SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 280, Prospecting for Minerals Other than Oil, Gas, and Sulphur on the Outer Continental Shelf. *BOEMRE Form(s):* 0134.

OMB Control Number: 1010–0072.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. An amendment to the OCS Lands Act (Pub. L. 103–426) authorizes the Secretary to negotiate agreements (in

lieu of the previously required competitive bidding process) for the use of OCS sand, gravel, and shell resources for certain specified types of public uses. The specified uses will support construction of governmental projects for beach nourishment, shore protection, and wetlands enhancement; or any project authorized by the Federal Government.

Section 1340 states that “* * * any person authorized by the Secretary may conduct geological and geophysical [G&G] explorations in the Outer Continental Shelf, which do not interfere with or endanger actual operations under any lease maintained or granted pursuant to this Act, and which are not unduly harmful to aquatic life in such area.”

Section 1352 further requires that certain costs be reimbursed to the parties submitting required G&G information and data. Permittees are to be reimbursed costs of reproducing any G&G data required to be submitted and for the reasonable cost of processing geophysical information required to be submitted when processing is in a form or manner required by the Director and is not used in the normal conduct of the business of the permittee. Regulations implementing these responsibilities are in 30 CFR part 280. The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104–133, 110 Stat. 1321, April 26, 1996), and the OMB Circular A–25, authorize Federal agencies to recover the full cost of services that confer special benefits. Prospecting permits are subject to cost recovery under Department of the Interior's implementing policy, and BOEMRE regulations specify service fees for these requests.

We use the information: (1) To ensure there is no environmental degradation, personal harm or unsafe operations and

conditions; (2) the activities do not damage historical or archaeological sites or interfere with other uses; (3) to analyze and evaluate preliminary or planned drilling activities; (4) to monitor progress and activities in the OCS; (5) to acquire G&G data and information collected under a Federal permit offshore; (6) to determine eligibility for reimbursement from the Government for certain costs; and (7) to determine the qualifications of applicants. BOEMRE also uses the information collected to understand the G&G characteristics of hard mineral-bearing physiographic regions of the OCS.

We will protect information considered proprietary according to 30 CFR 280.70, "What data and information will be protected from public disclosure?" 30 CFR 250.197, "Data and information to be made available to the public or for limited inspection," 30 CFR part 252, "OCS Oil and Gas Information Program," and the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2). No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion; and as required in the permit.

Description of Respondents: Permittee(s).

collection. There is a \$2,012 permit application fee.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents. Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
