Background: Executive Order 12862, Setting Customer Service Standards, requires that Federal agencies provide the highest quality service to our customers by identifying them and determining what they think about our existing services and products. The surveys covered in the generic clearance

will provide the FAA with a means to gather this data directly from our customers.

The information obtained from the surveys will be used to assist in evaluating service delivery and processes. The responses to the surveys will be voluntary and will not involve information that is required by regulations. There will be no direct cost to the respondents other than their time. The FAA plans to provide an electronic means for responding to the majority of the surveys via the World Wide Web.

Estimated Average Burden per Response: The burden time will vary for each survey. Generally we estimate an average burden of 15 minutes per response.
