

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice will be required to procure the products listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products to the Government.

2. If approved, the action will result in authorizing small entities to furnish the products to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the products proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

Withdrawal of Notice of Intent To Prepare a Joint Draft Supplemental Environmental Impact Statement for a Proposed Navigation Improvement Project at Maalaea Harbor, Maui, HI (Second SEIS for the Project)

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent (withdrawal).

SUMMARY: On July 9, 1997, the U.S. Army Corps of Engineers (USACE) announced its intent to prepare a joint Draft Supplemental Environmental Impact Statement (SEIS) in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, for the Proposed Navigation Improvement Project at Maalaea Harbor, Maui, Hawaii. The Maalaea Harbor project, sponsored by USACE and the State of Hawaii, Department of Land and Natural Resources, Division of Boating and Ocean Recreation (DOBOR), was originally authorized under Section 101 of the Rivers and Harbors Act of 1968, as amended. The Draft SEIS would have evaluated the environmental impacts of potential alternatives to address navigational safety and surge-related problems in Maalaea Harbor.

Based on careful consideration of the implementation costs, regulatory requirements, and other concerns expressed by the community, the navigation improvement project for the Maalaea Harbor has been terminated by the project sponsors. Therefore, future preparation of an EIS is not necessary. The notice of intent to prepare an EIS is withdrawn and the NEPA process is hereby terminated.

FOR FURTHER INFORMATION CONTACT:

Further information is available on the Web site for the project at <http://www.maalaeaaharborproject.com/> or from Ms. Cindy Barger, Project Manager, U.S. Army Corps of Engineers, Honolulu District, ATTN: CEPOH-PP-C, Room 307, Building 230, Ft. Shafter, HI 96858, email: cindy.s.barger@usace.army.mil, telephone: (808) 438–6940.

SUPPLEMENTARY INFORMATION: The U.S. Army Corps of Engineers (USACE) was investigating navigation improvements at Maalaea Harbor, Maui, Hawaii, originally authorized in 1968. The local sponsor of the project was the State of Hawaii, Department of Land and Natural Resources, Division of Boating and Ocean Recreation (DOBOR). Over the course of time, a variety of alternative project designs, including

both external and internal breakwater structures were investigated to address the navigational safety and surge-related problems. However, concerns over impacts to adjacent surf breaks and biological resources were raised on several occasions, resulting in multiple delays in the planning process. Most recently, USACE and DOBOR re-initiated the project in 2009, with a focus on using stakeholder input and updated technical information to better define and inform the planning process. Through this effort, the decision to terminate the project was made based on careful consideration of the high cost associated with the proposed improvements (particularly in light of the current and foreseeable economic conditions), the regulatory constraints and mitigation requirements for unavoidable impacts to coral reefs, and community concerns regarding impacts to surf sites and natural resources.

A variety of technical studies and planning documents were produced in support of the project, including flushing studies, habitat surveys, and wave response modeling. The public may request copies of reports. The public will be notified of the termination of the project through a public notice, as well as a press release by the project sponsors. The press release will be published on the project Web site and posted at Maalaea Harbor.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

DEPARTMENT OF EDUCATION

Proposed Priority; Technical Assistance on State Data Collection, Analysis, and Reporting—National IDEA Technical Assistance Center on Early Childhood Longitudinal Data Systems; CFDA Number 84.373Z

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice.

SUMMARY: The Assistant Secretary for Special Education and Rehabilitative Services proposes a priority under the Technical Assistance on State Data Collection program. The Assistant Secretary may use this priority for competitions in fiscal year (FY) 2012 and later years. We take this action to focus attention on an identified national need to provide technical assistance (TA) to States to improve their capacity to meet the Individuals with Disabilities Education Act (IDEA) data collection, analysis, and reporting requirements.

We propose to assist States in developing or enhancing statewide early childhood longitudinal data systems, by which we mean data systems that include child-level data for infants, toddlers, and young children with disabilities (birth through age 5) served through early childhood programs under IDEA Part C and Part B preschool programs. These statewide early childhood longitudinal data systems

would be part of a coordinated early learning data system, by which we mean data systems that vertically and horizontally link child, program, and workforce data elements related to children (birth through age 5). This TA will build States' capacity to report high-quality data to meet IDEA reporting requirements.
