

becoming free of restraint under dynamic loading. The dynamic loading of § 25.562(b)(2) is considered an acceptable dynamic event. The applicant may propose an alternate pulse; however, the impulse and peak load may not be less than that of § 25.562(b)(2). As an alternative to a dynamic test, static testing may be used if the loading is assessed as equivalent as or more critical than a dynamic test, based upon validated dynamic analysis. Both the primary directional loading and rebound conditions need to be assessed.

5. *Instructions for Continued Airworthiness.* The instructions for continued airworthiness must reflect the fastening method used and must ensure the reliability of the methods used (e.g., life limit of adhesives, or clamp connection). Inspection methods and intervals must be defined based upon adhesion data from the manufacturer of the adhesive or actual adhesion test data, if necessary.

Issued in Renton, Washington, on June 25, 2012.

K.C. Yanamura,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

15 CFR Part 748

[Docket No. 120608159-2159-01]

RIN 0694-AF71

Amendment to Existing Validated End-User Authorizations: Hynix Semiconductor China Ltd., Hynix Semiconductor (Wuxi) Ltd., and Boeing Tianjin Composites Co. Ltd. in the People's Republic of China

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) to revise the existing Authorization Validated End-User (VEU) listings for three VEU in the People's Republic of China (PRC). Specifically, BIS amends the EAR to change the names of existing VEUs Hynix Semiconductor China Ltd. and Hynix Semiconductor (Wuxi) Ltd. and their respective "Eligible Destinations" in the PRC. Also, BIS amends the list of "Eligible Items (by ECCN)" that may be

exported, reexported and transferred (in-country) to the approved facility of VEU Boeing Tianjin Composites Co. Ltd. (BTC) in the PRC. These changes are prompted by factors arising from the companies' normal course of business, and are not the result of any activities of concern by the companies.

DATES: This rule is effective July 9, 2012.

FOR FURTHER INFORMATION CONTACT:

Karen Nies-Vogel, Chair, End-User Review Committee, Bureau of Industry and Security, U.S. Department of Commerce, 14th Street & Pennsylvania Avenue NW., Washington, DC 20230; by telephone: (202) 482-5991, fax: (202) 482-3991, or email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

Authorization Validated End-User

BIS amended the EAR in a final rule on June 19, 2007 (72 FR 33646), creating a new authorization for "Validated end-users" (VEUs) located in eligible destinations to which eligible items may be exported, reexported, or transferred (in-country) under a general authorization instead of a license, in conformance with section 748.15 of the EAR. VEUs may obtain eligible items that are on the Commerce Control List, set forth in Supplement No. 1 to Part 774 of the EAR, without having to wait for their suppliers to obtain export licenses from BIS. Eligible items may include commodities, software, and technology, except those controlled for missile technology or crime control reasons.

The VEUs listed in Supplement No. 7 to Part 748 of the EAR were reviewed and approved by the U.S. Government in accordance with the provisions of section 748.15 and Supplement Nos. 8 and 9 to Part 748 of the EAR. The revisions to Supplement No. 7 to Part 748 set forth in this rule are being made either at the request of the VEUs or pursuant to the U.S. Government's periodic review of VEU authorizations, and were approved by the End-User Review Committee (ERC) following the process set forth in Section 748.15 and Supplement No. 9 to Part 748 of the EAR.

Amendment to Existing Validated End-User Authorizations in the PRC

Revision to Names of Hynix Semiconductor China Ltd. and Hynix Semiconductor (Wuxi) Ltd. and Their "Eligible destinations"

In this rule, BIS amends Supplement No. 7 to Part 748 of the EAR to change the names of existing VEUs Hynix

Semiconductor China Ltd. and Hynix Semiconductor (Wuxi) Ltd. and the names of the companies' respective "Eligible destinations" (i.e., facilities) in the People's Republic of China (PRC). Both companies were designated as VEUs on October 12, 2010 (75 FR 62462).

