**FOR FURTHER INFORMATION CONTACT:** Rick Greene, MSW, National Program Manager for Community Residential Care and Medical Foster Home, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420; telephone (202) 461-6786.

**SUPPLEMENTAL INFORMATION:**

**I. Description of Proposed Systems of Records**

These records include information concerning veterans who reside in Community Residential Care (CRC) or Medical Foster Home (MFH) homes. In addition, the records include information on the operators and staff at these homes.

**II. Proposed Routine Use Disclosures of Data in the System**

We are proposing to establish the following routine use disclosures of information maintained in the system:

1. The record of an individual who is covered by a system of records may be disclosed to a Member of Congress, or a staff person acting for the Member, when the Member or staff person requests the record on behalf of or at the written request of the individual.

2. Disclosure may be made to National Archives and Records Administration (NARA) and the General Services Administration (GSA) in records management inspections conducted under authority of title 44, chapter 29, of the United States Code (U.S.C.). NARA and GSA are responsible for management of old records no longer actively used, but which may be appropriate for preservation, and for the physical maintenance of the Federal government's records. VA must be able to provide the records to NARA and GSA in order to determine the proper disposition of such records.

3. VA may disclose on its own initiative any information in this system, except the names and home addresses of veterans and their dependents, that is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal, or regulatory in nature and whether arising by general or program statute or by regulation, rule, or order issued pursuant thereto, to a Federal, state,

local, tribal, or foreign agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule, or order. VA may also disclose on its own initiative the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal, or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule, or order issued pursuant thereto.

4. VA may disclose information from this system of records to the Department of Justice (DoJ), either on VA's initiative or in response to DoJ's request for the information, after either VA or DoJ determines that such information is relevant to DoJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to the DoJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.

5. Disclosures of relevant information may be made to individuals, organizations, private or public agencies, or other entities with whom VA has a contract or agreement or where there is a subcontract to perform the services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor or subcontractor to perform the services of the contract or agreement. This routine use includes disclosures by the individual or entity performing the service for VA to any secondary entity or individual to perform an activity that is necessary for individuals, organizations, private or public agencies, or other entities or individuals with whom VA has a contract or agreement to provide the service to VA.

6. Disclosure to other Federal agencies may be made to assist such agencies in preventing and detecting possible fraud or abuse by individuals in their operations and programs.

7. VA may, on its own initiative, disclose any information or records to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or

confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise, there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs whether maintained by the Department or another agency or disclosure is to agencies, entities, or persons whom VA determines are reasonably necessary to assist or carry out the Department's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm. This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724, as the terms are defined in 38 U.S.C. 5727.

8. VA may disclose identifying information, including Social Security number, concerning veterans, spouses of veterans, and the beneficiaries of veterans to other Federal agencies for the purpose of conducting computer matches to obtain information to determine or verify eligibility of veterans receiving VA medical care under title 38, U.S.C.

9. VA may disclose relevant health care information to: (1) A Federal agency or non-VA health care provider or institution when VA refers a patient for hospital or nursing home care or medical services, or authorizes a patient to obtain non-VA medical services and the information is needed by the Federal agency or non-VA institution or provider to perform the services; or (2) a Federal agency or to a non-VA hospital (Federal, state, and local public or private) or other medical installation having hospital facilities, organ banks, blood banks, or similar institutions, medical schools or clinics, or other groups or individuals that have contracted or agreed to provide medical services or share the use of medical resources under the provisions of 38 U.S.C. 513, 7409, 8111, or 8153, when treatment is rendered by VA under the terms of such contract or agreement or the issuance of an authorization, and the information is needed for purposes of medical treatment and/or follow-up, determining entitlement to a benefit, or for VA to effect recovery of the costs of the medical care.

10. VA may disclose information from this system of records to the Office of

Management and Budget (OMB) for the performance of its statutory responsibilities for evaluating Federal programs. VA must be able to provide information to OMB to assist it in fulfilling its duties as required by statute and regulation.

11. VA may disclose information to a fiduciary or guardian ad litem in relation to his or her representation of a claimant in any legal proceeding, but only to the extent necessary to fulfill the duties of the fiduciary or guardian ad litem. This disclosure permits VA to provide individual information to an appointed VA Federal fiduciary or to the individual's guardian ad litem that is needed to fulfill appointed duties.

