\* The Standards Council of Canada  
(SCC) voted to end its Laboratory  
Accreditation Program for Substance  
Abuse (LAPSA) effective May 12, 1998.  
Laboratories certified through that  
program were accredited to conduct  
forensic urine drug testing as required  
by U.S. Department of Transportation  
(DOT) regulations. As of that date, the  
certification of those accredited  
Canadian laboratories will continue  
under DOT authority. The responsibility  
for conducting quarterly performance  
testing plus periodic on-site inspections  
of those LAPSA-accredited laboratories  
was transferred to the U.S. HHS, with  
the HHS' NLCP contractor continuing to  
have an active role in the performance  
testing and laboratory inspection  
processes. Other Canadian laboratories  
wishing to be considered for the NLCP  
may apply directly to the NLCP  
contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to  
be qualified, HHS will recommend that  
DOT certify the laboratory (**Federal  
Register**, July 16, 1996) as meeting the  
minimum standards of the Mandatory  
Guidelines published in the **Federal  
Register** on April 30, 2010 (75 FR  
22809). After receiving DOT  
certification, the laboratory will be  
included in the monthly list of HHS-  
certified laboratories and participate in  
the NLCP certification maintenance  
program.

### Bureau of Ocean Energy Management, Regulation and Enforcement

[Docket No. BOEM-2011-0053]

### Commercial Wind Lease Issuance and Site Characterization Activities on the Atlantic Outer Continental Shelf (OCS) Offshore New Jersey, Delaware, Maryland, and Virginia

**AGENCY:** Bureau of Ocean Energy  
Management, Regulation and  
Enforcement (BOEMRE), Interior.

**ACTION:** Notice of the availability of an  
environmental assessment.

**SUMMARY:** BOEMRE has prepared a draft  
environmental assessment (EA)  
considering the environmental impacts  
and socioeconomic effects of issuing  
renewable energy leases (which  
includes reasonably foreseeable site  
characterization activities—geophysical,  
geotechnical, archeological, and  
biological surveys—on those leases) in  
identified Wind Energy Areas (WEAs)  
offshore New Jersey, Delaware,  
Maryland, and Virginia. The draft EA  
also considers the reasonably  
foreseeable environmental impacts and  
socioeconomic effects associated with  
the approval of site assessment activities  
(including the installation and operation  
of meteorological towers and buoys) on  
the leases that may be issued.

The purpose of this notice is to inform  
the public of the availability of the draft  
EA for review and comment. Public  
comments on the draft EA will be  
considered in the preparation of the  
final EA and determination of whether  
a Finding of No Significant Impact  
would be appropriate, or whether an  
Environmental Impact Statement (EIS)  
would need to be prepared. The draft  
EA can be accessed online at: [http://  
www.boemre.gov/offshore/  
RenewableEnergy/  
SmartFromTheStart.htm](http://www.boemre.gov/offshore/RenewableEnergy/SmartFromTheStart.htm).

**Authority:** This Notice of Availability  
(NOA) of an EA is published pursuant to 43  
CFR 46.305.

**FOR FURTHER INFORMATION CONTACT:**  
Michelle Morin, BOEMRE Office of  
Offshore Alternative Energy Programs,

[michelle.morin@boemre.gov](mailto:michelle.morin@boemre.gov).

**SUPPLEMENTARY INFORMATION:** On  
November 23, 2010, Secretary of the  
Interior Ken Salazar announced the  
“Smart from the Start” renewable  
energy initiative to accelerate the  
responsible development of renewable  
energy resources on the Atlantic OCS.  
One of the focuses of the initiative is the

identification and refinement of WEAs (areas on the OCS that appear to be suitable for renewable energy development), within which BOEMRE will focus its leasing efforts. In consultation with other Federal agencies and BOEMRE's Intergovernmental Renewable Energy Task Forces, BOEMRE identified WEAs offshore New Jersey, Delaware, Maryland, and Virginia. On February 9, 2011, BOEMRE identified these WEAs in a Notice of Intent (NOI) to prepare an EA for Mid-Atlantic WEAs (76 FR 7226), which requested public input with regard to the identification of the important environmental issues associated with leasing and site assessment within the identified WEAs, and alternatives to be considered in the EA. BOEMRE considered these public comments in drafting the alternatives and assessing the reasonably foreseeable environmental impacts associated with each. Comments received in response to the NOI can be viewed at <http://www.regulations.gov> by searching for Docket ID BOEM-2010-0077.
