

Assessment

The Department will instruct CBP to assess antidumping duties on all appropriate entries. For IUSA, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period November 22, 2010, through October 31, 2011, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent increase in the amount of antidumping duties assessed.

Notification Regarding Administrative Protective Order

This notice serves as a final reminder to parties subject to administrative protective orders ("APOs") of their responsibility concerning the disposition of proprietary information disclosed under an APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: February 15, 2012.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Silicon Metal From the People's Republic of China: Final Results of the Expedited Third Sunset Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On November 1, 2011, the Department of Commerce ("the Department") initiated the third sunset review of the antidumping duty order on silicon metal from the People's Republic of China ("PRC") pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). Based on the notice of intent to participate and adequate substantive response filed by the domestic interested party, and the lack of response from any respondent interested party, the Department conducted an expedited (120-day) sunset review of the antidumping duty order on silicon metal from the PRC, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of this sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping, at the levels indicated in the "Final Results of Sunset Review" section of this notice, *infra*.

DATES: *Effective Date:* February 22, 2012.

FOR FURTHER INFORMATION CONTACT:

Patrick O'Connor or Howard Smith, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0989 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION: On June 10, 1991, the Department published the antidumping duty order on silicon metal from the PRC.¹ On November 1, 2011, the Department published the notice of initiation of the third sunset review of the antidumping duty order on silicon metal from the PRC, pursuant to section 751(c) of the Act.² On November 16, 2011, pursuant to 19 CFR 351.218(d)(1), the Department received a timely and complete notice of intent to participate in the sunset review from Globe Metallurgical, Inc., a domestic

producer of silicon metal ("Globe"). On December 1, 2011, pursuant to 19 CFR 351.218(d)(3), Globe filed a timely and adequate substantive response. The Department did not receive substantive responses from any respondent interested party. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of the antidumping duty order on silicon metal from the PRC.

Scope of the Order

Imports covered by this review are shipments of silicon metal containing at least 96.00 but less than 99.99 percent of silicon by weight. Also covered by this review is silicon metal from the PRC containing between 89.00 and 96.00 percent silicon by weight but which contains a higher aluminum content than the silicon metal containing at least 96.00 percent but less than 99.99 percent silicon by weight. Silicon metal is currently provided for under subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule ("HTS") as a chemical product, but is commonly referred to as a metal. Semiconductor-grade silicon (silicon metal containing by weight not less than 99.99 percent of silicon and provided for in subheading 2804.61.00 of the HTS) is not subject to this review. Although the HTS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review is provided in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice. See "Issues and Decision Memorandum for the Expedited Third Sunset Review of the Antidumping Duty Order on Silicon Metal from the People's Republic of China," from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, dated concurrently with this notice ("I&D Memorandum"). The issues discussed in the I&D Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the order is revoked. The I&D Memorandum is a public document and is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"). Access to IA ACCESS is

¹ See *Antidumping Duty Order: Silicon Metal From the People's Republic of China*, 56 FR 26649 (June 10, 1991).

² See *Initiation of Five-Year ("Sunset") Review*, 76 FR 67412 (November 1, 2011).

available in the Central Records Unit ("CRU"), room 7046 of the main Department of Commerce building. In addition, a complete version of the I&D Memorandum can be accessed directly on the internet at <http://www.trade.gov/ia/>. The signed I&D Memorandum and the electronic versions of the I&D Memorandum are identical in content.

Final Results of Sunset Review

The Department determines that revocation of the antidumping duty order on silicon metal from the PRC would be likely to lead to continuation or recurrence of dumping at the following weighted-average margins:

Exporters	Weighted-Average margin (percent)
PRC-Wide Rate	139.49

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: February 15, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Postponement of Preliminary Determination in the Countervailing Duty Investigation

AGENCY: Import Administration, International Trade Administration, Commerce.

FOR FURTHER INFORMATION CONTACT: Gene Calvert, Jun Jack Zhao, or Emily Halle, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3586, (202) 482-1396 or (202) 482-0176, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 21, 2011, based on a timely request from the petitioner, SolarWorld Industries America, Inc. (Petitioner), the Department of Commerce (the Department) extended the due date for the preliminary determination in the countervailing duty investigation of crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China, to no later than February 13, 2012.¹ Petitioner made a second timely request on January 19, 2012, to further postpone the preliminary countervailing duty determination by 18 days, to March 2, 2012, which the Department granted.²

Postponement of Due Date for the Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary determination in a countervailing duty investigation within 65 days after the date on which the Department initiated the investigation. However, if the Department concludes that the parties concerned in the investigation are cooperating and determines that the investigation is extraordinarily complicated, section 703(c)(1)(B) of the Act allows the Department to postpone making the preliminary determination until no later than 130 days after the date on which the administering authority initiated the investigation.

The Department has determined that the parties involved in this proceeding are cooperating, and that the investigation is extraordinarily complicated.³ The mandatory respondents recently filed extensive questionnaire responses and also identified and included responses to the

questionnaire for multiple cross-owned affiliated companies, which now are included in the investigation.⁴ Specifically, the Department is investigating 27 alleged subsidy programs including, but not limited to, loans, grants, income tax incentives, and the provision of goods and services for less than adequate remuneration. Due to the number of companies and the complexity of the alleged countervailable subsidy practices being investigated, we determine that this investigation is extraordinarily complicated. Therefore, in accordance with section 703(c)(1)(B) of the Act, we are fully extending the due date for the preliminary determination to no later than 130 days after the day on which the investigation was initiated. However, as that date falls on a Saturday (*i.e.*, March 17, 2012), the deadline for completion of the preliminary determination is now Monday, March 19, 2012, the next business day.⁵

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: February 15, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.