12. VA may disclose relevant information from this system of records in the course of presenting evidence to a court, magistrate, or administrative tribunal; in matters of guardianship, inquests, and commitments; to private attorneys representing veterans rated incompetent in conjunction with issuance of Certificates of Incompetency; and to probation and parole officers in connection with court-required duties.

13. VA may disclose information from this system of records relevant to a claim of a veteran or beneficiary, such as the name, address, the basis and nature of a claim, amount of benefit payment information, medical information, and military service and active duty separation information, at the request of the claimant to accredited service organizations, VA-approved claim agents, and attorneys acting under a declaration of representation, so that these individuals can aid claimants in the preparation, presentation, and prosecution of claims under the laws administered by VA. The name and address of a claimant will not, however, be disclosed to these individuals under this routine use if the claimant has not requested the assistance of an accredited service organization, claims agent or an attorney.

14. VA may disclose relevant medical record information concerning a patient to a non-VA nursing home facility that is considering the patient for admission, when information concerning the individual's medical care is needed for the purpose of preadmission screening under 42 CFR 483.20(f) to identify patients who are mentally ill or mentally retarded so they can be evaluated for appropriate placement.

### III. Compatibility of the Proposed Routine Uses

The Privacy Act permits VA to disclose information about individuals without their consent for a routine use

when the information will be used for a purpose that is compatible with the purpose for which we collected the information. In all of the routine use disclosures described above, the recipient of the information will use the information in connection with a matter relating to one of VA's programs, or will use the information to provide a benefit to VA, or disclosure is required by law.

The notice of intent to publish and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: October 4, 2011.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Records are maintained on computers, paper, and removable or external hardware.

**RETRIEVABILITY:**

Records are retrieved by name, Social Security number, or other assigned identifiers of the individuals on whom they are maintained.

**SAFEGUARDS:**

1. Access to VA working and storage areas is restricted to VA employees on a "need-to-know" basis; strict control measures are enforced to ensure that disclosure to these individuals is also based on this same principle. Generally, VA file areas are locked after normal duty hours and the facilities are protected from outside access by the Federal Protective Service or other security personnel.

2. Access to computer rooms at health care facilities is generally limited by appropriate locking devices and restricted to authorized VA employees and vendor personnel. ADP peripheral devices are placed in secure areas (areas that are locked or have limited access) or are otherwise protected. Information in VistA may be accessed by authorized VA employees. Access to file information is controlled at two levels; the systems recognize authorized employees by series of individually unique passwords/codes as a part of

each data message, and the employees are limited to only that information in the file which is needed in the performance of their official duties. Information that is downloaded from VistA and maintained on personal computers is afforded similar storage and access protections as the data that is maintained in the original files. Access to information stored on automated storage media at other VA locations is controlled by individually unique passwords/codes.

3. Access to the Austin VA Data Processing Center is generally restricted to Center employees, custodial personnel, Federal Protective Service, and other security personnel. Access to computer rooms is restricted to authorized operational personnel through electronic locking devices. All other persons gaining access to computer rooms are escorted. Information stored in the computer may be accessed by authorized VA employees at remote locations including VA health care facilities, Information Systems Centers, VA Central Office, and Veterans Integrated Service Networks. Access is controlled by individually unique passwords/codes which must be changed periodically by the employee.

**RETENTION AND DISPOSAL:**

Paper records and information are maintained and disposed of in accordance with records disposition authority approved by the Archivist of the United States.

**SYSTEM MANAGER(S) AND ADDRESS:**

Official responsible for policies and procedures; Office of Geriatrics and

Extended Care (114), Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420.

**NOTIFICATION PROCEDURE:**

Individuals who wish to determine whether this system of records contains information about them should contact the VA facility location at which they are or were employed or made or have contact. Inquiries should include the person's full name, Social Security number, dates of employment, date(s) of contact, and return address.

**RECORD ACCESS PROCEDURE:**

Individuals seeking information regarding access to and contesting of records in this system may write, call, or visit the VA facility location where they are or were employed or made contact.

**CONTESTING RECORD PROCEDURES:**