In this rule, the name Hynix Semiconductor China Ltd. is changed to SK hynix Semiconductor (China) Ltd., and the name of the company's existing approved "Eligible destination" is changed from Hynix Semiconductor China Ltd. to SK hynix Semiconductor (China) Ltd. In addition, the name Hynix Semiconductor (Wuxi) Ltd. is changed to SK hynix Semiconductor (Wuxi) Ltd., and the name of the company's existing approved "Eligible destination" is changed from Hynix Semiconductor (Wuxi) Ltd. to SK hynix Semiconductor (Wuxi) Ltd. The addresses of the companies' respective "Eligible destinations" remain the same. These amendments are prompted by factors arising from the companies' normal course of business, and are not the result of activities of concern by the companies.

Revision to the List of "Eligible items (by ECCN)" for Boeing Tianjin Composites Co. Ltd.

BIS designated BHA Aero Composite Parts Co. as a VEU on October 19, 2007 (72 FR 59164). On April 29, 2009, BIS amended the authorization by changing the name of the VEU to Boeing Tianjin Composites Co., Ltd. (BTC) (74 FR 19382). In addition, on February 24, 2012, BIS amended BTC's VEU authorization to correct the address of BTC's eligible destination and revise the list of "Eligible items (by ECCN)" that may be exported, reexported, and transferred (in-country) to BTC (77 FR 10953). In this rule, BIS further revises the list of "Eligible items (by ECCN)" that may be exported, reexported, and transferred (in-country) to BTC. This amendment is prompted by factors arising from BTC's normal course of business, and is not the result of activities of concern by BTC.

BTC's list of "Eligible items (by ECCN)" prior to the publication of this rule was:

1A002.a, 1B001.f, 1C010.b, 1C010.e, 1D001 (limited to "software" specially designed or modified for the "development", "production" or "use" of equipment controlled by 1B001.f), 1E001 (limited to "technology" according to the General Technology Note for the "development" or "production" of items controlled by 1A002.a, 1B001.f, and 1C010.b & .e), 2B001.b.2 (limited to machine tools with accuracies no better than (i.e., less than) 13 microns),

2B001.e, 2D001 (limited to “software,” other than that controlled by 2D002, specially designed or modified for the “development,” “production” or “use” of equipment controlled by 2B001.b.2 and 2B001.e), and 2D002 (limited to “software” for electronic devices, even when residing in an electronic device or system, enabling such devices or systems to function as a “numerical control” unit, capable of coordinating simultaneously more than 4 axes for “contouring control” controlled by 2B001.b.2 and 2B001.e).

With this rule, BTC’s revised list of “Eligible items (by ECCN)” is:

1B001.f, 1D001 (limited to “software” specially designed or modified for the “use” of equipment controlled by 1B001.f), 2B001.b.2 (limited to machine tools with accuracies no better than (i.e., not less than) 13 microns), 2D001 (limited to “software,” other than that controlled by 2D002, specially designed or modified for the “use” of equipment controlled by 2B001.b.2), and 2D002 (limited to “software” for electronic devices, even when residing in an electronic device or system, enabling such devices or systems to function as a “numerical control” unit, capable of coordinating simultaneously more than 4 axes for “contouring control” controlled by 2B001.b.2).

Since August 21, 2001, the Export Administration Act (the Act) has been in lapse and the President, through Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp., p. 783 (2002)), as extended most recently by the Notice of August 12, 2011, 76 FR 50661 (August 16, 2011), has continued the EAR in effect under the International Emergency Economic Powers Act. BIS continues to carry out the provisions of the Act, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. This rule involves collections previously approved by the Office of Management and Budget (OMB) under Control Number 0694–0088, “Multi-Purpose Application,” which carries a burden hour estimate of 43.8 minutes to prepare and submit form BIS–748; and for recordkeeping, reporting and review

requirements in connection with Authorization VEU, which carries an estimated burden of 30 minutes per submission. This rule is expected to result in a decrease in license applications submitted to BIS. Total burden hours associated with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA) and OMB Control Number 0694–0088 are not expected to increase significantly as a result of this rule.

Notwithstanding any other provisions of law, no person is required to respond nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

3. This rule does not contain policies with Federalism implications as that term is defined under Executive Order 13132.

4. Pursuant to the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), BIS finds good cause to waive requirements that this rule be subject to notice and the opportunity for public comment because such notice and comment here are unnecessary and contrary to the public interest. In determining whether to grant VEU designations, a committee of U.S. Government agencies evaluates information about and commitments made by candidate companies, the nature and terms of which are set forth in 15 CFR part 748, Supplement No. 8. The criteria for evaluation by the committee are set forth in 15 CFR 748.15(a)(2).

