

thence northeast to Seapath Marina, Wrightsville Beach, NC. Approximate position latitude 34°11'45" N, longitude 077°48'27" W. All coordinates reference Datum NAD 1983.

(b) *Definitions.* (1) *Coast Guard Patrol Commander* means a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the Commander, Coast Guard Sector North Carolina.

(2) *Official Patrol* means any person or vessel assigned or approved by Commander, Coast Guard Sector North Carolina with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

(3) *Participant* includes all swimmers and support vessels participating in the "Beach 2 Battleship Full and Half Iron Distance Triathlon" under the auspices of the marine event permit issued to the event sponsor and approved by Commander, Coast Guard Sector North Carolina.

(c) *Special local regulations.* (1) Except for persons or vessels authorized by the Coast Guard Patrol Commander. No person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in the regulated area must: (i) Stop the vessel immediately when directed to do so by any Official Patrol and then proceed only as directed.

(ii) All persons and vessels shall comply with the instructions of the Official Patrol.

(iii) When authorized to transit the regulated area, all vessels shall proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the swim course.

(d) *Enforcement Period.* This section will be enforced from 7 a.m. to 11 a.m. on October 29, 2011.

Dated: September 13, 2011.

A. Popiel,

Captain, U.S. Coast Guard, Captain of the Port North Carolina.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2011-0888]

Drawbridge Operation Regulation; Chickasaw Creek, AL

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, issued a temporary deviation from the regulation governing the operation of the CSX Railroad Swing Span Bridge across Chickasaw Creek, mile 0.0, at Mobile, Alabama. The deviation is necessary to repair structural members of the bridge. This deviation allows the bridge to remain closed for ten consecutive hours for repairs to structural members of the bridge.

DATES: This deviation is effective from 7 a.m. until 5 p.m. on Sunday, October 30, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2011-0888 and are available online by going to <http://www.regulations.gov>, inserting USCG-2011-0888 in the "Keyword" box and then clicking "Search". They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail David Frank, Bridge Administration Branch; telephone 504-671-2128, e-mail David.m.frank@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: CSX Transportation requested a temporary deviation from the operating schedule for the Swing Span Bridge across Chickasaw Creek, mile 0.0, in Mobile, Alabama. The bridge has a vertical clearance of 6 feet above mean high water in the closed-to-navigation position and unlimited in the open-to-navigation position.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the bridge to remain closed to navigation from 7 a.m. until 5 p.m. on Sunday, October 30, 2011. At all other times, the bridge will open on signal for the passage of vessels.

The closure is necessary in order to effect repairs to structural members of the bridge. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists mainly of tugs with tows and ships. Coordination between the Coast Guard and the waterway users determined that there should not be any significant effects on these vessels. There are no alternate routes available to vessel traffic. The bridge will not be able to open for emergencies.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 19, 2011.

David M. Frank,

Bridge Administrator.

[Docket No. USCG-2011-0625]

Drawbridge Operation Regulations; Navesink (Swimming) River, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Oceanic Bridge at mile 4.5 across the Navesink (Swimming) River between Oceanic and Locust Point, New Jersey. The deviation is necessary to facilitate bridge rehabilitation. This deviation allows the bridge to open only one of the two moveable spans for the passage of vessel traffic.

DATES: This deviation is effective from October 31, 2011 through April 27, 2012.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2011-0625 and are available online at <http://www.regulations.gov>, inserting USCG-2011-0625 in the "Keyword" box and then clicking "Search". They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Mr. Joe Arca, Project Officer, First Coast Guard District, joe.m.arca@uscg.mil, or telephone (212) 668-7165. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The Oceanic Bridge, across the Navesink (Swimming) River, mile 4.5, between Oceanic and Locust Point, New Jersey, has a vertical clearance in the closed position of 22 feet at mean high water and 24 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.734.

The vessel traffic that normally transits the bridge are seasonal recreational vessels.

The owner of the bridge, County of Monmouth New Jersey, requested a temporary deviation from the regulations to facilitate bridge rehabilitation repairs. During the bridge repairs only one moveable span can be opened for the passage of vessel traffic.

The navigation channel under the bridge provides 75 feet of horizontal clearance with unobstructed vertical clearance in the open position.

During this temporary deviation the horizontal clearance in the main channel will provide 37.5 feet of horizontal clearance keeping one moveable span in the closed position.

The Coast Guard believes that this temporary deviation meets the reasonable needs of navigation because the recreational users that normally use this bridge do not operate during the winter months when this deviation will be in effect and the 37.5 feet of horizontal clearance should be sufficient for the seasonal recreational vessel traffic that uses this waterway.

Under this temporary deviation the Oceanic Bridge may open only one of the two moveable spans for the passage of vessel traffic between October 31, 2011 and April 27, 2012.

Vessels that can pass under the bridge in the closed position may do so at any time.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 19, 2011.

Gary Kassof,
Bridge Program Manager, First Coast Guard District.

[Docket No. USCG-2011-0846]

Drawbridge Operation Regulations; Narrow Bay, Smith Point, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Smith Point Bridge, 6.1, across Narrow Bay, between Smith Point and Fire Island, New York. The deviation is necessary to facilitate bridge rehabilitation. This deviation allows the bridge to open only one of the two moveable spans for the passage of vessel traffic.

DATES: This deviation is effective from September 26, 2011 through December 21, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2011-0846 and are available online at <http://www.regulations.gov>, inserting USCG-2011-0846 in the "Keyword" and then clicking "Search". They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Ms. Judy Leung-Yee, Project Officer, First Coast Guard District, judy.k.leung-ye@uscg.mil, or telephone (212) 668-7165. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The Smith Point Bridge, across Narrow Bay, mile 6.1, between Smith Point and Fire Island, New York, has a vertical clearance in the closed position of 16 feet at mean high water and 18 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.799(d).

The waterway users are recreational vessels of various sizes.

The owner of the bridge, Suffolk County Department of Public Works, requested a temporary deviation from the regulations to facilitate bridge

rehabilitation, repairs to the bascule spans. During the bridge repairs only one moveable span will be opened for the passage of vessel traffic.

The main navigation channel provides 55 feet of horizontal clearance with unobstructed vertical clearance during a bridge opening.

During this temporary deviation the main channel will only provide 27.5 feet of horizontal clearance with unobstructed vertical clearance during a bridge opening.

The Coast Guard believes that this temporary deviation should meet the reasonable needs of navigation because the recreational users that normally use this bridge are recreational vessels that can safely pass through a 27.5 foot horizontal clearance due to their relative small size. In addition, most of the above recreational vessels do not operate during the fall and winter months when this deviation will be in effect.

Under this temporary deviation the Smith Point Bridge may open only one of the two moveable spans for the passage of vessel traffic between September 26, 2011 and December 21, 2011.

Vessels that can pass under the bridge in the closed position may do so at any time.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 13, 2011.

Gary Kassof,
Bridge Program Manager, First Coast Guard District.
