Proposed Establishment of Class E Airspace; Wilkes-Barre, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM), withdrawal.

SUMMARY: A notice of proposed rulemaking published in the **Federal Register** on July 1, 2011, establishing Class E airspace at Wilkes-Barre/Wyoming Valley Airport, Wilkes-Barre, PA, is being withdrawn. Controlled airspace already exists for area airports under this city designator. A new proposal amending the existing airspace will be submitted under a separate rulemaking.

DATES: Effective 0901 UTC March 2, 2012, the proposed rule published July 1, 2011 (76 FR 38585), is withdrawn.

FOR FURTHER INFORMATION CONTACT: Richard Horrocks, Operations Support Group, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–5588.

SUPPLEMENTARY INFORMATION:

History

On July 1, 2011, a NPRM was published in the **Federal Register** establishing Class E airspace at Wilkes-Barre, PA, to accommodate new standard instrument approach procedures for Wilkes-Barre/Wyoming Valley Airport, Wilkes-Barre, PA (76 FR 38585). Subsequent to publication the FAA found that Class E airspace extending upward from 700 feet above the surface currently exists for Wilkes-Barre, PA, with the primary airport being Wilkes-Barre/Scranton International Airport. To avoid confusion this proposed rule is being withdrawn and another rulemaking will be forthcoming adding Wilkes-Barre/Wyoming Valley Airport to the current city designator, Wilkes-Barre, PA.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially

significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment

SUPPLEMENTARY INFORMATION:

Background

Legislation and Purposes of Saguaro National Park

Due to the exceptional growth of various species of cacti, including the giant saguaro cactus, and because of outstanding scientific interest, Saguaro National Park was initially reserved as a National Monument on March 1, 1933 (Presidential Proclamation No. 2032, 47 Stat. 2557).

In 1961, Presidential Proclamation No. 3439 (76 Stat. 1437) enlarged the boundaries of the Saguaro National Monument to include certain lands within the Tucson Mountains containing a remarkable display of relatively undisturbed lower Sonoran desert vegetation, including a spectacular saguaro stand.

In October 1976, Public Law 94–567 (90 Stat. 2692) designated parts of Saguaro National Monument as a wilderness area, known as the Saguaro Wilderness.

On June 19, 1991, Congress passed Public Law 102–61 that included the

“Saguaro National Monument Expansion Act of 1991” (105 Stat. 303) to authorize the addition of approximately 3,540 acres to the Rincon unit of Saguaro National Monument in order to protect, preserve, and interpret the monument’s resources, and to provide for education and benefit to the public.

Under the Saguaro National Park Establishment Act of 1994 (16 U.S.C. 410zz), Saguaro National Monument was renamed Saguaro National Park.

The Park is an important national resource visited by approximately 700,000 people annually. It encompasses/includes approximately 91,450 acres, 71,400 acres of which are designated as wilderness. The Park has two Districts—the Rincon Mountain District east of Tucson and the Tucson Mountain District west of Tucson. Both are within Pima County, Arizona, and are separated by the city of Tucson. The Park protects a superb example of the Sonoran Desert ecosystem, featuring exceptional stands of Saguaro cacti. The Saguaro is the tallest cactus in the United States, and is recognized worldwide as an icon of the American Southwest.

The Hope Camp Trail is a 2.8 mile long hiking and equestrian trail that originates at the Loma Alta Trailhead and travels east through the southwestern portion of the Park’s Rincon Mountain District to the Arizona State Trust Lands boundary beyond Hope Camp. The trail generally traverses relatively even terrain and rolling hills, and is lined with a variety and abundance of desert trees and shrubs. The trail is not within proposed, recommended, or designated wilderness.

Prior to NPS acquisition in the mid 1990s, the land was part of a privately-owned ranch, and the trail route was a graded dirt road used to support ranching operations. The former owner also allowed the route to be used for recreational purposes, including hiking, equestrian and bicycle use. Shortly after acquiring the land, NPS closed the route to motor vehicles and bicycles. The trail is currently open to hiker and equestrian use only. Although closed to vehicular traffic, the route remains approximately 14 feet wide, allowing adequate room for two-way passage of diverse user groups.

General Management Plan

The Park’s General Management Plan/ Environmental Impact Statement (GMP) was completed in 2008. The GMP may be viewed online at <http://parkplanning.nps.gov/sagu>.