The information, commitments, and criteria for this extensive review were all established through the notice of proposed rulemaking and public comment process (71 FR 38313, July 2, 2006 (proposed rule), and 72 FR 33646, June 19, 2007 (final rule)). Given the similarities between the authorizations provided under the VEU program and export licenses (as discussed further below), the publication of this information does not establish new policy; in publishing this final rule, BIS simply amends three VEU authorizations by updating the names of two end users and revising the “Eligible items (by ECCN)” of another end user. These changes have been made within the established regulatory framework of the Authorization VEU program. Further, this rule does not abridge the rights of the public or eliminate the public’s option to export under any of the forms of authorization set forth in the EAR.

Publication of this rule in other than final form is unnecessary because the

authorization granted in the rule is consistent with the authorizations granted to exporters for individual licenses (and amendments or revisions thereof), which do not undergo public review. Just as license applicants do, VEU authorization applicants provide the U.S. Government with confidential business information. This information is extensively reviewed according to the criteria for VEU authorizations, as set out in 15 CFR 748.15(a)(2). Additionally, just as the interagency reviews license applications, the authorizations granted under the VEU program involve interagency deliberation and result from review of public and non-public sources, including licensing data, and the measurement of such information against the VEU authorization criteria. Given the thorough nature of the review, and in light of the parallels between the VEU application review process and the review of license applications, public comment on this authorization and subsequent amendments prior to publication is unnecessary. Moreover, because, as noted above, the criteria and process for authorizing and administering VEUs were developed with public comments; allowing additional public comment on this amendment to individual VEU authorizations, which was determined according to those criteria, is unnecessary. Finally, allowing for prior public notice and comment is contrary to the public interest because it could cause confusion with the VEU status of the three companies identified in this rule due to the change of VEU names for two of those companies, and the items that may be exported, reexported or transferred (in-country) without a license to one of those companies.

Section 553(d) of the APA generally provides that rules may not take effect earlier than thirty (30) days after they are published in the **Federal Register**. BIS finds good cause to waive the requirement of 5 U.S.C. 553(d)(3) to delay the effectiveness of this regulation, because such a delay is unnecessary. BIS simply amends three VEU authorizations by updating the names of two end users and revising the “Eligible items (by ECCN)” of another end user. These changes have been made within the established regulatory framework of the Authorization VEU program. Further, this rule does not abridge the rights of the public or eliminate the public’s option to export under any of the forms of authorization set forth in the EAR. Delaying this action’s effectiveness could cause confusion with the VEU status of the

three companies identified in this rule due to the change of VEU names for two of those companies, and the items that may be exported, reexported or transferred (in-country) without a license to one of those companies. Accordingly, it would be unnecessary and contrary to the public interest to delay this rule's effectiveness.

No other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required under the APA or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601

et seq.) are not applicable and no regulatory flexibility analysis has been prepared.

List of Subjects in 15 CFR Part 748

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

Accordingly, Part 748 of the EAR (15 CFR parts 730–774) is amended as follows:

PART 748—[AMENDED]

- 1. The authority citation for 15 CFR Part 748 continues to read as follows:

Authority: 50 U.S.C. app. 2401 *et seq.*; 50 U.S.C. 1701 *et seq.*; E.O. 13026, 61 FR 58767,

3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; Notice of August 12, 2011, 76 FR 50661 (August 16, 2011).

■ 2. Supplement No. 7 to Part 748 is amended in “China (People’s Republic of)” by:

- a. Revising the entry for “Boeing Tianjin Composites Co. Ltd.”;
- b. Removing the entries for “Hynix Semiconductor China Ltd.”, and “Hynix Semiconductor (Wuxi) Ltd.”; and
- c. Adding new entries for “SK hynix Semiconductor (China) Ltd.”, and “SK hynix Semiconductor (Wuxi) Ltd.” in alphabetical order.

