RIN 0938–AR07

Patient Protection and Affordable Care Act; Standards Related to Reinsurance, Risk Corridors, and Risk Adjustment; Correction

AGENCY: Department of Health and Human Services.

ACTION: Final rule; correction.

SUMMARY: This document corrects a technical error that appeared in the final rule with comment period published in the **Federal Register** on March 23, 2012

entitled, "Patient Protection and Affordable Care Act; Standards Related to Reinsurance, Risk Corridors, and Risk Adjustment."

DATES: *Effective Date:* This correction is effective on May 22, 2012.

FOR FURTHER INFORMATION CONTACT: Jeff Wu at (301) 492-4416. Wakina Scott at (301) 492-4393.

SUPPLEMENTARY INFORMATION:

I. Background

In **Federal Register** Doc. 2012-6594 of March 23, 2012 (77 FR 17220-17252), there was a technical error that is identified and corrected in the "Correction of Error" section below. The provision in this correction document is effective as if it had been included in the document published on March 23, 2012. Accordingly, the correction is effective on May 22, 2012.

II. Summary of Error

On page 17248, we inadvertently made an incorrect cross reference in the regulations text at § 153.220(d). We are correcting the cross reference from "§ 153.210(a)(2)(ii)" to read "§ 153.210(a)(2)(iii)" to specify that if a State contracts with more than one applicable reinsurance entity, the State must notify HHS in the manner and timeframe specified by HHS of the percentage of reinsurance contributions received from HHS for the State to be allocated to each applicable reinsurance entity.

III. Waiver of Proposed Rulemaking

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide a period for public comment before the provisions of a rule take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). However, we can waive this notice and comment procedure if the Secretary finds, for good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the notice.

Section 553(d) of the APA ordinarily requires a 30-day delay in effective date of final rules after the date of their publication in the **Federal Register**. This 30-day delay in effective date can be waived, however, if an agency finds there is good cause to do so, and the agency incorporates a statement of the findings and its reasons in the rule issued.

This document merely corrects technical and typographic errors in the Health Insurance Premium Stabilization

final rule that was published on March 23, 2012 and becomes effective on May 22, 2012. The changes are not substantive changes to the standards set forth in the final rule. Therefore, we believe that undertaking further notice and comment procedures to incorporate this correction and delay the effective date for this change is unnecessary. In addition, we believe it is important for the public to have the correct information as soon as possible, and believe it is contrary to the public interest to delay the dissemination of it. For the reasons stated above, we find there is good cause to waive notice and comment procedures and the 30-day delay in the effective date for this correction notice.

IV. Correction of Error

Correction to the Regulations Text

§ 153.220 [Corrected]

■ On page 17248, in the second column; under "paragraph (d) *Distribution of reinsurance contributions*," in line 11, revise the cross reference "§ 153.210(a)(2)(ii)" to read "§ 153.210(a)(2)(iii)".

Dated: May 11, 2011.

Jennifer Cannistra,

Executive Secretary to the Department.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 15

[ET Docket No. 04-186 and 02-380; FCC 12-36]

Unlicensed Operation in the TV Broadcast Band

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document addresses five petitions for reconsideration of the Commission's decisions in the *Second Memorandum Opinion and Order* ("Second MO&O") in this proceeding and modifies the Commission's rules in certain respects. In particular, the Commission is increasing the maximum height above average terrain (HAAT) for sites where fixed devices may operate; modifying the adjacent channel emission limits to specify fixed rather than relative levels; and slightly increasing the maximum permissible power spectral density (PSD) for each category of TV bands device. These changes will result in decreased

operating costs for fixed TVBDs and allow them to provide greater coverage, thus increasing the availability of wireless broadband services in rural and underserved areas without increasing the risk of interference to incumbent services. The Commission is also revising and amending several of its rules to better effectuate the Commission's earlier decisions in this docket and to remove ambiguities.

DATES: Effective June 18, 2012.

FOR FURTHER INFORMATION CONTACT: Hugh L. Van Tuyl, Office of Engineering and Technology, 202-418-7506, hugh.vantuyl@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Third Memorandum Opinion and Order, ET Docket No. 04-186 and 02-380, FCC 12-36, adopted April 4, 2012 and released April 5, 2012. Summary of the Third Memorandum Opinion and Order

1. In this Order, the Commission addressed five petitions for reconsideration of its decisions in the *Second Memorandum Opinion and Order* ("Second MO&O"), 75 FR 75814, December 6, 2010, in this proceeding and modified its rules in certain respects. In particular, the Commission increased the maximum height above average terrain (HAAT) for sites where fixed devices may operate; modified the adjacent channel emission limits to specify fixed rather than relative levels; and slightly increased the maximum permissible power spectral density (PSD) for each category of TV bands device. These changes will result in decreased operating costs for fixed TVBDs and allow them to provide greater coverage, thus increasing the availability of wireless broadband services in rural and underserved areas without increasing the risk of interference to incumbent services.
