programs.

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit II, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows an August 25, 2010 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit II. To voluntarily cancel these product registrations. In the August 25, 2010 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received comments on the notice but these comments were exclusively on the public health mosquitocide uses. Consequently, the public health pesticide products

containing resmethrin have been removed from this final cancellation order and will be addressed separately from other resmethrin products. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective June 1, 2011.

FOR FURTHER INFORMATION CONTACT: Bonnie Adler, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8523; fax number: (703) 308-8090; e-mail address: adler.bonnie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID)

number EPA-HQ-OPP-2010-0306. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. What action is the agency taking?

This notice announces the cancellation, as requested by registrants, of 121 products registered under FIFRA section 3. These registrations are listed in sequence by registration number in Table 1 of this unit.

TABLE 1—PRODUCT CANCELLATIONS

III. Summary of Public Comments Received and Agency Response to Comments

The resmethrin docket was open for a 180-day comment period beginning on August 25, 2010. During that time, four comments were received on the Requests to Voluntarily Cancel Certain Pesticide Registrations. The comments were from two Florida counties, the IR-4 Project in New Jersey, and ADAPCO, a business that provides mosquito control products and equipment. The comments were exclusively on the public health uses of resmethrin and are summarized in this unit.

Comments on the Public Health Mosquitocide Use

1. *Comments From the IR-4 Project.* IR-4 commented that the number of pesticides available to control mosquitoes is limited, and that temephos is also being voluntarily cancelled at this time. They also commented that the Food Quality Protection Act created mechanisms to prevent public health pesticides from being driven off the market solely due to data needs. They point out that the proposed cancellation is voluntary, driven not by risk but rather by the small market and the high cost of data generation. Finally, IR-4 requests a 15-month moratorium on any regulatory action that would result in the loss of resmethrin or any other active ingredient defined as a public health pesticide by FQPA.

2. *EPA Response.* EPA is currently reviewing the data supporting resmethrin use as a public health pesticide. A separate **Federal Register** Notice (75 FR 28019, May 19, 2010) (FRL-8825-7), announced the receipt of requests to voluntarily cancel those resmethrin products registered for use in wide area mosquito abatement. A

number of entities which commented on that notice are currently coordinating to develop a Pest Management Strategic Plan to support the continued registration of resmethrin for public health use. Consequently, certain public health pesticide products containing remethrin have been removed from this final cancellation order and will be addressed separately from other resmethrin products.

3. *Comments From County Mosquito Districts.* St. Lucie County and Manatee County both commented that the loss of mosquitocide vector control chemicals will result in increased public health risks due to mosquito-borne illnesses. Both pointed out that resmethrin is highly effective and has positive environmental attributes such as short-half life, no toxic metabolites, and minimal non-target impacts. St. Lucie County noted that resmethrin causes less allergic reaction in pesticide-sensitive individuals, and Manatee County maintained that resmethrin is one of few chemicals available for large scale Ultra Low Volume (ULV) adulticiding activities.

4. *EPA Response.* See previous response. EPA recognizes the importance of public health pesticides and is addressing resmethrin public health use products separately.

5. *Comments From ADAPCO.* ADAPCO commented on the danger of resistance development if more mosquitocide products are cancelled and operations are forced to depend on only a few options in chemistry. They noted that resmethrin can be used in environmentally sensitive areas against West Nile Virus, Eastern Equine Encephalitis, and other vector-borne diseases, most often when efficacy is not achieved with cheaper formulations.

6. *EPA Response.* See previous response. EPA recognizes the importance of public health pesticides

and is addressing resmethrin public health use products separately. Several resmethrin products included in the August 25, 2010 (75 FR 52330) (FRL-8838-8) **Federal Register** Notice, specifically the public health uses, have been removed from this final cancellation order and will be addressed separately as noted in this Unit above. The remaining products will thus be cancelled per this notice.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellations of the registrations identified in Table 1 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 of Unit II are canceled. The effective date of the cancellations that are subject of this notice is June 1, 2011. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit II, in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI, will be a violation of FIFRA.