The revisions and additions read as follows:

SUPPLEMENT NO. 7 TO PART 748—AUTHORIZATION VALIDATED END-USER (VEU); LIST OF VALIDATED END-USERS, RESPECTIVE ITEMS ELIGIBLE FOR EXPORT, REEXPORT AND TRANSFER, AND ELIGIBLE DESTINATIONS

32 CFR Part 2003

[NARA-12-0003]

RIN 3095-AB76

The Interagency Security Classification Appeals Panel (ISCAP) Bylaws, Rules, and Appeal Procedures

AGENCY: Information Security Oversight Office, National Archives and Records Administration.

ACTION: Direct final rule.

SUMMARY: The Interagency Security Classification Appeals Panel (ISCAP) is a Presidential panel that decides on certain classification and declassification issues, as established in Executive Order 13526, Classified National Security Information, December 29, 2009, section 5.3(a)(1), and the E.O.'s implementing directives. Section 5.3(c) of the E.O. directs ISCAP to issue bylaws, rules, and procedures and to publish them in the **Federal Register**. ISCAP previously published its bylaws as a regulatory appendix, Classified National Security Information Directive No. 1. This rule revamps ISCAP's bylaws and appellate procedures and publishes them in their own part for easier access.

DATES: This rule is effective September 7, 2012, without further action, unless adverse comment is received by August 8, 2012. If adverse comment is received, NARA will publish a timely withdrawal of the rule in the **Federal Register**.

ADDRESSES: NARA invites interested persons to submit comments on this direct final rule. Please include "Attn: 3095-AB76 and your name and mailing address in your comments. Comments may be submitted by any of the following methods:

■ **Federal eRulemaking Portal:** Go to: <http://www.regulations.gov>. Follow the instructions for submitting comments.

■ **Fax:** Submit comments by facsimile transmission to 301-837-0319, attention Regulations Comments Desk.

■ **Mail:** Send comments to Strategy and Policy Office (SP); Regulations Comments Desk, Room 4100; National and Archives Records Administration; ATTN: Laura McCarthy; 8601 Adelphi Road; College Park, MD 20740.

■ **Hand Delivery or Courier:** Deliver comments to 8601 Adelphi Road, College Park, MD. Address them to Strategy and Policy Office (SP); Regulations Comments Desk, Room 4100, Attn: Laura McCarthy.

FOR FURTHER INFORMATION CONTACT: John P. Fitzpatrick, Director, ISOO, at 202-357-5250.

SUPPLEMENTARY INFORMATION: ISCAP is a Presidential appellate panel made up of representatives from the Departments of State, Defense, and Justice, the National Archives and Records Administration, the Office of the Director of National Intelligence, and the National Security Advisor, with an occasional representative from the Central Intelligence Agency. The director of the Information Security Oversight Office (ISOO), a unit of the National Archives and Records Administration (NARA), has been tasked by E.O. 13526 as the Panel's Executive Secretary, and the ISOO staff as the administrative staff supporting the Panel. As a result, the ISCAP bylaws and appellate procedures are published by NARA along with other ISOO regulations.

ISCAP's bylaws were previously published in 2004 as Appendix A to ISOO's Directive 1. When ISOO's

directive was updated in 2009, the ISCAP bylaws were not included as an appendix again, and are now being added, along with appellate procedures, for publication as Part 2003. Publishing ISCAP's bylaws and appellate procedures in a separate part will make them easier to find and to use.

This rule is effective upon publication for good cause as permitted by the Administrative Procedure Act (5 U.S.C. 553(d)(3)). NARA believes that delaying the effective date for 30 days is unnecessary as this rule represents minor technical amendments from the previous by-laws as mandated by E.O. 13526.

This direct final rule is not a significant regulatory action for the purposes of E.O. 12866 and has [not] been reviewed by the Office of Management and Budget (OMB). The proposed amendment is also not a major rule as defined in 5 U.S.C. chapter 8, Congressional Review of Agency Rulemaking. As required by the Regulatory Flexibility Act, we certify that this rule will not have a significant impact on a substantial number of small entities because it sets out only the bylaws by which the Panel will operate and the review procedures for Federal agency declassification actions.

List of Subjects in 32 CFR Part 2003

Classified information.

For the reasons stated in the preamble, NARA adds 32 CFR part 2003, to read as follows:
