SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document which the State revises as necessary to address its unique air pollution problems. Therefore, EPA, from time to time, must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference Federally-approved SIPs, as a result of consultations between EPA and the Office of the Federal Register (OFR). The description of the revised SIP document, IBR procedures and "Identification of plan" format are discussed in further detail in the May 22, 1997 **Federal Register** document. On April 21, 2000 (65 FR 21315), EPA published a **Federal Register** action beginning the new IBR procedure for Virginia. On September 8, 2004 (69 FR 54216), November 3, 2005 (70 FR 66769), July 16, 2007 (72 FR 38920), and July 13, 2009 (74 FR 33332) as corrected on December 18, 2009 (74 FR 67077), EPA published updates to the IBR material for Virginia.

Since the publication of the last IBR update, EPA has approved the following regulatory changes to the following Virginia regulations:

A. Added Regulations

1. 9VAC5 Chapter 30 (Ambient Air Quality Standards), Sections 5-30-15, 5-30-56, and 5-30-66.
2. 9VAC5 Chapter 40 (Existing Stationary Sources), Part II (Emission Standards), Article 51 (Stationary Sources Subject to Case-by-Case Control Technology Determinations).
3. 9VAC5 Chapter 85 (Permits for Stationary Sources of Pollutants Subject to Regulation), Parts I (Applicability), III (Prevention of Significant Deterioration Permit Actions), and IV (State Operating Permit Actions).
4. 9VAC5 Chapter 130 (Regulation for Open Burning), Part I (General Provisions), Sections 5-130-10 through 5-130-50.

5. 9VAC5 Chapter 151 (Transportation Conformity).
6. 9VAC5 Chapter 220 (Opacity Variance for Rocket Testing Operations Atlantic Research Corporation's Orange County Facility).

B. Revised Regulations

4. 9VAC5 Chapter 40, Part II (Emission Standards), Article 4 (Emission Standards for General Process Operations), Section 5-40-250.
5. 9VAC5 Chapter 50 (New and Modified Stationary Sources), Part I (Special Provisions), section 5-50-20.
6. 9VAC5 Chapter 80 (Permits for Stationary Sources), Article 8 (Permits-Major Stationary Sources and Major Modifications Located in Prevention of Significant Deterioration Areas), Sections 5-80-1615 and 5-80-1665.
7. The following regulations in 9VAC5 Chapter 140 (Regulation for Emission Trading):
 - a. Part I (NO_x Budget Trading Program), Article 1 (NO_x Budget Trading Program General Provisions), Sections 5-140-1010, 5-140-1020, and 5-140-1060.
 - b. Part II (NO_x Annual Trading Program), Article 1 (CAIR NO_x Annual Trading Program General Provisions), Sections 5-140-2010 and 5-140-2020.

2. 9VAC5 Chapter 40, Part II, Article 40 (Emission Standards for Open Burning)-entire article.

II. EPA Action

In this action, EPA is doing the following:

A. In Paragraph 52.2420(b)

Announcing the update to the IBR material as of October 15, 2011.

B. In Paragraph 40 CFR 52.2420(c)

1. Consolidating Section 5–10–20 by reducing the number of entries from seven to two.

2. Placing the entries for 9VAC5 Chapter 220 before those of 9VAC5 Chapter 230.

3. Correcting a typographical error in the title heading entry for Section 5–40–20.

4. Correcting typographical errors in the “Title/subject” column for Sections 5–30–70 and 5–140–3400.

5. Correcting the date in the “State effective date” column for Sections 5–4–7410 and 5–40–7420.

6. Correcting in the “EPA effective date” column:

a. The date in Sections 5–40–7070 and 5–50–20.

b. The **Federal Register** citation for all of the entries in 9VAC5 Chapter 230.

7. Correcting the text in the “Explanation [former SIP citation]” column for Section 5–130–10.

C. In Paragraph 52.2420(d)

Correcting the date format in the “State effective date” column for Global Stone Chemstone Corporation.

D. In Paragraph 52.2420(e)

1. Restoring the entry for Documents Incorporated by Reference (9VAC5–20–21, Sections B. and E.1.), which had been inadvertently removed from the paragraph (e) table. EPA had approved this entry as a revision to the Virginia SIP on January 18, 2011 (76 FR 2829), with a SIP effective date of March 21, 2011.

2. Correcting the date format for the following entries:

a. Documents Incorporated by Reference (9VAC5–20–21, Paragraphs E.4.a. (21) and (22)).

b. Carbon Monoxide Maintenance Plan for Arlington County & Alexandria City.

EPA has determined that today’s rule falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today’s rule simply codifies provisions which are already in effect as a matter of law in Federal and approved State programs. Under section 553 of the APA, an agency may find good cause

where procedures are “impractical, unnecessary, or contrary to the public interest.” Public comment is “unnecessary” and “contrary to the public interest” since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations and incorrect table entries.

III. Statutory and Executive Order Reviews*A. General Requirements*

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible

methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Maryland SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” update action for Virginia.

On May 6, 2011, EPA determined that the submittal for PCAPCD 236, PCAPCD 238, and SMAQMD 451 met the completeness criteria in 40 CFR Part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

We approved earlier versions of PCAPCD 236, PCAPCD 238, and SMAQMD 451 into the SIP on April 30, 1996 (61 FR 18962), February 12, 1996 (61 FR 5288), and January 24, 1985 (50

FR 3338), respectively. The PCAPCD adopted revisions to the SIP-approved versions on October 14, 2010 and CARB submitted them to us on April 5, 2011. There are no subsequent submittals of the PCAPCD rules. The SMAQMD adopted revisions to the SIP-approved version of Rule 451 on October 28, 2010 and CARB submitted them to us on April 5, 2011. While we can act on only the most recently submitted version, we have reviewed materials provided with previous submittals.

C. What is the purpose of the submitted rule revisions?

VOCs help produce ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control VOC emissions. The submitted rules control emissions from coatings and strippers used on wood products, wood paneling, and miscellaneous metal parts and products. EPA’s technical support documents (TSDs) have more information about these rules.
