

standards for accreditation that meet or exceed Medicare requirements, a provider entity accredited by the national accrediting body's approved program would be deemed to have met the Medicare conditions. A national accrediting organization applying for approval of its accreditation program under part 488, subpart A, must provide us with reasonable assurance that the accrediting organization requires the accredited provider entities to meet requirements that are at least as stringent as the Medicare conditions. Our regulations concerning the approval of accrediting organizations are set forth at § 488.4 and § 488.8(d)(3). The regulations at § 488.8(d)(3) require accrediting organizations to reapply for continued approval of their accreditation programs every 6 years or as determined by CMS.

The Accreditation Association for Ambulatory Health Care (AAAHC) current term of approval for their ASC accreditation program expires on December 20, 2012.

II. Approval of Deeming Organizations

Section 1865(a)(2) of the Act and our regulations at § 488.8(a) require that our findings concerning review and approval of a national accrediting organization's requirements consider, among other factors, the applying accrediting organization's: Requirements for accreditation; survey procedures; resources for conducting required surveys; capacity to furnish information for use in enforcement activities; monitoring procedures for provider entities found not in compliance with the conditions or requirements; and ability to provide CMS with the necessary data for validation.

Section 1865(a)(3)(A) of the Act also requires that we publish, within 60 days of receipt of an organization's complete application, a notice identifying the national accrediting body making the request, describing the nature of the request, and providing at least a 30-day public comment period. We have 210 days from the receipt of a complete application to publish notice of approval or denial of the application.

The purpose of this proposed notice is to inform the public of AAAHC's request for continued approval of its ASC accreditation program. This notice also solicits public comment on whether AAAHC's requirements meet or exceed the Medicare conditions for coverage.

III. Evaluation of Deeming Authority Request

AAAHC submitted all the necessary materials to enable us to make a

determination concerning its request for continued approval of its ASC accreditation program. This application was determined to be complete on April 27, 2012. Under section 1865(a)(2) of the Act and our regulations at § 488.8 (Federal review of accrediting organizations), our review and evaluation of AAAHC would be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of AAAHC's standards for an ASC as compared with CMS' ASC conditions for coverage.
- AAAHC's survey process to determine the following:
 - + The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.
 - + The comparability of AAAHC's processes to those of state agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.

• AAAHC's processes and procedures for monitoring an ASC found out of compliance with AAAHC's program requirements. These monitoring procedures are used only when AAAHC identifies noncompliance. If noncompliance is identified through validation reviews or complaint surveys, the State survey agency monitors corrections as specified at § 488.7(d).

- AAAHC's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.
- AAAHC's capacity to provide CMS with electronic data and reports necessary for effective validation and assessment of the organization's survey process.

• The adequacy of AAAHC's staff and other resources, and its financial viability.

- AAAHC's capacity to adequately fund required surveys.
- AAAHC's policies with respect to whether surveys are announced or unannounced, to assure that surveys are unannounced.

• AAAHC's agreement to provide CMS with a copy of the most current accreditation survey, together with any other information related to the survey as we may require (including corrective action plans).

IV. Collection of Information Requirements

This document does not impose information collection and recordkeeping requirements. Consequently, it need not be reviewed

by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995 (44 U.S.C. 35).
