SUPPLEMENTARY INFORMATION:

Title: Understanding Value Trade-offs Regarding Fire Hazard Reduction Programs in the Wildland-Urban Interface.

OMB Number: 0596-0189.

Expiration Date of Approval: April 30, 2012.

Type of Request: Extension with revision.

Abstract: Forest Service and university researchers will contact recipients of a phone-mail questionnaire to help forest and fire managers understand value trade-offs regarding

fire hazard reduction programs in the wildland-urban interface. Through those contacts, researchers will evaluate the responses of California and Colorado residents to different scenarios related to fire-hazard reduction programs, determine how effective residents think the programs are, and calculate how much residents would be willing to pay to implement the alternatives presented to them. This information will help researchers provide better information to natural resource, forest, and fire managers when they are contemplating the kind and type of fire-hazard reduction program to implement to achieve forestland management planning objectives.

A random sample of California and Colorado residents are contacted via random-digit dialed telephone calls and asked to participate in the research study. Those agreeing to participate then answer a minimal set of questions to determine pre-existing knowledge of fuels reduction treatments and provide a mailing address, as well as agreeing to a date and time for an in-depth interview related to the questionnaire. After completion of the in-depth interview, no further contact with the participants will occur.

A university research-survey center collects the information. A Forest Service researcher and a researcher at a cooperating university analyze the data collected. Both researchers are experienced in applied economic non-market valuation research and survey research.

The Forest Service, Bureau of Land Management, Bureau of Indian Affairs, National Park Service, Fish and Wildlife Service, as well as many State agencies with fire protection responsibilities will benefit from this.

At present the Forest Service, Bureau of Land Management, Bureau of Indian Affairs, National Park Service, Fish and Wildlife Service, and many State agencies with fire protection responsibilities are planning to embark on an ambitious and costly fuels reduction program for fire risk reduction and will benefit from public opinion on which treatments are most effective or desirable.

Estimate of Annual Burden: 30 minutes.

Type of Respondents: Members of the public.

Estimated Annual Number of Respondents: 1,000.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1,250 hours.

Comment Is Invited

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request toward Office of Management and Budget approval.

Dated: November 4, 2011.

Census Bureau

Proposed Information Collection; Comment Request; Manufacturers' Shipments, Inventories, and Orders (M3) Survey

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before January 13, 2012.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Chris Savage, U.S. Census Bureau, Manufacturing and Construction Division, 4600 Silver Hill Rd., Room 7K071, Washington, DC 20233-6913, (301) 763-4834 or via the Internet at john.c.savage@census.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request an extension of the current Office of Management and Budget (OMB) clearance of the Manufacturers' Shipments, Inventories and Orders (M3) survey. The Manufacturers' Shipments, Inventories, and Orders (M3) survey requests data from domestic

manufacturers on form M-3 (SD), which will be mailed at the end of each month. Data requested are shipments, new orders, unfilled orders, total inventory, materials and supplies, work-in-process, and finished goods. It is currently the only survey that provides broad-based monthly statistical data on the economic conditions in the domestic manufacturing sector.

The M3 survey is designed to measure current industrial activity and to provide an indication of future production commitments. The value of shipments measures the value of goods delivered during the month by domestic manufacturers. Estimates of new orders serve as an indicator of future production commitments and represent the current sales value of new orders received during the month, net of cancellations. Substantial accumulation or depletion of unfilled orders measures excess or deficient demand for manufactured products. The level of inventories, especially in relation to shipments, is frequently used to monitor the business cycle.

We do not plan any changes to the M-3 (SD) form. The estimated total annual burden hours will remain 17,200 due to no increase in the number of respondents.

II. Method of Collection

Respondents submit data on form M-3 (SD) via mail, facsimile machine, or via the Internet. Analysts call respondents who usually report, to obtain data in time for preparing the monthly estimates.

III. Data

OMB Control Number: 0607-0008.

Form Number: M-3 (SD). You can obtain information on the proposed content at this Web site: <http://www.census.gov/mcd/clearance>.

Type of Review: Regular submission.

Affected Public: Businesses, large and small, or other for profit.

Estimated Number of Respondents: 4,300.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 17,200.

Estimated Total Annual Cost: \$510,152.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Sections 131 and 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 7, 2011.

Fresh and Chilled Atlantic Salmon From Norway: Final Results of Full Third Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 3, 2011, the Department of Commerce (the Department) initiated a sunset review of the antidumping duty (AD) order on fresh and chilled Atlantic salmon from Norway pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). *See Initiation of Five-Year ("Sunset") Review*, 76 FR 89 (January 3, 2011) (*Sunset Initiation*). On the basis of adequate substantive responses submitted by domestic and respondent interested parties, the Department determined to conduct a full sunset review of this AD order pursuant to section 751(c) of the Act and 19 CFR 351.218(e)(2). As a result of our analysis, the Department finds that revocation of the AD order would likely lead to continuation or recurrence of dumping.

DATES: *Effective Date:* November 14, 2011.
