TRICARE Demonstration Project for the Philippines

AGENCY: Department of Defense, Office of the Secretary of Defense (Health Affairs)/TRICARE Management Activity.

ACTION: Notice of a TRICARE demonstration project for the Philippines.

SUMMARY: This notice is to advise interested parties of a Military Health System demonstration project entitled "TRICARE Demonstration Project for the Philippines." The purpose of this demonstration is to validate an alternative approach to providing healthcare services for those beneficiaries covered under the TRICARE Standard option in the Philippines, controlling costs, eliminating any balance billing issues, and ensuring that the billing practices comply with regulatory requirements. Under this demonstration, the overseas contractor in the Philippines will establish a dedicated list of providers in the Philippines who will file their claims with the contractor and be reimbursed under an established fee schedule. The providers will adhere to the quality of care requirements of the overseas contract. The beneficiaries will have overall lower costs because these providers will no longer require payments at the time of service nor will they subject beneficiaries to balanced billing of charges. Because of the geographic conditions in the Philippines and the realization that providers of the required specialties are not available in all areas, the contractor will not be required to develop a list of providers in all areas. However, in those

areas where the contractor is able to develop a sufficient list of providers then all TRICARE Standard beneficiaries residing in those areas of the Philippines will be required to use these providers in order for their claims to be paid. Notice will be provided to the beneficiaries informing them of the areas participating and not participating in this demonstration.

DATES: *Effective Date:* Effective November 28, 2011.

ADDRESSES: TRICARE Management Activity (TMA), TRICARE Policy and Operations Directorate, 5111 Leesburg Pike, Suite 810, Falls Church, VA 22041-3206.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Talisnik, Office of the ASD (HA)—TMA, (703) 681-8723.

SUPPLEMENTARY INFORMATION:

A. Background

TRICARE has recognized the unique circumstances existing in the Philippines which made the provision of medical care to TRICARE beneficiaries through the TRICARE Overseas program operated in other overseas locations challenging. TRICARE has experienced dramatic increases in the amount billed for healthcare services rendered in the Philippines from \$15 million in 1999 to \$59 million in 2009 while the number of beneficiaries has remained constant. Administrative controls such as the validation of providers, implementation of a fee reimbursement schedule, duplicate claims edits and the impact of the cost-shares and deductibles have limited actual TRICARE expenditures to \$17 million in 2009 for only approximately 11,000 beneficiaries.

In addition to these administrative controls, fraud and abuse activities in the Philippines have been a growing concern that necessitated prompt investigation and actions to reduce the number of fraudulent or abusive incidences. Measures were taken to prevent or reduce the level of fraud and abuse against TRICARE while concurrent investigations and prosecutions were conducted. In April 2008, seventeen individuals were convicted of defrauding the TRICARE program of more than \$100 million.

As a result, prepayment review of claims is conducted to identify excessive charges and aberrant practices. Prepayment review is a tool typically used on a limited basis. Nevertheless, these efforts alone are not expected to control and eliminate the rising costs in the Philippines.

Because of this concern, the purpose of this demonstration is to validate an
