

NRC's Agencywide Documents Access and Management System (ADAMS): You may access publicly-available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this notice is provided the first time that a document is referenced. The application, dated November 18, 2011, is available electronically in ADAMS under Accession No. ML11340A077.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2012-0124 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS, and the NRC does not edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information in their comment submissions that they do not want to be publicly disclosed. Your request should state that the NRC will not edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Further Information

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering the request for partial site release to Facility Operating License No. NPF-62 issued to Exelon Generation Company, LLC (the licensee, EGC) for operation of the Clinton Power Station, Unit 1 (CPS), located in DeWitt County, Illinois.

The proposed partial site release would transfer 4-acres of property,

owned by EGC, from CPS to Creek Township to expand the Lisenby Cemetery.

Before acceptance of the partial site release, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission is seeking public comments on this proposed determination. Any comments received on or before June 13, 2012 will be considered in making any final determination.

For further details with respect to this partial site release, see the application dated November 18, 2011, which is available for public inspection at the Commission's PDR, located at One White Flint North, File Public Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. Publicly available documents created or received at the NRC are accessible electronically through ADAMS in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov.

Attorney for licensee: Mr. Bradley J. Fewell, Associate General Counsel, Exelon Nuclear, 4300 Winfield Road, Warrenville, IL 60555.

Dated at Rockville, Maryland, this 25th day of May 2012.

For the Nuclear Regulatory Commission.

Michael Mahoney,

Project Manager, Plant Licensing Branch III-2, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos.: 50-213 and 72-39; NRC-2012-0123]

Connecticut Yankee Atomic Power Company; Haddam Neck Independent Spent Fuel Storage Installation, Staff Evaluation; Exemption

1.0 Background

Connecticut Yankee Atomic Power Company (CYAPCO, the licensee) is the holder of Facility Operating License No. DPR-61 which authorizes possession of nuclear fuel under Title 10 of the Code of Federal Regulations (10 CFR) part 50. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S.

Nuclear Regulatory Commission (NRC or the Commission) now or hereafter in effect. Per 10 CFR part 72, Subpart K, a general license is issued for the storage of spent fuel in an Independent Spent Fuel Storage Installation (ISFSI) to persons authorized to possess or operate nuclear power reactors under 10 CFR part 50. Thus, CYAPCO also holds a 10 CFR part 72 general license which allows storage of spent fuel and greater than Class C waste at the Haddam Neck ISFSI in East Hampton, Connecticut.

Under Facility Operating License No. DPR-61, CYAPCO operated a Pressurized Water Reactor (PWR) until 1996 when operations ceased. Later, CYAPCO began transferring fuel from the reactor spent fuel pool into vertical dry casks at their ISFSI facility. These activities were completed in 2005, and final decommissioning of the reactor site was completed in 2007. The Haddam Neck ISFSI is a stand-alone ISFSI located on approximately five acres of land that was not released for unrestricted use after completion of decommissioning of the CY PWR.

The Power Reactor Security Rule, which applies to all 10 CFR part 50 licensees, was revised on March 27, 2009, with compliance required by March 31, 2010 (74 FR 13926). The NRC held a webinar on July 20, 2010, to provide clarification on the applicability of the power reactor security regulations to 10 CFR part 50 licensees undergoing decommissioning or 10 CFR part 50 licensees that have only a general licensed ISFSI. On August 2, 2010, the NRC issued a letter to CYAPCO clarifying the applicability of the revised power reactor security regulations to a Part 50 licensee undergoing decommissioning or a Part 50 licensee that has only a general licensed ISFSI. In the August 2, 2010, letter, the NRC noted that there are currently no security or health and safety concerns at these facilities that may not be in compliance with the current 10 CFR 73.55 requirements because the Security Plans at these facilities meet the baseline requirements of the previous version of 10 CFR 73.55 and also meet the requirements of subsequent NRC security orders. The NRC requested a response be submitted within 120 days of receipt of the August 2, 2010, letter.

By letter dated November 30, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML103570296), CYAPCO responded to the August 2, 2010, letter. In its response, CYAPCO requested exemptions from certain requirements in 10 CFR 73.55, "Requirements for Physical Protection of Licensed

Activities in Nuclear Power Reactors Against Radiological Sabotage,” which it considered either not applicable or caused an undue burden to a stand-alone ISFSI. CYAPCO also submitted a matrix which described how CYAPCO either complied with 10 CFR 73.55 and applicable orders or needed an exemption. CYAPCO further stated that its exemption request is intended to maintain its NRC-approved Physical Security Plan (PSP). In addition, CYAPCO noted that the statement of consideration for the Power Reactor Security Rule states that the Commission did not intend to make changes to the substantive requirements of 10 CFR 72.212 and that the Commission has initiated a separate rulemaking to revise the ISFSI security requirements (74 FR 13958).

2.0 Discussion

Pursuant to 10 CFR 73.5, “Specific Exemptions,” the Commission may, upon application by any interested person or upon its own initiative, grant such exemptions from the requirements in 10 CFR part 73 as it determines are authorized by law and will not endanger life or property or the common defense and security and are otherwise in the public interest. The NRC evaluated the exemption requests submitted by CYAPCO in its November 30, 2010, letter. After evaluating the exemption requests, the staff determined CYAPCO should be granted exemptions from the following requirements: 10 CFR 73.55(e)(10)(ii) and 73.55(g)(8)(iv). Section 73.55(e)(10)(ii) sets forth requirements for restricting access by waterborne vehicles and 73.55(g)(8)(iv) sets forth access authorization requirements. The remaining exemptions requested were determined either to be inapplicable to the facility or are being met by the licensee’s current PSP; therefore, these exemptions were denied. Additional information regarding the NRC staff evaluation is documented in a Safety Evaluation Report that contains Sensitive Unclassified Non-Safeguards Information and is being withheld from public inspection in accordance with 10 CFR 2.390.

In considering these exemption requests, the staff reviewed an NRC letter dated January 30, 2003, which issued CYAPCO Amendment No. 199 to Facility Operating License No. DPR-61, and the Haddam Neck ISFSI PSP (Revision 2). The staff also reviewed the revised Power Reactor Security Rule, 10 CFR 73.55, which became effective on May 26, 2009 (74 FR 13926), to identify substantive changes affecting previously approved exemptions. In addition, the

staff reviewed inspection reports prepared after conducting inspections of the licensee’s facility, procedures, and PSP for compliance with all applicable regulations and NRC Orders. Based upon its review, the staff determined that current barriers and actions implemented under the Haddam Neck ISFSI PSP satisfy the requirements of 10 CFR 73.55, and that granting the requested exemptions will not result in a violation of the Atomic Energy Act of 1954, as amended (the Act), or the Commission’s regulations. Therefore, the exemptions are authorized by law.

The purpose of the regulations in 10 CFR 73.55 is to establish and maintain a physical protection system designed to protect against radiological sabotage. The purpose of 10 CFR 73.55(e)(10)(ii) is to restrict waterborne vehicle access and perform periodic surveillance of waterway approaches. However, there are no pathways which allow waterborne vehicles to gain direct access to the ISFSI. Furthermore, CYAPCO employs site specific barriers as part of its NRC-approved PSP which are appropriate for the reduced radiological risk associated with a stand-alone ISFSI. The purpose of the regulations in 10 CFR 73.55(g)(8)(iv) is to ensure personnel trained as escorts be knowledgeable of where visitors would be working within the protected area and that visitors within the protected area will be escorted. The staff determined that the NRC approved measures currently employed by CYAPCO in its PSP are appropriate for the reduced radiological risk to the public from the ISFSI and are consistent with the general performance standards in 10 CFR 73.55(b). Therefore, the staff concludes that the exemptions do not pose an increased risk to public health and safety and are not inimical to the common defense and security. Given the above considerations, granting this exemption will not endanger life or property or the common defense and security.

As discussed above, the purpose of 10 CFR 73.55 is to protect against radiological sabotage. The staff determined granting CYAPCO an exemption from the requirements of 10 CFR 73.55(e)(10)(ii) and 73.55(g)(8)(iv) would not decrease the level of security currently in place at the Haddam Neck ISFSI, and will not result in increased radiological risk to the public from operation of this general licensed, stand-alone ISFSI. Accordingly, the staff has determined that, pursuant to 10 CFR 73.5, these exemptions are authorized by law and are otherwise in the public interest.

Granting exemptions from the requirements of 10 CFR 73.55(e)(10)(ii) and 73.55(g)(8)(iv) involves safeguards plans. Section 51.22(c)(25)(vi)(F) provides a categorical exclusion for exemptions involving safeguard plans provided that the criteria in 10 CFR 51.22(c)(25)(i)–(v) are also satisfied. In its review of the exemption request, the NRC determined that, pursuant to 10 CFR 51.22(c)(25): (i) Granting the exemptions neither involves a significant reduction in a margin of safety nor creates a new or different kind of accident from any accident previously evaluated, and thus no significant hazards considerations because there is no significant increase in either the probability or consequences of an accident previously evaluated; (ii) granting the exemptions would not produce a significant change in either the types or amounts of any effluents that may be released offsite because the requested exemptions neither change the effluents nor produce additional avenues of effluent release; (iii) granting the exemptions would not result in a significant increase in either occupational radiation exposure or public radiation exposure because the requested exemptions neither introduce new radiological hazards nor increase existing radiological hazards; (iv) granting the exemptions would not result in a significant construction impact because there are no construction activities associated with the requested exemptions; and (v) granting the exemptions would not result in a significant increase in the potential for or consequences from radiological accidents because the exemptions neither reduce the level of security in place at the Haddam Neck ISFSI nor create new accident precursors. Accordingly, this exemption meets the criteria for a categorical exclusion in 10 CFR 51.22(c)(25)(vi)(F).

3.0 Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 73.5, the exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the Commission hereby grants CYAPCO an exemption from the 10 CFR 73.55(e)(10)(ii) requirement to restrict waterborne vehicle access and perform periodic surveillance of waterway approaches as well as the 10 CFR 73.55(g)(8)(iv) requirement for escort personnel to be generally knowledgeable of visitor activities. In addition, CYAPCO shall continue to follow the NRC approved ISFSI PSP and applicable NRC orders. As discussed in

the preceding paragraph, the Commission has determined that this exemption meets the criteria for categorical exclusion set forth in 10 CFR 51.22(c)(25)(vi)(F). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the granting of this exemption. These exemptions are effective upon issuance.

Dated at Rockville, Maryland, this 23rd day of May 2012.

For the Nuclear Regulatory Commission.

Douglas W. Weaver,

Deputy Director, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Submission for Review: Rollover Election (RI 38-117), Rollover Information (RI 38-118), and Special Tax Notice Regarding Rollovers (RI 37-22)

AGENCY: Office of Personnel Management.

ACTION: 60-Day Notice and request for comments.

SUMMARY: The Retirement Services, Office of Personnel Management (OPM) offers the general public and other federal agencies the opportunity to comment on an extension, without change, of a currently approved collection information request (ICR) 3206-0212, Rollover Election (RI 38-117), Rollover Information (RI 38-118), and Special Tax Notice Regarding Rollovers (RI 37-22). As required by the Paperwork Reduction Act of 1995, (Pub. L. 104-13, 44 U.S.C. chapter 35) as amended by the Clinger-Cohen Act (Pub. L. 104-106), OPM is soliciting comments for this collection. The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

DATES: Comments are encouraged and will be accepted until August 3, 2012. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to U.S. Office of Personnel Management, Union Square 370, 1900 E Street NW., Washington, DC 20415-3500, Attention: Alberta Butler, or sent via electronic mail to Alberta.Butler@opm.gov.

FOR FURTHER INFORMATION CONTACT: A copy of this ICR with applicable supporting documentation, may be obtained by contacting the Retirement Services Publications Team, Office of Personnel Management, 1900 E Street NW., Room 4332, Washington, DC 20415, Attention: Cyrus S. Benson, or sent via electronic mail to Cyrus.Benson@opm.gov or faxed to (202) 606-0910.

SUPPLEMENTARY INFORMATION: RI 38-117, Rollover Election, is used to collect information from each payee affected by a change in the tax code so that OPM can make payment in accordance with the wishes of the payee. RI 38-118, Rollover Information, explains the election. RI 37-22, Special Tax Notice Regarding Rollovers, provides more detailed information.

Analysis

Agency: Retirement Operations, Retirement Services, Office of Personnel Management.

Title: Rollover Election, Rollover Information, and Special Tax Notice Regarding Rollover.

OMB Number: 3206-0212.

Frequency: On occasion.

Affected Public: Individuals or Households.

Number of Respondents: 1,500.

Estimated Time per Respondent: 40 minutes.

Total Burden Hours: 1,000.

U.S. Office of Personnel Management.

John Berry,

Director.