V. What is the Agency's authority for taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of August 25, 2010. The comment period closed on February 22, 2011.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit II. until December 31, 2012. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with FIFRA section 17, or proper disposal. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 of Unit II. until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2011-0401; FRL-9313-7]

Biennial Determination of the Waste Isolation Pilot Plant's Compliance with Applicable Federal Environmental Laws for the Period 2008 to 2010

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Based on documentation submitted by the U.S. Department of Energy (DOE) for the Waste Isolation Pilot Plant (WIPP), the U.S. Environmental Protection Agency (EPA or "we") determined that, between 2008 and 2010, DOE operated the WIPP facility in compliance with applicable Federal statutes, regulations, and permit requirements designated in Section 9(a)(1) of the WIPP Land Withdrawal Act, as amended. The Secretary of Energy was notified of the determination via a letter from EPA Administrator Lisa P. Jackson dated May 25, 2011.

FOR FURTHER INFORMATION CONTACT: Nick Stone; telephone number: (214) 665-7226; address: WIPP Project Officer, Mail Code 6PD-O, U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, TX 75202.

SUPPLEMENTARY INFORMATION:

I. General Information

A. How Can I Get Copies Of This Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under Docket ID No. EPA-HQ-OAR-2011-0401; FRL-9313-7]. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Air and Radiation Docket in the EPA Docket Center, (EPA/DC) EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742. As provided in EPA's regulations at 40 CFR part 2, and in accordance with normal EPA docket procedures, if copies of any docket materials are requested, a reasonable fee may be charged for photocopying.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the EPA Internet under the "Federal Register" listings at <http://www.epa.gov/fedrgstr/>.

II. Background

EPA made this determination under the authority of Section 9 of the WIPP Land Withdrawal Act (WIPP LWA). (Pub. L. 102-579 and 104-201.) Section 9(a)(1) of the WIPP LWA requires that, as of the date of the enactment of the WIPP LWA, DOE shall comply with respect to WIPP with (1) Regulations for the management and storage of radioactive waste (40 CFR part 191, subpart A); (2) the Clean Air Act; (3) the Solid Waste Disposal Act; (4) the Safe Drinking Water Act; (5) the Toxic Substances Control Act; (6) the Comprehensive Environmental Response, Compensation, and Liability Act; and (7) all other applicable Federal laws pertaining to public health and safety or the environment. Section 9(a)(2) of the WIPP LWA requires DOE biennially to submit to EPA documentation of continued compliance with the laws, regulations, and permit requirements set forth in Section 9(a)(1). (DOE must also submit similar

documentation of compliance with the Solid Waste Disposal Act to the State of New Mexico.) Section 9(a)(3) requires the Administrator of EPA to determine, on a biennial basis following the submittal of documentation of compliance by the Secretary of DOE, whether the WIPP is in compliance with the pertinent laws, regulations, and permit requirements, as set forth at Section 9(a)(1).

We determined that for the period 2008 to 2010, the DOE-submitted documentation showed continued compliance with 40 CFR part 191, subpart A, the Clean Air Act, the Safe Drinking Water Act, the Toxic Substances Control Act, and the Comprehensive Environmental Response, Compensation, and Liability Act. With respect to other applicable Federal laws pertaining to public health and safety or the environment, as required by Section 9(a)(1)(G), DOE's documentation indicates that DOE was in compliance with the Clean Water Act, the Federal Insecticide, Fungicide, and Rodenticide Act, and certain statutes under the jurisdiction of the Department of Interior.

This determination is not in any way related to, or a part of, our certification and recertification decisions regarding whether the WIPP complies with EPA's disposal regulations for transuranic radioactive waste at 40 CFR Part 191.

Dated: May 25, 2011.

Lisa P. Jackson,
Administrator.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Sunshine Act Meeting Notice

AGENCY HOLDING THE MEETING: Equal Employment Opportunity Commission.

DATE AND TIME: Wednesday, June 8, 2011, 9:30 a.m. Eastern Time.

PLACE: Commission Meeting Room on the First Floor of the EEOC Office Building, 131 M Street, NE., Washington, DC 20507.

STATUS: The meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Open Session

1. Announcement of Notation Votes, and
2. Leave as a Reasonable Accommodation.

Note: In accordance with the Sunshine Act, the meeting will be open
