3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

SUPPLEMENTARY INFORMATION: In 2011 the America COMPETES Reauthorization Act of 2010 was signed into law, authorizing the United States government to issue competitions in the areas of technology, education and science. The \$10 million SunShot Prize: America's Most Affordable Rooftop Solar challenges the ingenuity of America's businesses and communities to make it faster, easier, and cheaper to install rooftop solar energy systems. Successful competitors will domestically deploy at least 5,000 new rooftop photovoltaic (PV) installations at average pre-subsidy sales price of \$2 per watt before January 1, 2015. Winners will break a significant price barrier, considered to be unachievable a decade ago. Today's notice announces the availability of draft procedures for administration of the prize competition. The DOE will consider any comments received by July 13, 2012 in adopting these procedures.
