Abstract: The Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 *et seq.*) prohibits the unauthorized take of migratory birds and authorizes the Secretary of the Interior to regulate take of migratory birds in the United States. Under this authority, we control the hunting of migratory game birds through regulations in 50 CFR part 20. On January 1, 1991, we banned lead shot for hunting waterfowl and coots in the United States. Wildlife managers and policymakers at all levels are becoming increasingly concerned about the exposure of mourning doves to spent lead shot.

The mourning dove is the most hunted migratory game bird species. We are asking OMB for approval to sponsor a National Mourning Dove Hunter Attitude Survey on Nontoxic Shot. The Association of Fish and Wildlife Agencies and all four Flyway Councils are collaborating on this survey. Information from this survey will help us make nontoxic shot policy decisions and develop appropriate informational and educational programs if new regulations are necessary.

Under the Migratory Bird Harvest Information Program (50 CFR 20.20), each State annually provides a list of all migratory bird hunters licensed by the State (OMB Control Number 1018-0023). We will use these lists to randomly select mourning dove hunters to participate in the proposed survey. We plan to collect:
