This notice is prepared in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and the Office of Management and Budget (OMB) regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Description of Information Collection

Title: Emergency Watershed Protection Program. OMB Number: 0578-0030.

Expiration Date: January 31, 2012.

Type of Request: To request comments on a currently approved collection for which approval will expire.

Abstract: The primary objective of NRCS is to work in partnership with the American people and the farming and ranching community to conserve and sustain our natural resources. The purpose of EWP information collection is to provide assistance to sponsors to undertake emergency measures to retard runoff and prevent soil erosion to safeguard lives and property from floods, drought, and the products of erosion on any watershed whenever fire, flood, or other natural disaster is causing or has caused a sudden impairment of that watershed. The sponsor's request is submitted formally as a letter (now the Appendix to NRCS-PDM-20A) to the NRCS State Conservationist for consideration. The Damage Survey Report (NRCS-PDM-20) is the agency decisionmaking document that includes the economic, social, and environmental evaluation and the engineer's cost estimate. This information collection allows the responsible Federal official to make EWP program eligibility determinations and provide Federal cost-share contribution to complete the measures. This request is necessary to implement the EWP program for which NRCS has statutory authority. The table below lists the forms in this collection, the uses for each document, and the applicable programs. These forms constitute this information collection and reflect the documents used by EWP sponsors to request participation in the recovery program.

Form No.	Form Title	OMB No.	Program
NRCS-PDM-20	Damage Survey Report	0578-0030	EWP Recovery.
NRCS-PDM-20A	Appendix to the DSR, Request for Participation in the Program	0578-0030	EWP Recovery.

NRCS will ask OMB for 3-year approval within 60 days of submitting the request.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3.5 hours or 117 minutes per response.

Respondents: State government or State agency or a legal subdivision thereof, local unit of government, or any Native American Tribe or Tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C.450b), with a legal interest in or responsibility for the values threatened by a watershed emergency. All of the foregoing entities must be capable of obtaining necessary land rights and

capable of carrying out any operation and maintenance responsibilities that may be required.

Estimated Number of Respondents: 420.

Estimated Total Annual Burden on Respondents: 5,565 hours.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed August 17, 2011, in Washington, DC.

Homer L. Wilkes,
Acting Associate Chief, Natural Resources Conservation Service.
