SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Longshore and Harbor Workers' Compensation Act (LHWCA). LHWCA provides benefits to workers injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. In addition, several Acts extend the Longshore Act's coverage to certain other employees. The following regulations have been developed to implement the Act's provisions and to provide clarification in those areas where it was deemed necessary (20 CFR 702.162, 702.174, 702.175, 20 CFR 702.242, 20 CFR 702.285, 702.321, 702.201, and 702.111). In some cases, prior regulations have been updated and changed either to reflect the intent of the amended Act or to correct recognized deficiencies. This information collection is currently approved for use through June 30, 2012.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
