

of the Siletz Indians of Oregon; Coquille Tribe of Oregon; Cow Creek Band of Umpqua Indians of Oregon; and Klamath Tribes, Oregon, were notified, but did not participate in consultations about the human remains described in this notice.

### History and Description of the Remains

In the 1970s, human remains representing a minimum of three individuals were removed from somewhere near the mouth of the Sandy River, in Multnomah County, OR. The human remains were removed due to illegal pot-hunting activities. The human remains were subsequently given to the university, but specific provenience information was not provided. No known individuals were identified. No associated funerary objects are present.

Ethnographic records suggest the mouth of the Sandy River, where it meets the Columbia River, was occupied by Chinookan peoples. The Chinookan peoples occupied a vast area for hunting, fishing, and trade that was "south of the Columbia from the cascades to the mouth of the Willamette" (Berreman, 1937). The Sandy River is within this vast area. The human remains described above are believed to have been removed from this area, which is within or near the traditional lands of the Chinookan peoples whose descendants are members of the present-day Confederated Tribes of the Grand Ronde Community of Oregon and Confederated Tribes of the Warm Springs Reservation of Oregon.

The Confederated Tribes of the Grand Ronde Community of Oregon includes numerous bands from western Oregon, as well as some communities from extreme southwestern Washington and northern California. These communities and bands are the Clackamas Chinook, Multnomah Chinook, Clatsop Chinook, Willapa Chinook, Lower Chinook Proper, Nehalem, Salmon River, Tillamook, Nestucca, Kathlamet or Wahkiakum Chinook, Skilloot, Clatskanie, Clowewalla of the Tumwater, Cascades or Mehetatate of the Tumwater, Tualatin Calapooia, Yamhill Calapooia, Pudding River or Ahantchuyak Calapooia, Santiam Calapooia, Che-lucke-mute or Luckiamute Calapooia, Chelamelah or Long Tom Calapooia, Winefelly, Chemapho or Muddy Creek Calapooia, Chepenefa or Marys River Calapooia, Tsankupi or Tecopa Calapooia, Mohawk or Chefan Calapooia, Yoncalla, Northern Molalla, Southern Molalla, Latgawa or Upper Takelma, Rogue River, Upper Umpqua, and Northern Shasta. At the

time of contact, the individual groups spoke 30 dialects of the Athapaskan, Chinookan, Kalapuyan, Takelman, Molalan, Sahaptin, Salishan, and Shastan language families. In 1856–1857, the U.S. Government forcibly relocated the Grand Ronde peoples to the Grand Ronde Reservation, located at the headwaters of the South Yamhill River in Yamhill and Polk Counties, OR. The last additions to the Grand Ronde came onto the reservation in the 1870s. The Confederated Tribes of the Grand Ronde Community of Oregon were first incorporated in 1935, terminated from Federal recognition in 1954, and restored to recognized status in 1983.

The Confederated Tribes of the Warm Springs Reservation of Oregon are composed of the Wasco Tribe, the Warm Springs Tribes, and groups of Northern Paiutes. The Wasco Tribe, made up of the Dalles and Dog River bands, occupied the lower Columbia River area and belong to the Chinookan language group. The Warm Springs Tribes, composed of the Upper Deschutes (Tygh), Lower Deschutes (Wyam), Tenino and John Day (Dock-spus) bands, lived on the Deschutes and John Day Rivers, as well as up river of the Wasco Tribe on the Columbia River. The Northern Paiutes were forcibly moved onto the Warm Springs Reservation in 1879 and 1884, but originally had roamed a large territory that included parts of the Deschutes and John Day River Valleys, as well as high desert territories to the east and south of the reservation. In 1855, the Warm Springs and Wasco Tribes entered into a treaty with the United States of America, ceding more than 10 million acres of land. In 1938, the Warm Springs, Wasco and Northern Paiute Tribes formed a confederacy.

The human remains and associated funerary objects were removed from Bell County, KY, and Summers County, WV.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). ### Consultation

A detailed assessment of the human remains was made by University of Colorado Museum professional staff in consultation with representatives of the Absentee-Shawnee Tribe of Indians of Oklahoma; Cherokee Nation, Oklahoma; Chickasaw Nation, Oklahoma; Eastern Band of Cherokee Indians of North Carolina; Eastern Shawnee Tribe of Oklahoma; Shawnee Tribe, Oklahoma; and United Keetoowah Band of Cherokee Indians in Oklahoma.

### History and Description of the Remains

On an unknown date, human remains representing a minimum of two individuals were removed from a cave near Pineville, in Bell County, KY, by Gervis W. Hoofnagle (1886-1959), an avocational archeologist. No known individuals were identified. The associated funerary objects are five non-human rib bones (four of which have been modified to come to a point at one end).

Mr. Hoofnagle's widow, Alice G. Hoofnagle, sold his collection to the University of Colorado Museum in March 1961. In February 2008, the human remains and associated funerary objects were found in the museum. Based on reasonable evidence provided during consultation, the human remains are Native American. The same evidence supports cultural affiliation to all three Federally-recognized Cherokee tribes—Cherokee Nation, Oklahoma; Eastern Band of Cherokee Indians of North Carolina; and United Keetoowah Band of Cherokee Indians in Oklahoma. Traditional Cherokee burials are found in rock crevices and caves; traditional Cherokee burials include non-human bones such as the sharpened rib bones found with this burial. A portion of Bell County, KY, is within the aboriginal territory of the Cherokee based on a final judgment of the Indian Claims Commission. In addition, Bell County, KY, is within the aboriginal territory of the Cherokee based on reasonable evidence presented during consultation.

On an unknown date, human remains representing a minimum of one individual were removed from Burial 2, Farley site, on the New River, near Hinton, in Summers County, WV, by Hoofnagle (1886-1959). No known individual was identified. The associated funerary objects are two bear teeth.

This individual was part of the Hoofnagle collection sold to the University of Colorado Museum in March 1961. Based on tooth wear and the associated funerary objects, the human remains are Native American. During consultation, reasonable evidence was presented in support of Summers County, WV, being within the aboriginal territory of the Cherokee. Also during consultation, reasonable evidence was presented in support of continuity in the utilization of animal parts, such as bear teeth, in traditional Cherokee burials.

### Determinations Made by the University of Colorado Museum

Officials of the University of Colorado Museum have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described above represent the physical remains of three individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the seven objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group

identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Cherokee Nation, Oklahoma; Eastern Band of Cherokee Indians of North Carolina; and United Keetoowah Band of Cherokee Indians in Oklahoma.
